

Check-list of the vascular plants collected during Iter Mediterraneum I

Benito Valdés & Salvador Talavera

Introduction

During the Iter Mediterraneum I, a large collection of flowering plants from SE Spain was made, with a total of 3003 numbers registered in the field books, and a real number of 3233 entries.

The following is a complete list of the specimens collected arranged alphabetically by taxa.

For each taxon the correct name and publication reference is given, together with the most relevant synonyms and the localities where it was collected.

Comments are added for some interesting taxa. These are offered by different members of the expedition or by specialists, and signed individually by their authors.

Many gatherings are apparent new records for the respective province. For example, *Carduus pycnocephalus* L. and *Melilotus neapolitana* Ten. are new for Jaén province; *Scleranthus delortii* Gren; *Bufonia tenuifolia* L., *Lepidium hirtum* (L.) Sm. subsp. *atlanticum* (Ball) Maire and *Scrophularia sciophila* Willk. are new for Almería province; *Tolpis umbellata* Bertol. and *T. x grosii* Talavera are new for Granada province; *Allium vineale* L. and others are even recorded for the first time from E. Andalucía. Other taxa are new for particular areas, even for mountains that are believed to be specially well known such as the Sierra Nevada, from where not less than twenty gatherings, including *Aphanes floribunda* (Murb.) Rothm., *Montia fontana* L. subsp. *chondrosperma* and *Geranium lucidum* L. are new records; the Sierras de Cazorla and Segura, where many plants, such as *Elymus caninus* (L.) L. and *Phalaris arundinacea* L., seem to have been collected for the first time; and the Sierra de Gador, from where *Festuca hystrix* Boiss., *F. nevadensis* (Hackel) Markgr. and other species were not previously recorded. Only a few such records are commented on in the checklist. However, as the localities where the plants have been collected are given under each species, new records for any province or particular area may be easily traced.

The identification of the vascular plants collected has been made by the members of the expedition and by several specialists, as follows:

G. Alziar (Nice): mainly *Cistaceae*, woody *Leguminosae*, most *Labiatae*, *Rosa*, *Astragalus* and *Ononis*.

S. Fici (Palermo): *Polygala* and *Capparis*.

N. Galland (Lausanne): most *Cruciferae*.

- D. Jeanmonod (Genève): most *Rubiaceae*, *Schrophulariaceae*, *Dipsacaceae* and *Compositae*.
- U. Matthäs (Berlin): most *Gramineae* and several numbers from various families.
- P. Minissale (Catania): several *Compositae*, *Allium*; and several members from various families.
- V. Stevanovic (Belgrade): most *Saxifraga* and *Scutellaria*.
- S. Talavera (Sevilla): most gatherings from no. 1.501 to no. 3.003, as well as *Silene* and *Centaurea*.
- B. Valdés (Sevilla): most gatherings from no. 1 to no. 1.500 except part of the *Saxifragaceae*, *Umbelliferae*, *Rubiaceae*, *Cyperaceae*, woody *Leguminosae*, *Orchidaceae*, *Helianthemum*, *Thymus*, *Teucrium*, *Silene* and *Centaurea*.
- M. Watson (Reading): many *Leguminosae* and *Carex*. He is also partly responsible for the correction of the English text.
- J. R. Akeroyd (Reading): *Polygonaceae*, *Anthyllis*.
- H. J. M. Bowen (Reading): a wide range of species of various families.
- Z. Díaz Lifante (Sevilla): *Asphodelaceae*.
- F. García Martín (Sevilla): *Umbelliferae*.
- S. Gardner (Reading): many *Umbelliferae*.
- S. L. Jury (Reading): most *Umbelliferae* and *Psoralea*.
- M. Kerguélen (La Minière): *Festuca*.
- M. Luceño (Madrid): *Carex*.
- H. McAlistair (Reading): *Santolina*.
- J. A. Mejías (Sevilla): *Lactuceae*.
- G. Nieto Feliner (Madrid): *Armeria*.
- J. Pastor (Sevilla): *Chenopodiaceae*, *Polygonaceae* and *Allium*.
- S. Puech (Montpellier): *Teucrium*.
- C. Raynaud (Montpellier): *Helianthemum*.
- A. Rocchia (Roquebrune Cap Martin): *Carex*.
- C. Romero (Sevilla): most *Gramineae*, *Medicago*, *Vicia* and *Lathyrus*. He is also responsible for the curatorial data base for the checklist.
- H. Scholz (Berlin): most *Gramineae*.
- S. Silvestre (Sevilla): *Saxifragaceae*, *Plantaginaceae*, *Crassulaceae*, *Salicaceae*, *Frankeniaceae*, *Cyperaceae* and *Orchidaceae*.
- M. Southam (Reading): some *Umbelliferae*.
- D. A. Webb (Dublin): *Saxifraga*.
- P. Wilfin (Reading): some *Chenopodiaceae*.

Check-list

Acer granatense Boiss., Elenchus 25 (1838)

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 580; Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1463.

Acer monspessulanum L., Sp. Pl. 1056 (1753)

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1800.

Achillea ageratum L., Sp. Pl. 897 (1753)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 638.

Achillea odorata L., Syst. Nat. ed. 10, 2: 1225 (1759)

Almería: Sierra de Gador, Fondón, Llanos de Boliches, calcareous soils, WF1786, 1650 m, 18.06.1988, 836; **Granada:** Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1313; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1692; **Jaén:** Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2718; Caserío de D. Domingo, above the river bed of Los Cuartos, calcareous soils, WH3107, 1600 m, 29.06.1988, 2787c.

Acinos alpinus (L.) Moench, Méth. 407 (1794) subsp. *meridionalis* (Nyman) P. W. Ball, Bot. Journ. Linn. Soc. 65: 344 (1972). [= *Calamintha granatensis* Boiss. & Reuter, Pugillus 49, 1852]

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 591; Sierra Nevada, El Chullo, damp area in shale soils, VG9905, 2150 m, 19.06.1988, 884; **Granada:** Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 340; Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 486; Sierra de Baza, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1291; idem, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1404; Sierra de la Sagra, amongst rocks and stones, calcareous soil and screes, WG3699, 1850-2300 m, 24.06.1988, 1919b; Sierra de la Sagra, amongst rocks and stones, calcareous soil and screes, WG3699, 1850-2300 m, 24.06.1988, 1998; idem, calcareous soils, WG3597, 1400-1700 m, 24.06.1988, 2046; **Málaga:** Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 61.

Acinos rotundifolius Pers., Syn. Pl. 2: 131 (1806)

Albacete: Sierra de las Huebras, around El Pozo, rocks and stony areas, calcareous soils, WH4618, c. 1400 m, 28.06.1988, 2559.

Adenocarpus decorticans Boiss., Biblioth. Univ. Genève ser. 2, 13: 407 (1838)

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 411; Puerto de la Ragua, near the crossroads to Canjayar, VG9803, 19.06.1988, 977.

Adiantum capillus-veneris L., Sp. Pl. 1096 (1753)

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 540; **Jaén:** Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2193.

Adonis flammea Jacq., Fl. Austr. 4: 29 (1776)

Albacete: river Taibilla valley, Pedro Andrés, stony areas and cultivated ground, WH5522, 28.06.1988, 2594; **Granada:** Sierra de la Sagra, calcareous soils, WG3597, 1400-1700 m, 24.06.1988, 2049; **Jaén:** Caserío de D. Domingo, above the river bed of Los Cuartos, calcareous soils, WH3107, 1600 m, 29.06.1988, 2781.

Aegilops geniculata Roth, Bot. Abh. 45 (1787)

Almería: Sierra de Gador, Fondón, Llanos de Boliches, calcareous soils, WF1786, 1650 m, 18.06.1988, 845b; **Granada:** Huéscar, Sierra de Moncayo, calcareous soils, WG3395, m, 22.06.1988, 1635.

Aegilops neglecta Req. ex Bertol., Fl. al. 1: 787 (1834)

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 260; **Málaga:** Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 112; idem, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 112c.

Aegilops neglecta x *A. geniculata* Roth.

Jaén: Caserío de D. Domingo, above the river bed of Los Quartos, calcareous soils, WH3107, 1600 m, 29.06.1988, 2779.

The specimens from this locality have 4 awns on the lower glume and 3 on the upper. The spike has 4 spikelets of which the lowermost and the highest are sterile or poorly developed and only the central two fertile. The plants are intermediate between *A. neglecta* and *A. geniculata*, and appear to be of hybrid origin.

S. TALAVERA

Aegilops triuncialis L., Sp. Pl. 1051 (1753)

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 262; Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1085; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1637; **Jaén:** Caserío de D. Domingo, above the river bed of Los Cuartos, calcareous soils, WH3107, 1600 m, 29.06.1988, 2775; **Málaga:** Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 113.

Aegilops ventricosa Tausch, Flora (Regensb.) 20: 108 (1837)

Granada: Sierra de Baza, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1271; La Losa, basic soil, WH3502, c. 1400 m, 24.06.1988, 2064; **Jaén:** Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2346; idem, Altos del Infierno, calcareous soils, WH2100, 1600 m, 30.06.1988, 2977b; Caserío de D. Domingo, above the river bed of Los Cuartos, calcareous soils, WH3107, 1600 m, 29.06.1988, 2772.

Aethionema saxatile (L.) R. Br. in Aon, Hort. Kew. ed. 2, 4: 80 (1812)

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 789; **Granada:** Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1396; Sierra de la Sagra, amongst rocks and stones, calcareous soil and screes, WG3699, 1850-2300 m, 24.06.1988, 1927; **Jaén:** Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2696; Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2939.

Agrimonia eupatoria L. subsp. *grandis* (Andrz. ex Ascherson & Graebner) Bornm.
Feddes Report. 89: 244 (1940)

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2105.

Agrostemma ghago L., Sp. Pl. 435 (1753)

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 726; **Jaén:** Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2362; idem, Altos del Infierno, calcareous soils, WH2100, 1600 m, 30.06.1988, 2965.

Agrostis castellana Boiss. & Reuter, Diagn. Pl. Nov. Hisp. 26 (1842) var. *mutica*
Hackel, Catal. Rais. Gram. Port. 14 (1880)

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2082; idem, WH4523, 950 m, 25.06.1988, 2099; Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2240; Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2896.

Agrostis nebulosa Boiss. & Reuter, Diagn. Pl. Nov. Hisp. 26 (1842)

Granada: Sierra de Segura, between Pontones and El Campillo, pinewoods and fields, calcareous soils, WH2826, c. 1500 m, 26.06.1988, 2443; Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2110; Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2811; Sierra del Pozo, damp areas in basic soils, WG1498, 1580 m, 30.06.1988, 2962; idem, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2903.

Aira caryophyllea L., Sp. Pl. 66 (1753) subsp. *caryophyllea*

Granada: Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1031; Jaén: Sierra de Segura, Covacha de la Cañada, calcareous soils, WH3118, 1530 m, 26.06.1988, 2417.

Aizoon hispanicum L., Sp. Pl. 488 (1753)

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1516.

Ajuga chamaepys (L.) Schreber, Pl. Verticill. Unilab. 25 (1773)

Granada: Sierra de la Sagra, calcareous soils, WG3597, 1400-1700 m, 24.06.1988, 2051.

Alchemilla glabra Neygenf., Enchirid. Bot. Siles. 67 (1821)

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 623.

Alchemilla saxatilis Buser, Not. Alchim. 3 (1891)

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 628.

Alliaria petiolata (Bieb.) Cavara & Grande, Boll. Orto Bot. Napoli 3: 418 (1913)

Granada: Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 463; **Jaén:** Poyotello, Sierra de Segura, gorge of river Segura, rocks and steep screes calcareous soils, WH3222, 1250 m, 26.06.1988, 2398.

Allium ampeloprasum L., Sp. Pl. 294 (1753)

Almería: between Abrucena and Las Rozas, on shales, WG1708, 1100-1350 m, 17.06.1988, 509; **Granada:** Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1110; **Jaén:** Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2188; Sierra de Segura, descending to Hornos, Pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2828.

Allium pallens L., Sp. Pl., ed. 2: 427 (1762) subsp. *pallens*

Albacete: Sierra de las Huebras, around El Pozo, rocks and stony areas, calcareous soils, WH4618, c. 1400 m, 28.06.1988, 2558; **Almería:** Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 152; between Abrucena and Las Rozas, on shales, WG1708, 1100-1350 m, 17.06.1988, 511; **Sierra de Gador:** Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 699; **Granada:** between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1125; **Huéscar:** Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1619; **Almaciles, Campos de Bugejar:** gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2488; **Murcia:** between Caravaca and Lorca, 23Km from Colonia de Sta. Teresa, gypsum soils, WG9897, 800 m, 27.06.1988, 2516.

Allium roseum L., Sp. Pl. 296 (1753)

Jaén: Santiago de la Espada, Sierra de la Grana, calcareous soils, WH3819, 1480 m, 25.06.1988, 2310; Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2897; **Málaga:** Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 67.

Allium scorodoprasum L., Sp. Pl. 297 (1753) subsp. *rotundum* (L.) Stearn, Ann. Mus. Goulandris 4: 178 (1978)

Granada: Sierra de Segura, between Pontones and El Campillo, pinewoods and fields calcareous soils, WH2826, c. 1500 m, 26.06.1988, 2428; **Jaén:** Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2921.

***Allium sphaerocephalon* L., Sp. Pl. 297 (1753)**

Abrucena, Las Rozas, on shales, WG1607, 1400 m, 17.06.1988, 521; Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 698b; Almería: between Tabernas and Venta de los Yesos, hillside, gypsum soil, WG6104, 500 m, 15.06.1988, 140; Granada: Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2486; between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1126; Galera, above the village, on hillside of gypsum soil, WG3976, 1100 m, 22.06.1988, 1581; Jaén: Santiago de la Espada, above the river Zumeta, plateau with calcareous soil, WH3815, 23.06.1988, 1904b; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 68.

***Allium stearni* Pastor & Valdés, Rev. Allium Penin. Ibér. 86 (1983)**

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 96.

***Allium vineale* L., Sp. Pl. 299 (1753)**

Jaén: Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2250.

***Alopecurus arundinaceus* Poiret in Lam., Encycl. Méth., Bot. 8: 778 (1808)**

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 303.

***Alopecurus myosuroides* Hudson, Fl. Angl. 23 (1762)**

Jaén: Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2180.

***Althaea cannabina* L., Sp. Pl. 686 (1753)**

Jaén: Villanueva del Arzobispo, in roadside ditches, WH0026, 01.07.1988, 2985.

***Althaea hirsuta* L., Sp. Pl. 687 (1753)**

Albacete: Sierra de las Huebras, around El Pozo, rocks and stony areas, calcareous soils, WH4618, c. 1400 m, 28.06.1988, 2572; Granada: Sierra de la Sagra, calcareous soils,

WG3597, 1400-1700 m, 24.06.1988, 2059c.

Alyssum atlanticum Desf., Fl. Atl. 2: 71 (1898)

Granada: Sierra de la Sagra, amongst rocks and stones, calcareous soil and screes, WG3699, 1850-2300 m, 24.06.1988, 1923.

Alyssum granatense Boiss. & Reuter, Pugillus 9 (1852)

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 316; idem, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 360; between El Marquesado and Alque, Cerro de los Pinos, hillsides with pines, on shales, VG9011, 1700 m, 16.06.1988, 422; Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1210.

Alyssum montanum L., Sp. Pl. 650 (1753), subsp. ***montanum***

Albacete: Sierra de las Huebras, around El Pozo, rocks and stony areas, calcareous soils, WH4618, c. 1400 m, 28.06.1988, 2555; **Almería:** Sierra de Gador, Lote de Bardagí, calcareous soils, WF1784, 2050 m, 18.06.1988, 873; Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 933; **Granada:** Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1240b; **Jaén:** Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2702.

Alyssum serpyllifolium Desf., Fl. Atl. 2: 70 (1798)

Almería: Sierra de Gador, above the Lote de Bardagí, calcareous soils, WF1784, 1700-1900 m, 18.06.1988, 850; **Granada:** Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1595; **Jaén:** Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2268.

Alyssum simplex Rudolphi, Journ. Bot. (Schrader) 2: 290 (1799). [= *A. minus* (L.) Rothm., Repert. Spec. Nov. Regni Veg. 50: 77, 1941]

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 766b; **Granada:** Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1719; **Málaga:** Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 22.

Alyssum spinosum L., Sp. Pl. 650 (1753). [= *Ptilotrichum spinosum* (L.) Boiss., Voy. Bot. Midi Esp. 2: 46, 1839]

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1419.

Amelanchier rotundifolia (Lam.) Dum.-Courset, Bot. Cult. ed. 2, 5: 459 (1811)

Almería: Sierra de Gador, Fondón, Llanos de Boliches, calcareous soils, WF1786, 1650 m, 18.06.1988, 829; idem, low part of El Morrón, Llanos del Sabinar, calcareous soils, WF1783, 1700-1900 m, 18.06.1988, 859; Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1470; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1741.

Ammoides pusilla (Brot.) Breistr., Bull. Soc. Sci. Dauph. 61: 628 (1947)

Jaén: Sierra de Cazorla, Burunchel, basic soils, WH0400, 800 m, 30.06.1988, 2845.

Anacamptis pyramidalis (L.) L. C. M. Richard, Orchid. Eur. Annot. 33 (1817)

Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2331.

Anacyclus clavatus (Desf.) Pers., Syn. Pl. 2: 465 (1807)

Almería: between Tabernas and Venta de los Yesos, hillside, gypsum soil, WG6104, 500 m, 15.06.1988, 132; Granada: Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1081.

Anagallis arvensis L., Sp. Pl. 148 (1753)

Granada: Huelgo, Cerros de Monca, gypsum soils, 20.06.1988, 1156; Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1228.

Anagallis monelli L., Sp. Pl. 148 (1753)

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1791; Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2132.

Anagallis tenella (L.) L., Syst. Veg. ed. 13: 165 (1774)

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2102.

Anarrhinum laxiflorum Boiss., Elenchus 71 (1838)

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 737; Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 921; Granada: Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1000; Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1491; idem, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1325; idem, limestone, WG1340, 1400-1600 m, 21.06.1988, 1354; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1685; Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 487; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2751.

Arabidopsis thaliana (L.) Heynh. in Holl & Heynh., Fl. Sachs. 1: 538 (1842)

Almería: Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 941; Granada: Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 470.

Some specimens have simple, bifid and trifid hairs on the leaves

B. VALDÉS

Arabis alpina L., Sp. Pl. 664 (1753)

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 607; Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1443.

Arabis auriculata Lam., Encycl. Méth. Bot. 1: 219 (1783). [= *A. recta* Vill., Hist. Pl. Dauph. 3: 319, 1788]

Almería: Abrucena, Las Rozas, on shales, WG1607, 1400 m, 17.06.1988, 523g; Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-

1600 m, 18.06.1988, 785b; **Granada:** Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 474; Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1358; idem, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1462c; idem, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1392; Sierra de la Sagra, calcareous screes, WG3699, 1700-1850 m, 24.06.1988, 2016b; **Jaén:** Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2686.

Arabis planisiliqua (Pers.) Reichenb., Ic. Fl. Germ. 2: 13 (1847)

Jaén: Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2943c.

Arabis verna (L.) R. Br. in W. T. Aon, Hort. Kew., ed. 2, 4: 105 (1812)

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 41.

Arbutus unedo L., Sp. Pl. 395 (1753)

Jaén: river Segura valley, near Parolis, calcareous and dolomitic soils, WH4935, c. 700 m, 28.06.1988, 2650.

Arceuthobium oxycedri (DC.) Bieb., Fl. Taur.-Cauc. 3: 629 (1819)

Granada: La Losa, basic soil, WH3502, c. 1400 m, 24.06.1988, 2070.

Arctostaphylos uva-ursi (L.) Sprengel, Syst. Veg. 2: 287 (1825)

Granada: Sierra de Baza, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1300; idem, limestone, WG1340, 1400-1600 m, 21.06.1988, 1347; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1819; Sierra de la Sagra, amongst rocks and stones, calcareous soil and screes, WG3699, 1850-2300 m, 24.06.1988, 1992.

Arenaria arcuatociliata G. López & Nieto Feliner, Anales Jardín Bot. Madrid 42: 353 (1986)

Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1218.

Arenaria armerina Bory, Ann. Gén. Sci. Phys. (Bruxelles) 3: 5 (1820) subsp. *armerina*

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 780; idem, Lote de Bardagí, calcareous soils, WF1784, 2050 m, 18.06.1988, 879; Granada: Sierra de Guillimona, Cuerda de los Mirabetares, calcareous soils, WH3707, c. 1800 m, 23.06.1988, 1868; Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1958; idem, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1960; Jaén: Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2255; Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2329; idem, Covacha de la Cañada, calcareous soils, WH3118, 1530 m, 26.06.1988, 2416; idem, calcareous soils, WH3118, 1530 m, 26.06.1988, 2421; Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2662; idem, calcareous soils, WH2800, 1800 m, 29.06.1988, 2671.

Arenaria armerina var. *elongata* (Boiss.) Pau, Mem. Mus. Ci. Nat. Barcelona 1: 30 (1922)

Granada: between El Marquesado and Alque, Cerro de los Pinos, hillsides with pines, on shales, VG9011, 1700 m, 16.06.1988, 434.

Arenaria grandiflora L., Syst. Nat. ed. 10, 2: 1034 (1759) subsp. *grandiflora*

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 783; idem, above the Lote de Bardagí, calcareous soils, WF1784, 1700-1900 m, 18.06.1988, 853; Granada: Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1359; idem, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1386; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1777; idem, Cuerda de los Mirabetares, calcareous soils, WH3707, c. 1800 m, 23.06.1988, 1871; Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1940b; idem, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1953; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2674.

Arenaria leptoclados (Reichenb.) Guss., Fl. Sic. Syn. 2: 824 (1845)

Albacete: Sierra de las Huebras, around El Pozo, rocks and stony areas, calcareous soils, WH4618, c. 1400 m, 28.06.1988, 2556; Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1229; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1647; Sierra de la Sagra, amongst

rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1924; idem, calcareous soils, WG3597, 1400-1700 m, 24.06.1988, 2045; Jaén: Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2890.

Arenaria modesta Dufour, Ann. Gén. Sci. Phys. (Bruxelles) 7: 291 (1821)

Granada: between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1133; Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2479.

***Arenaria modesta* subsp. *tenuis* (Gay) G. López & Nieto Feliner, Anales Jardín Bot. Madrid 42: 359 (1986)**

Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1657.

Arenaria pungens Clemente ex Lag., Gen. Sp. Nov. 15 (1816)

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 290; Puerto de la Ragua, near the crossroads to Canjáyar, VG9803, 19.06.1988, 989.

Arenaria serpyllifolia L., Sp. Pl. 423 (1753)

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 739c; Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 943; Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 329; Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1030b; Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1364b; idem, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1462; Sierra de la Sagra, calcareous scree, WG3699, 1700-1850 m, 24.06.1988, 2037; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2749c.

Arenaria tenuis Gay in Webb & Heldr., Cat. Pl. Hisp. App., n. 357 (1850)

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1771; Sierra de la Sagra, calcareous scree, WG3699, 1700-1850 m, 24.06.1988, 2018; Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2130; Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2220; Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2258; Sierra de Cazorla, crossroads towards Nacimiento, damp area, basic soils, WH0497, 1100

m, 30.06.1988, 2861; Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2913.

Arenaria tetraquetra L., Sp. Pl. 423 (1753) subsp. *murcica* (Font Quer) Favarger & Nieto Feliner

Almería: Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 928; **Granada:** Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1483; Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1960b; **Jaén:** Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2664.

Argyrolobium zanonii (Turra) P. W. Ball, Feddes Repert. 79: 41 (1968). [= *A. argenteum* (L.) Willk. in Willk. & Lange, Prodr. Fl. Hisp. 3: 464, 1877; non (Jacq.) Ecklon & Zeyher, 1835]

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 743; **Granada:** Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 372; **Jaén:** Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2260; **Málaga:** Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 93.

Aristida coerulescens Desf., Fl. Atl. 1: 109 (1798)

Almería: Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 180.

Aristolochia paucinervis Pomel, Bull. Soc. Sci. Phys. Algérie 11: 136 (1874). [= *A. longa* auct., non L., Sp. Pl. 961, 1753]

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 37; **Jaén:** Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2891.

Aristolochia pistolochia L., Sp. Pl. 962 (1753)

Albacete: Nerpio, reservoir of Taibilla, calcareous soils, WH6526, 1150 m, 28.06.1988, 2618.

Armeria alliacea (Cav.) Hoffmanns. & Link, Fl. Port. 1: 441 (1813-1820)

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 738.

Armeria bourgaei Boiss. ex Merino, Fl. Galicia 3: 586 (1909)

Granada: Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1921.

The populations of La Sagra are difficult to include in either subsp. *willkommiana* (Bernis) Nieto Feliner or subsp. *lanceobracteata* (Lawrence) Nieto Feliner (cf. Nieto Feliner, 1987, Anales Jard. Bot. Madrid 44: 336). G. NIETO FELINER

Armeria bourgaei subsp. *lanceobracteata* (Lawrence) Nieto Feliner, Anales Jardín Bot. Madrid 44: 336 (1987)

Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2722.

Armeria bourgaei subsp. *willkommiana* (Bernis) Nieto Feliner, Anales Jardín Bot. Madrid 44: 336 (1987)

Almería: between Gergal and Venta de Cañicas, roadside escarpment of shale, WG4102, 420 m, 15.06.1988, 219.

Asplenium adiantum-nigrum L., Sp. Pl. 1081 (1753)

Granada: Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1025.

Asplenium ceterach L., Sp. Pl. 1080 (1753). [= *Ceterach officinarum* DC. in Lam. & DC., Fl. Fr. ed. 3, 2: 566, 1805]

Granada: between El Marquesado and Alque, Cerro de los Pinos, hillsides with pines, on shales, VG9011, 1700 m, 16.06.1988, 432; **Sierra de la Sagra:** calcareous screes, WG3699, 1700-1850 m, 24.06.1988, 2035b; **Jaén:** Poyotello, Sierra de Segura, gorge of

river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2347; Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2919; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 43.

Asplenium ruta-muraria* L., Sp. Pl. 1081 (1753) subsp. *ruta-muraria

Granada: Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1969; idem, calcareous scree, WG3699, 1700-1850 m, 24.06.1988, 2035c; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2763.

Asplenium septentrionale* (L.) Hoffm., Deutschl. Fl. 2: 12 (1796) subsp. *septentrionale

Almería: Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 927.

Asplenium trichomanes* L., Sp. Pl. 1080 (1753) subsp. *trichomanes

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1464.

***Asplenium trichomanes* subsp. *inexpectans* Lovis, Br. Fern Gaz. 9: 155 (1964)**

Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2728c.

This subspecies was indicated for Spain by Nogueira & Ormonde (1986, Fl. Iber. 1: 95) only for the Balearic Islands. Soriano (1988, Fontqueria 20: 42-43) gave the first record of this taxon for the Iberian Peninsula (Sierra de Cazorla). Its finding in Sierra Seca (El Chaparral) confirms its existence in southern Spain.

S. TALAVERA

***Asplenium trichomanes* subsp. *quadrivalens* D. E. Meyer, Ber. Deutsch. Bot. Ges. 74: 456 (1962)**

Granada: Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 480; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1797; Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1918; Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-

1450 m, 26.06.1988, 2386; Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2915.

Asteriscus marimus (L.) Less., Syn. Gen. Comp. 210 (1832)

Almería: Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 165.

Asterolinum linum-stellatum (L.) Duby in DC., Prodr. 8: 68 (1844)

Granada: Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1005.

Astracantha granatensis (Lam.) Podl., Mt. Bot. Staatsamml. München 19: 12 (1983)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 701; idem, Fondón, Llanos de Boliches, calcareous soils, WF1786, 1650 m, 18.06.1988, 846; Granada: Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1336.

Astragalus bourgaeanus Cossen, Not. Pl. Cr. 160 (1852)

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1726.

Astragalus clusii Boiss., Diagn. Pl. Or. Nov. 9: 70 (1849)

Granada: La Calahorra, VG9415, 900 m, 19.06.1988, 1038; idem, Cerro Juan Canal, calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1055; Galera, above the village, on hillside of gypsum soil, WG3976, 1100 m, 22.06.1988, 1587.

Astragalus depressus L., Cent. Pl. 2: 29 (1756)

Granada: Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1997; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2705.

Astragalus epiglottis L. Sp. Pl. 759 (1753) subsp. *asperulus* (Dufour) Nyman, Consp. 196 (1878)

Jaén: Sierra de Cazorla, Burunchel, basic soils, WH0400, 800 m, 30.06.1988, 2846.

Astragalus glaux L., Sp. Pl. 759 (1753)

Murcia: between Caravaca and Lorca, 23Km from Colonia de Sta. Teresa, gypsum soils, WG9897, 800 m, 27.06.1988, 2529.

Astragalus hamosus L., Sp. Pl. 758 (1753)

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1718.

Astragalus incanus L., Syst. Nat. ed. 10: 1175 (1759) subsp. *incanus*

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 662.

Astragalus incanus subsp. *incurvus* (Desf.) Maire, Cavanillesia 2: 52 (1929)

Granada: between Aldeira and the gorge of the Pasillos, on shales, VG9407, c. 1650 m, 16.06.1988, 497; Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1250.

Astragalus incanus subsp. *macrorhizus* (Cav.) Laínz, Collect. Bot. (Barcelona) 7: 583 (1968)

Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1605; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1709; Jaén: Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2249.

Astragalus incanus subsp. *nummularioides* (Desf. ex DC.) Maire in Jahandiez & Maire, Cat. Pl. Maroc 414 (1932)

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1435.

Astragalus monspessulanus L., Sp. Pl. 761 (1753)

Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1626.

Astragalus sempervirens Lam., Encycl. Méth. Bot. 1: 320 (1783) subsp. *nevadensis* (Boiss.) P. Monts., Collect. Bot. (Barcelona) 2: 266 (1949)

Granada: Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1336b; **Jaén:** Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2711.

Astragalus sesameus L., Sp. Pl. 759 (1753)

Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1261.

Astragalus stella Gouan, Obs. Bot. 50 (1773)

Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1259.

Astragalus vesicarius L., Sp. Pl. 760 (1753)

Granada: Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1317; idem, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1434; idem, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1435b; **Jaén:** Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2703.

Attractylis cancellata L., Sp. Pl. 830 (1753) subsp. *cancellata*

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 649b; **Granada:** Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 239; Huelgo, Cerros de Monca, gypsum soils, 20.06.1988, 1152; **Jaén:** Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2807; **Málaga:** Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 9.

Attractylis humilis L., Sp. Pl. 829 (1753)

Granada: Huelgo, Cerros de Monca, gypsum soils, 20.06.1988, 1151; **Murcia:** between Caravaca and Lorca, 23Km from Colonia de Sta. Teresa, gypsum soils, WG9897, 800 m, 27.06.1988, 2510; idem, Cerros de Lorca, gypsum soils, 550 m, 27.06.1988, 2543.

Atriplex glauca L., Sp. Pl. ed. 2: 1493 (1763)

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1558; idem, salt marsh, WG3865, 22.06.1988, 1560.

Atriplex halimus L., Sp. Pl. 1052 (1753)

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1554.

Atriplex rosea L., Sp. Pl. ed. 2: 1493 (1763)

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1527; idem, salt marsh, WG3865, 22.06.1988, 1545.

Atriplex cf. chenopodioides Batt. in Batt. & Trabut, Fl. Alger. (Dicot.) 755 (1890)

Almería: between Benahadux and Rioja, roadsides, marls, WF8847, 15.06.1988, 193.

Atropa bella-donna L., Sp. Pl. 181 (1753)

Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocks and steep screes, calcareous soils, WH3222, 1250 m, 26.06.1988, 2397.

Avena barbata Pott ex Link, Journ. Bot. (Schrader) 1799(2): 315 (1800)

Granada: between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1141; **Jaén:** between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2081; **Málaga:** Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 91.

Avena sterilis L., Sp. Pl. ed. 2:118 (1762) subsp. *sterilis*

Sevilla: between Ecija and La Luisiana, cultivated fields of *Helianthus annuus*, 01.07.1988, 3003b.

Avena sterilis subsp. *Iudoviciana* (Durieu) Guillot & Magne, Fl. Fr., ed. 3: 532 (1875)

Jaén: Santiago de la Espada, Sierra de la Grana, calcareous soils, WH3819, 1480 m, 25.06.1988, 2305; Sierra de Cazorla, Burunchel, basic soils, WH0400, 800 m, 30.06.1988, 2848.

Avenula bromoides (Gouan) H. Scholz, Willdenowia 7: 420 (1974) subsp. *pauneroi*
Romero Zarco, Lagascalia 13: 11 (1984)

Granada: between El Marquesado and Alque, Cerró de los Pinos, hillsides with pines, on shales, VG9011, 1700 m, 16.06.1988, 439; Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 274; idem, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 412; Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1007; Sierra de Baza, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1270; idem, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1398; idem, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1160; idem, calcareous soils, WG1044, 1120 m, 21.06.1988, 1178; idem, calcareous soils, WG1044, 1120 m, 21.06.1988, 1178b; Galera, above the village, on hillside of gypsum soil, WG3976, 1100 m, 22.06.1988, 1586; Sierra de la Sagra, calcareous screes, WG3699, 1700-1850 m, 24.06.1988, 2033; Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2496; idem, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2498; Jaén: Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2195; Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2279; Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2728d; Sierra de Cazorla, crossroads towards Nacimiento, damp area, basic soils, WH0497, 1100 m, 30.06.1988, 2878; Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2908.

Avenula gervaisii J. Holub, Preslia 49: 205 (1977) subsp. *gervaisii*

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 709; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 109.

Ballota hirsuta Bentham, Lab. Gen. Sp. 595 (1834) subsp. *hirsuta*. [= *B. mollissima* Bentham, l. c. 518, 1834]

Almería: Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 163; **Granada:** between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1138; **Málaga:** Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 92.

Ballota nigra L., Sp. Pl. 582 (1753) subsp. *foetida* (Vis.) Hayek, Repert. Spec. Nov. Regni Veg. (Beih.) 30(2): 278 (1929)

Albacete: river Taibilla valley, Pedro Andrés, stony areas and cultivated ground, WH5522, 28.06.1988, 2610.

Barbarea verna (Miller) Ascherson, Fl. Brandenb. 1: 36 (1860)

Granada: Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 461.

Barbarea vulgaris R. Br. in W. T. Aon, Hort. Kew., ed. 2, 4: 109 (1812)

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2088.

Bellardia trixago (L.) All., Fl. Pedem. 1: 61 (1785). [= *Trixago apula* Stev., Mem. Soc. Nat. Mosc. 6: 4, 1823]

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 703; **Granada:** Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 244; Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1098; Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1193; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1612; **Jaén:** Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1100 m, 29.06.1988, 2981.

Bellis annua L., Sp. Pl. 887 (1753)

Granada: La Calahorra, Cerro Juan Canal, calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1047.

***Bellis perennis* L., Sp. Pl. 886 (1753)**

Granada: Sierra de Guillimona, on the ascent of Cuerda de Miravetes, north-facing slopes, calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1842; Jaén: Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2927.

***Berberis hispanica* Boiss. & Reuter, Pugillus 3 (1852)**

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1458; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1743.

***Berberis vulgaris* L., Sp. Pl. 330 (1753) subsp. *australis* (Boiss.) Heywood, Feddes Repert. Spec. Nov. Regni Veg. 64: 49 (1961)**

Granada: between El Marquesado and Alque, Cerro de los Pinos, hillsides with pines, on shales, VG9011, 1700 m, 16.06.1988, 435.

***Beta vulgaris* L., Sp. Pl. 222 (1753) subsp. *marima* (L.) Arcangeli, Comp. Fl. al. 593 (1882)**

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1557; idem, salt marsh, WG3865, 22.06.1988, 1559.

***Biscutella auriculata* L., Sp. Pl. 652 (1753)**

Almería: between Abrucena and Las Rozas, on shales, WG1708, 1100-1350 m, 17.06.1988, 505; Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1221.

***Biscutella glacialis* (Boiss. & Reuter) Jordan, Diagn. 1(1): 310 (1864)**

Almería: Sierra Nevada, El Chullo, damp area in shale soils, VG9905, 2150 m, 19.06.1988, 901; Granada: Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1957; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2684.

Biscutella laevigata* L., Mantissa Alt. 255 (1771) subsp. *laevigata

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils,

WF1489, 1450-1600 m, 18.06.1988, 808; **Granada**: Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2474; Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1362; idem, Santa Barbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1421; **Jaén**: Caserío de D. Domingo, above the river bed of Los Cuartos, calcareous soils, WH3107, 1600 m, 29.06.1988, 2784; Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2898.

Biscutella megacarpa Boiss. & Reuter in Boiss., Diagn. Pl. Or. Nov. ser. 2, 1: 44 (1854) subsp. *variegata* (Boiss. & Reuter) Hernández Bermejo & Clemente Muñoz, Lagascalia 14: 200 (1986)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 660; **Málaga**: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 7; **Granada**: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 314.

Biscutella sempervirens L., Mantissa Alt. 255 (1771)

Granada: Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 464.

Biscutella valentina (L.) Heywood, Feddes Repert. 66: 155 (1962)

Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1656; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1731; **Jaén**: Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2243.

Buminaria bituminosa (L.) Stirton, Bothalia 13: 318 (1981). [= *Psoralea bituminosa* L., Sp. Pl. 763, 1753]

Granada: between Aldeira and the gorge of the Pasillos, on shales, VG9407, c. 1650 m, 16.06.1988, 500.

Blackstonia perfoliata (L.) Hudson, Fl. Angl. 146 (1762) subsp. *perfoliata*

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2135; Sierra de Cazorla, reservoir of El Tranco, calcareous soils, WH1920, 600-700 m, 30.06.1988, 2838.

Bombycilaena erecta (L.) Smolj., Not. Syst. (Leningrad) 17: 450 (1955)

Albacete: Sierra de las Huebras, around El Pozo, rocks and stony areas, calcareous soils, WH4618, c. 1400 m, 28.06.1988, 2573; **Granada:** Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1185; idem, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1292; Sierra de Segura, between Pontones and El Campillo, pinewoods and fields, calcareous soils, WH2826, c. 1500 m, 26.06.1988, 2432; idem, pinewoods and fields, calcareous soils, WH2826, c. 1500 m, 26.06.1988, 2444; **Jaén:** Caserío de D. Domingo, above the river bed of Los Cuartos, calcareous soils, WH3107, 1600 m, 29.06.1988, 2787b; Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2902.

Brachypodium distachyon (L.) Beauv., Agrost. 101, 155 (1812)

Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1170; idem, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1264b; **Jaén:** between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2107; Sierra de Cazorla, crossroads towards Nacimiento, damp area, basic soils, WH0497, 1100 m, 30.06.1988, 2883; **Málaga:** Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 117.

Brachypodium phoenicoides (L.) Roemer & Schultes, Syst. Veg. 2: 740 (1817)

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1521; **Jaén:** between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2129; Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2242.

Brachypodium retusum (Pers.) Beauv., Agrost. 101, 155 (1812). [= *B. ramosus* L., Mantissa 34, 1767, non Hudson, Fl. Angl. 1: 40, 1762]

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 710; **Granada:** Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2497; Galera, above the village, on hillside of gypsum soil, WG3976, 1100 m, 22.06.1988, 1582; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1630; Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1171; **Jaén:** Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2178; **Málaga:** Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 116.

Brachypodium sylvaticum (Hudson) Beauv., Agrost. 101, 155 (1812)

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2119;

Sierra de Cazorla, crossroads towards Nacimiento, damp area, basic soils, WH0497, 1100 m, 30.06.1988, 2863.

Brassica repanda (Willd.) DC., Syst. Nat. 2: 598 (1821) subsp. *confusa* (Emberger & Maire) Heywood, Feddes Report. 66: 153 (1962)

Albacete: Nerpio, reservoir of Taibilla, calcareous soils, WH6526, 1150 m, 28.06.1988, 2619.

Briza media L., Sp. Pl. 70 (1753)

Granada: Sierra de Segura, between Pontones and El Campillo, pinewoods and fields, calcareous soils, WH2826, c. 1500 m, 26.06.1988, 2430.

Briza minor L., Sp. Pl. 70 (1753)

Jaén: Sierra de Cazorla, crossroads towards Nacimiento, damp area, basic soils, WH0497, 1100 m, 30.06.1988, 2868.

Bromus diandrus Roth, Bot. Abh. 44 (1787)

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 298b; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 49.

Bromus erectus Hudson, Fl. Angl. 39 (1762)

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 800b; idem, low part of El Morrón Llanos del Sabinar, calcareous soils, WF1783, 1700-1900 m, 18.06.1988, 858; Granada: Sierra de Segura, between Pontones and El Campillo, pinewoods and fields, calcareous soils, WH2826, c. 1500 m, 26.06.1988, 2425; Jaén: Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2281; Santiago de la Espada, Sierra de la Grana, calcareous soils, WH3819, 1480 m, 25.06.1988, 2293.

Bromus hordeaceus L., Sp. Pl. 77 (1753)

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1497.

Bromus hordeaceus subsp. *molliformis* (Lloyd) Maire & Weiller in Maire, Fl. Afr. Nord 3: 255 (1955)

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 387.

Bromus intermedius Guss., Fl. Sic. Prodr. 1: 114 (1827)

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 763; Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2343.

Bromus japonicus Thunb., Fl. Jap. 52 (1784)

Almería: Sierra de Gador, Fondón, Llanos de Boliches, calcareous soils, WF1786, 1650 m, 18.06.1988, 845.

Bromus lanceolatus Roth, Catalecta Bot. 1: 18 (1797)

Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1173; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 114.

Bromus madrensis L., Cent. Pl. 1: 5 (1755)

Granada: Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1323; Jaén: Sierra de Cazorla, Burunchel, basic soils, WH0400, 800 m, 30.06.1988, 2851; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 78; idem, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 107.

Bromus racemosus L., Sp. Pl. ed. 2, 114 (1762)

Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2694.

Bromus rigidus Roth, Bot. Mag. (Zürich) 4(10): 21 (1790)

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 79.

***Bromus rubens* L., Cent. Pl. 1: 5 (1755)**

Almería: Abrucena, Las Rozas, on shales, WG1607, 1400 m, 17.06.1988, 518; Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 363c; Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 991; Sierra de Baza, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1295; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2741.

***Campanula patula* L., Sp. Pl. 163 (1753)**

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 535.

***Campanula rapunculus* L., Sp. Pl. 164 (1753)**

Granada: Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1001; Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 248; idem, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 363; idem, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 363b; Jaén: Sierra de Cazorla, reservoir of El Tranco, calcareous soils, WH1920, 600-700 m, 30.06.1988, 2842; idem, crossroads towards Nacimiento, damp area, basic soils, WH0497, 1100 m, 30.06.1988, 2872.

***Campanula velutina* Desf., Fl. Atl. 1: 180 (1798)**

Albacete: Sierra de Lagos, Graya, rocky area, calcareous soils, WH5737, 1150 m, 28.06.1988, 2626; Jaén: Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2184.

Campanula willkommii Wasek, Abh. Zool.-Bot. Ges. Wien 1(3): 75 (1902)

Granada: Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1324.

Capparis ovata Desf., Fl. Atl. 1: 404 (1798) var. *sicula* (Duham.) Zoh., Bull. Res. Counc. Israel D, 8: 54 (1960)

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 813; Granada: between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1135b.

Zohary (1960, Bull. Res. Counc. Israel 8 (D): 49-64), considers this variety the most common in the Mediterranean Region. The specimens from Sierra de Gador may be well placed in var. *sicula* because of their oblong-elliptical leaves, pubescence of stems, strong curved stipular spines and purple staminal filaments, while the base of the gynophore is hairy, resembling var. *ovata*.

Almería: Fíñana, Cerro de la Cruz, on shale, WG0810, 1500-1600 m, 17.06.1988, 631; Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 335.

Centaurea sagredoi subsp. *tenuiloba* (Boiss.) G. Blanca, Lagascalia 10: 200 (1981)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 664.

Centaurea sphaerocephala L., Sp. Pl. 916 (1753) subsp. *malacana* (Boiss.) Dostál
Bot. Journ. Linn. Soc. 71: 203 (1976)

Almería: Gergal, roadside marls, WG3908, 15.06.1988, 128.

Centaurea sulfurea Willd., Enum. Pl. Horti Berol. 930 (1809)

Granada: on the way out of Granada on the road to Murcia, basic soil, 15.06.1988, 127; near Baza, limestone and marls, WG1650, c. 1000 m, 22.06.1988, 1506.

Centaurea triumfetti All., Auct. Syn. Stirp. Horti Taur. 16 (1773) subsp. *lingulata* (Lag.) Dostál, Bot. Journ. Linn. Soc. 71: 209 (1976)

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 606; Granada: Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1339b; idem, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1449; Sierra de Guillimona, on the ascent of Cuerda de Miravetes, north-facing slopes, calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1834; Jaén: Sierra de Segura, Covacha de la Cañada, calcareous soils, WH3118, 1530 m, 26.06.1988, 2419; Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2721.

Centaurium erythraea Rafn, Danm. Holst. Fl. 2: 75 (1800) subsp. *major* (Hoffmanns. & Link) Melderis, Bot. Journ. Linn. Soc. 65: 235 (1972)

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2126.

Centaurium pulchellum (Swartz) Druce, Fl. Berks. 342 (1898)

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1530; idem, salt marsh, WG3865, 22.06.1988, 1539b; Jaén: Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2261.

Centranthus calcrapae* (L.) Dufresne, Hist. Nat. Méd. Fam. Valér. 39 (1811) var. *calcrapae

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 785; **Granada:** Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1232; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1790; Sierra de la Sagra, amongst rocks and stones, calcareous soil and screes, WG3699, 1850-2300 m, 24.06.1988, 1914b; **Jaén:** Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2191; Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2740.

***Centranthus calcrapae* var. *trichocarpus* (I. B. K. Richardson) O. Bolós & Vigo, Collect. Bot. (Barcelona) 14: 101 (1983)**

Granada: Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1092.

***Centranthus nevadensis* Boiss., Diagn. Pl. Or. Nov., ser. 2, 2: 120 (1856)**

Granada: Puerto de la Ragua, near the crossroads to Canjayar, VG9803, 19.06.1988, 974.

Cerastium arvense* L., Sp. Pl. 438 (1753) subsp. *arvense

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 342.

Cerastium brachypetalum* Pers., Syn. Pl. 1: 520 (1805) subsp. *brachypetalum

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1756.

***Cerastium brachypetalum* subsp. *tauricum* (Sprengel) Murb., Lunds Univ. Arsskr. 27(5): 159 (1892)**

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 739b; **Granada:** Puerto de la Ragua, near the crossroads to Canjayar, VG9803, 19.06.1988, 962; idem, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1037b; Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 322; idem, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 322b.

Cerastium fontanum Baumg., Enum. Stirp. Transs. 1: 425 (1816) subsp. *hispanicum* H. Gaertner, Feddes Repert. (Beih.) 113: 77 (1939)

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 550.

Cerastium fontanum subsp. *vulgare* (Hartman) Greuter & Burdet, Willdenowia 12: 37 (1982)

Jaén: Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2266.

Cerastium gibraltaricum Boiss., Elenchus 24 (1838) var. *lanuginosum* (Gren.) F. N. Williams, Journ. Bot. 59: 325 (1921). [= *C. boissieri* Gren., Mém. Compt. Rend. Soc. Emul. Doubs. 1: 67, 1841]

Granada: Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1030; Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1380; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1739; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2658; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 27.

Cerastium glomeratum Thuill., Fl. Paris, ed. 2, 226 (1799)

Granada: Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1022b.

Cerastium gracile Dufour, Ann. Gén. Sci. Phys. (Bruxelles) 7: 304 (1821)

Almería: Sierra de Gador, Lote de Bardagí, calcareous soils, WF1784, 2050 m, 18.06.1988, 867; Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1227; Sierra de la Sagra, calcareous screes, WG3699, 1700-1850 m, 24.06.1988, 2016; idem, calcareous screes, WG3699, 1700-1850 m, 24.06.1988, 2020c.

Cerastium pumilum Curtis, Fl. Lond. 2(6), tab. 30 (1794)

Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2724.

Cerastium ramosissimum Boiss., Elenchus 23 (1838)

Almería: Sierra Nevada, El Chullo, damp area in shale soils, VG9905, 2150 m, 19.06.1988, 897; Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1500.

Ceratocephala testiculata (Crantz) Roth, Enum. 1: 1014 (1827). [= *Ranunculus testiculatus* Crantz, Stirp. Austr. 2: 97, 1763; = *Ceratocephalus orthoceras* DC., Syst. 1: 231, 1818]

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1486.

This is, presumably, the first record of this species for Spain, where it has not been indicated by Amich (1986, Fl. Iber. 1: 371-373) or by Greuter & al. (1989, Med-Checklist 4: 441, subsp. *Ranunculus*). However, the range of variability given by the former author for *C. falcata* (L.) Pers. includes that of *C. testiculata*, which should be considered as a distinct species as proposed by Chrtek & Chrtkova (1976, Preslia 48: 113-123) and accepted by several authors (e.g. Greuter & al., l.c.; Davis & al. 1965, Fl. Turkey 1: 198).

B. VALDÉS

Ceterach officinarum Willd., Anle. Sebststud. Bot. 578 (1804). [= *Asplenium ceterach* L., Sp. Pl. 1080, 1753]

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1406.

Chaenopodium virgatum L., Sp. Pl. 4 (1753). [= *C. foliosum* Ascherson, Fl. Brandenb. 1: 572, 1864]

Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1617.

Chaenorhinum grandiflorum (Cosson) Willk., Suppl. Prodr. Fl. Hisp. 178 (1893)

Almería: between Tabernas and Venta de los Yesos, hillside, gypsum soil, WG6104, 500 m, 15.06.1988, 141; Granada: Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1996.

***Chaenorrhinum macropodum* (Boiss. & Reuter) Lange in Willk. & Lange, Prodr. Fl. Hisp. 2: 579 (1870) subsp. *degenii* (Hervier) R. Fernandes, Bot. Journ. Linn. Soc. 64: 222 (1971)**

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 599; Sierra de Gador, above the Lote de Bardagí, calcareous soils, WF1784, 1700-1900 m, 18.06.1988, 851; **Granada:** Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1393; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1680; **Jaén:** Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2212; Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2263; Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2716; Sierra de Cazorla, crossroads towards Nacimiento, damp area, basic soils, WH0497, 1100 m, 30.06.1988, 2880; Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2918.

Chaenorrhinum minus* (L.) Lange in Willk. & Lange, Prodr. Fl. Hisp. 2: 577 (1870) subsp. *minus

Almería: Abrucena, Las Rozas, on shales, WG1607, 1400 m, 17.06.1988, 523c; Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 582; **Granada:** Puerto de la Ragua, near the crossroads to Canjayar, VG9803, 19.06.1988, 967; Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1312; idem, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1438; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1708; Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1977; **Jaén:** between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2153.

Cistus albidus L., Sp. Pl. 524 (1753)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 698; Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1172.

Cistus clusii Dunal in DC., Prodr. 1: 266 (1824)

Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1169; idem, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1263.

Cistus laurifolius L., Sp. Pl. 523 (1753)

Granada: between Aldeira and the gorge of the Pasillos, on shales, VG9407, c. 1650 m, 16.06.1988, 496; Sierra de Segura, between Pontones and El Campillo, pinewoods and fields, calcareous soils, WH2826, c. 1500 m, 26.06.1988, 2323.

Cistus monspeliensis L., Sp. Pl. 524 (1753)

Albacete: river Segura valley, near Parolis, calcareous and dolomitic soils, WH4937, c. 700 m, 28.06.1988, 2642.

Citrullus colocynthis (L.) Schrader, Linnaea 12: 414 (1838)

Almería: between Benahadux and Rioja, roadsides, marls, WF8847, 15.06.1988, 184.

Clematis vitalba L., Sp. Pl. 555 (1753)

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2111.

Cleonia lusitanica (L.) L., Sp. Pl. ed. 2, 837 (1763)

Jaén: Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2830.

Clinopodium vulgare L., Sp. Pl. 587 (1753) subsp. *arundanum* (Boiss.) Nyman, Consp. 587 (1881). [= *Melissa arundana* Boiss., Voy. Bot. Midi Esp. 2: 498, 1841]

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 526; Jaén: Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2943; idem, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2943b.

Clypeola jonthlaspi L., Sp. Pl. 652 (1753)

Jaén: Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2219.

Clypeola jonthlaspi subsp. *macrocarpa* Fiori, Nuovo Giorn. Bot. al. 17 (1910)

Almería: Abrucena, Las Rozas, on shales, WG1607, 1400 m, 17.06.1988, 523f.

Clypeola jonthlaspi subsp. *microcarpa* (Moris) Arcangeli, Comp. Fl. al. 63 (1882)

Granada: Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 472.

Coincya sp.

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 291b.

Coincya cheiranthos (Vill.) Greuter & Burdet, Willdenowia 13: 86 (1983). [= *Rhynchosinapis cheiranthos* (Vill.) Dandy, Watsonia 4: 41 (1957) subsp. *nevadensis* (Willk.) Heywood, Feddes Repert. 66: 154, 1962]

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 601; Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 930; **Granada:** Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 398; Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 454.

Colutea atlantica Browicz, Monogr. Bot. (Watszawa) 14: 127 (1963)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 666.

Conyza albida (Willd.) Sprengel, Syst. Veg. 3: 512 (1826)

Jaén: Bailén, in roadside ditches, basic soils, 01.07.1988, 2997.

Conopodium bourgaei Cosson, Not. Pl. Cr. 110 (1851)

Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2754.

Conopodium bunioides (Boiss.) Calestani, Webbia 1: 279 (1905)

Granada: Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1341; **Jaén:** Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2369; idem, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2381.

***Conopodium thalictrifolium* (Boiss.) Calestani, Webbia 1: 279 (1905)**

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 587; **Granada:** Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1820.

***Consolida pubescens* (DC.) Soó, Österr. Bot. Zeschr. 2, 71: 241 (1922)**

Jaén: Santiago de la Espada, cultivated fields and ditches, basic soils, WH3816, 1350 m, 29.06.1988, 2796.

***Convolvulus* sp.**

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 793b.

Convolvulus althaeoides* L., Sp. Pl. 156 (1753) subsp. *althaeoides

Almería: Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 157; **Murcia:** between Caravaca and Lorca, Cerros de Lorca, gypsum soils, 550 m, 27.06.1988, 2542.

***Convolvulus arvensis* L., Sp. Pl. 153 (1753)**

Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1184.

***Convolvulus boissieri* Steudel, Nomencl. Bot. ed. 2, 1:407 (1840)**

Granada: Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1962.

***Convolvulus lanuginosus* Desr. in Lam., Encycl. Méth., Bot. 3: 551 (1792)**

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 663; **Sierra Nevada:** El Chullo, damp area in shale soils, VG9905, 2150 m, 19.06.1988, 893b.

Convolvulus lineatus L., Syst. Nat. ed. 10, 2: 923 (1759) var. *lineatus*

Granada: Huelgo, Cerros de Monca, gypsum soils, 20.06.1988, 1146; Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1182; Huéscar: Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1599; Jaén: Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2944.

Convolvulus lineatus var. *minutus* Maire & Weiller in Maire, Bull. Soc. Hist. Nat. Agr. Nord 31: 28 (1940)

Almería: Sierra de Gador, low part of El Morrón Llanos del Sabinar, calcareous soils, WF1483, 1780 m, 18.06.1988, 857.

Coriaria myrtifolia L., Sp. Pl. 1037 (1753)

Albacete: river Segura valley, near Parolis, calcareous and dolomitic soils, WH4937, c. 700 m, 28.06.1988, 2640.

Coris hispanica Lange, Vid. Meddel. Dansk Naturh. Foren. Kjobenhavn 1863: 53 (1863)

Almería: between Tabernas and Venta de los Yesos, hillside, gypsum soil, WG6104, 500 m, 15.06.1988, 130.

Ferguson (1972, in Tutin & al., Fl. Eur. 3: 29) indicated as distributional area for this species "S of Vera, prov. Almería". It is, however, not rare in other localities of Almería province (Rufino 1987 Fl. Alm.) and occurs also in Granada. B. VALDÉS

Coris monspeliensis L., Sp. Pl. 177 (1753)

Albacete: Sierra de las Huebras, around El Pozo, rocks and stony areas, calcareous soils, WH4618, c. 1400 m, 28.06.1988, 2561; **Almería:** Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 690; **Granada:** Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1606; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1805.

Coronilla juncea L., Sp. Pl. 742 (1753)

Albacete, gorge of river Zumeta, calcareous soils, WH4926, 1000-1100 m, 25.06.1988, 2230; **Almería:** Sierra de Gador, Fondón, Llanos de Boliches, calcareous soils, WF1786, 1650 m, 18.06.1988, 843.

***Coronilla minima* L., Cent. Pl. 2: 28 (1756)**

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1730; idem, on the ascent of Cuerda de Miravetes, north-facing slopes, calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1853.

***Coronilla scorpioides* (L.) Koch, Syn. Fl. Germ. 188 (1835)**

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 781b; **Granada:** Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1252; La Losa, basic soil, WH3502, c. 1400 m, 24.06.1988, 2068; **Jaén:** Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2264.

***Corrigiola telephiifolia* Pourret, Mém. Acad. Sci. Toulouse 3: 316 (1788)**

Almería: Abrucena, Las Rozas, on shales, WG1607, 1400 m, 17.06.1988, 523b.

***Corynephorus canescens* (L.) Beauv., Agrost. 90, 159 (1812)**

Granada: Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1004; **Jaén:** Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2806.

***Corynephorus fasciculatus* Boiss. & Reuter, Pugillus 123 (1853)**

Albacete: Sierra de las Huebras, around El Pozo, rocks and stony areas, calcareous soils, WH4618, c. 1400 m, 28.06.1988, 2554; **Granada:** Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1032; between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1143.

***Cosentinia vellea* (Aon) Tod., Giorn. Sci. Nat. Econ. Palermo 1: 220 (1866)**

Granada: La Calahorra, Cerro Juan Canal, calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1046.

***Cotoneaster granatensis* Boiss., Elenchus 41 (1838)**

Granada: Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 488.

***Crambe filiformis* Jacq., Icon. Pl. Rar. 3: 8 (1795)**

Granada: Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 997; **Málaga:** Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 33.

***Crataegus monogyna* Jacq., Fl. Austr. 3: 50 (1775) subsp. *brevispina* (G. Kunze)
Franco, Collect. Bot. (Barcelona) 7: 463 (1968)**

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 345; idem, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 354; Puerto de la Ragua, near the crossroads to Canjayar, VG9803, 19.06.1988, 973; Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1492; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1727.

***Crepis* sp.**

Granada: Puerto de la Ragua, near the crossroads to Canjayar, VG9803, 19.06.1988, 969.

***Crepis albida* Vill., Prosp. Pl. Dauph. 37 (1779)**

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 343; **Jaén:** between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2176; Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2736.

Crepis albida* subsp. *albida

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 543; Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 636; **Granada:** Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1326; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1682; idem, on the ascent

of Cuerda de Miravetes, north-facing slopes, calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1844.

Crepis albida subsp. *grosii* (Pau) Babcock, Univ. Calif. Publ. Bot. 19: 399 (1941)

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1433.

Crepis albida subsp. *longicaulis* Babcock, Univ. Calif. Publ. Bot. 19: 399 (1941)

Almería: between Abrucena and Las Rozas, on shales, WG1708, 1100-1350 m, 17.06.1988, 503; Sierra de Gador, low part of El Morrón Llanos del Sabinar, calcareous soils, WF1783, 1700-1900 m, 18.06.1988, 864.

Crepis capillaris (L.) Wallr., Linnaea 14: 657 (1841)

Granada: between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed sandy soils, VG8938, 20.06.1988, 1127b; Cullar Baza, salt marsh, WG3865, 22.06.1988, 1540.

Crepis foetida L., Sp. Pl. 807 (1753) subsp. *foetida*

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 402; between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1120b; Sierra de Guillimona, on the ascent of Cuerda de Miravetes, north-facing slopes, calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1859; Puerto de la Ragua, near the crossroads to Canjayar, VG9803, m, 19.06.1988, 981; idem, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1010; Sevilla: between Ecija and La Luisiana, cultivated fields of *Helianthus annuus*, 01.07.1988, 3003.

Crepis oporinoides Boiss. ex Froelich in DC., Prodr. 7: 165 (1838)

Almería: Sierra de Gador, low part of El Morrón Llanos del Sabinar, calcareous soils, WF1783, 1700-1900 m, 18.06.1988, 861; Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 916; Granada: Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 485.

Crepis pulchra L., Sp. Pl. 806 (1753)

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 761; **Granada:** Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1116; Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1340; idem, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1440; idem, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1446; **Jaén:** between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2148; Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2943b.

Crepis pygmaea L., Sp. Pl. 805 (1753)

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 104.

Crepis pygmaea subsp. *anachoretica* Babcock, Univ. Calif. Publ. Bot. 22: 245 (1947)

Granada: Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1968.

Crepis vesicaria L., Sp. Pl. 805 (1753) subsp. *congena* Babcock, Univ. Calif. Publ. Bot. 22: 860 (1947)

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 736; idem, on shale, WF1089, 1250-1350 m, 18.06.1988, 740; **Granada:** La Calahorra, Cerro Juan Canal, calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1071; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1672; idem, Cuerda de los Mirabete, calcareous soils, WH3707, c. 1800 m, 23.06.1988, 1885; Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 241; idem, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 366; **Jaén:** Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2371; **Murcia:** between Caravaca and Lorca, 23Km from Colonia de Sta. Teresa, gypsum soils, WG9897, 800 m, 27.06.1988, 2523.

Crucianella angustifolia L., Sp. Pl. 108 (1753)

Almería: Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 155; Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 644; **Granada:** Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 311; Sierra de Guillimona, gorge of Torilla, calcareous

soils, WH3812, 1400-1500 m, 23.06.1988, 1822; Sierra de la Sagra, calcareous soils, WG3597, 1400-1700 m, 24.06.1988, 2059b; Jaén: Sierra de Cazorla, Burunchel, basic soils, WH0400, 800 m, 30.06.1988, 2844.

Crucianella latifolia L., Sp. Pl. 109 (1753)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 645.

Crucianella patula L., Demonstr. Pl. 4 (1753)

Granada: between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1128h; Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1174; Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2469.

Cruciata pedemontana (Bellardi) Ehrend., Notes Roy. Bot. Garden Edinb. 22: 396 (1958)

Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2717.

Crupina crupinastrum (Moris) Vis., Fl. Dalm. 2: 42 (1847)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 646; Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 232; Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1180; Jaén: Caserío de D. Domingo, above the river bed of Los Cuartos, calcareous soils, WH3107, 1600 m, 29.06.1988, 2773.

Crupina vulgaris Pers. ex Cass., Dict. Sci. Nat. 12: 68 (1819)

Jaén: Caserío de D. Domingo, above the river bed of Los Cuartos, calcareous soils, WH3107, 1600 m, 29.06.1988, 2776.

Cuscuta sp.

Almería: Sierra de Gador, Fondón, Llanos de Boliches, calcareous soils, WF1786, 1650 m, 18.06.1988, 838.

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 76; idem, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 93b.

Cuscuta approximata subsp. *episonchus* (Webb & Berth.) Feinbrum, Israel Journ. Bot. 19: 28 (1970)

Granada: Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2473.

Cuscuta epithymum (L.) L., Syst. Veg. ed. 13: 140 (1774)

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 246.

Cuscuta epithymum subsp. *kotschy* (Desmoulins) Arcangeli, Comp. Fl. al. 480 (1882)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 678; Granada: La Calahorra, Cerro Juan Canal, calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1061.

Cuscuta planiflora Ten., Fl. Nap. 3: 250 (1824-1829)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 684; Granada: Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1352; between El Marquesado and Alque, Cerro de los Pinos, hillsides with pines, on shales, VG9011, 1700 m, 16.06.1988, 431; La Calahorra, Cerro Juan Canal, calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1078; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1642; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 1.

Cynara humilis L., Sp. Pl. 828 (1753)

Jaén: Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2821.

Cynodon dactylon (L.) Pers., *Syn. Pl.* 1: 85 (1805)

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1526.

Cynodon dactylon subsp. *affinis* (Caro & Sánchez) Romero Zarco, *Lagascalia* 14: 171 (1986). [= *C. affinis* Caro & Sánchez, *Kurtziana* 5: 223, 1969]

Almería: between Gergal and Venta de Cañicas, roadside escarpment of shale, WG4102, 420 m, 15.06.1988, 215.

Cynoglossum cheirifolium L., *Sp. Pl.* 134 (1753)

Granada: Sierra de Guillimona, on the ascent of Cuerda de Miravetes, north-facing slopes calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1843e; **Jaén:** Sierra de Segura, Covacha de la Cañada, calcareous soils, WH3118, 1530 m, 26.06.1988, 2406.

Cynoglossum creticum Miller, *Gard. Dict. ed. 8*, n. 3 (1768). [= *C. pictum* Aon, *Hort. Kew.* 1: 179, 1789]

Granada: Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1112; **Jaén:** Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2361.

Cynoglossum dioscoridis Vill., *Prosp. Pl. Dauph.* 21 (1779)

Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2384.

Cynoglossum nebrodense Guss., *Fl. Sic. Prodr.* 1: 216 (1827)

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 721; **Granada:** Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1332; idem, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1468.

Cynosurus echinatus L., *Sp. Pl.* 72 (1753)

Granada: Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1093; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1792; **Jaén:** between Tobos and Ves, bed of river Zumeta,

WH4523, 950 m, 25.06.1988, 2101; Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2335.

Cynosurus effusus Link, Journ. Bot. (Schrader) 2: 315 (1800). [= *C. elegans* auct., non Desf., Fl. Atl. 1: 82, 1798]

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 592; Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 393; Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1088; Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1487; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2680.

Cyperus longus L., Sp. Pl. 45 (1753) subsp. *badius* (Desf.) Murb., Contr. Fl. Nord-Ouest Afr. 3: 27 (1899)

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2134.

Cystopteris dickieana R. Sim., Gard. Farm. Journ. 2(20): 308 (1848)

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 596; Granada: Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 447; Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1035; Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1403; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2740.

Cystopteris fragilis (L.) Bernh., Neues Journ. Bot. 1(2): 27 (1805) subsp. *fragilis*

Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2359; Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2764; Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2923.

Cytinus hypocistis (L.) L., Syst. Nat. ed. 12, 2: 602 (1767) subsp. *hypocistis*

Granada: Sierra de Baza, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1303.

Cytisus balansae (Boiss.) Ball, Journ. Bot. 11: 303 (1873) subsp. *europaeus* (G. López & Jarvis) Muñoz Garmendia, Anales Jardín Bot. Madrid 41: 477 (1985)

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 621; Sierra Nevada, El Chullo, damp area in shale soils, VG9905, 2150 m, 19.06.1988, 896; Granada: Puerto de la Ragua, near the crossroads to Canjayar, VG9803, 19.06.1988, 951.

Cytisus grandiflorus (Brot.) DC., Prodr. 2: 154 (1825)

Almería: Fifiana, Cerro de la Cruz, on shale, WG0810, 1500-1600 m, 17.06.1988, 630.

Cytisus patens L., Syst. Veg. ed. 13: 555 (1774)

Jaén: Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2815.

Cytisus reverchonii (Degen & Hervier) Bean, Kew Bull. 1934: 224 (1934)

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1732.

Cytisus scoparius (L.) Link, Enum. Pl. Horti Berol. Alt. 2: 24 (1822). [= *Sarothamnus scoparius* (L.) Wimmer ex Koch, Syn. Fl. Germ. 154, 1853]

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 413.

Dactylis glomerata L., Sp. Pl. 71 (1753) subsp. *hispanica* (Roth) Nyman, Consp. 819 (1882)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 700; Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1166; Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 269; idem, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 379; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 45; idem, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 103.

Dactylis glomerata cf. subsp. *juncinella* (Bory) Stebbins & Zohary, Univ. Calif. Publ. Bot. 31(1): 13 (1959)

Granada: between El Marquesado and Alque, Cerro de los Pinos, hillsides with pines, on shales, VG9011, 1700 m, 16.06.1988, 428; Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1321.

Dactylorrhiza elata (Poiret) Soó, Nom. Nov. Gen. Dactylorrhiza 7 (1962)

Albacete: gorge of river Zumeta, calcareous soils, WH4926, 1000-1100 m, 25.06.1988, 2234; **Granada:** Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1363.

Dactylorrhiza maculata (L.) Soó, Nom. Nov. Gen. Dactylorrhiza 7 (1962)

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 562; idem, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 563; **Jaén:** Sierra de Cazorla, crossroads towards Nacimiento, damp area, basic soils, WH0497, 1100 m, 30.06.1988, 2875.

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 540b; Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 919; **Granada**: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 326.

Dipcadi serotinum (L.) Medicus, Acta Acad. Theod.-Palat. 6: 431 (1790)

Granada: La Calahorra, Cerro Juan Canal, calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1074; Sierra de Baza, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1279; Sierra de Guillimona, Cuerda de los Mirabates, calcareous soils, WH3707, c. 1800 m, 23.06.1988, 1886; **Jaén**: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2350; Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2888.

Diplotaxis lagascana DC., Syst. Nat. 2: 629 (1821). [= *Pendulina lagascana* (DC.) Willk., Linnaea 25: 2, 1852]

Almería: between Gergal and Venta de Cañas, roadside escarpment of shale, WG4102, 420 m, 15.06.1988, 209.

Distichoselinum tenuifolium (Lag.) García Martín & Silvestre, Lagascalia 12: 100 (1983)

Almería: between Tabernas and Venta de los Yesos, hillside, gypsum soil, WG6104, 500 m, 15.06.1988, 144.

***Doronicum plantagineum* L., Sp. Pl. 885 (1753)**

Jaén: Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2894.

***Dorycnium pentaphyllum* Scop., Fl. Carn., ed. 2, 2: 87 (1772) subsp. *pentaphyllum*. [= *D. suffruticosum* Vill., Hist. Pl. Dauph. 3: 417, 1788)**

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 688; Granada: Sierra de Baza, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1297; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1664; between Aldeira and the gorge of the Pasillos, on shales, VG9407, c. 1650 m, 16.06.1988, 501.

***Draba hispanica* Boiss., Elenchus 13 [1838]**

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 803b; Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1460; Sierra de Guillimona, Cuerda de los Mirabete, calcareous soils, WH3707, c. 1800 m, 23.06.1988, 1866; Sierra de la Sagra, amongst rocks and stones, calcareous soil and screes, WG3699, 1850-2300 m, 24.06.1988, 1942; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2699.

***Draba lutescens* Cosson, Not. Pl. Cr. 147 (1852)**

Almería: Sierra Nevada, El Chullo, damp area in shale soils, VG9905, 2150 m, 19.06.1988, 893; Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1475.

This is the first record of this species for Almería province, where its occurrence was considered as "probable" by Rufino (1987, Fl. Alm.: 171). Before now this species was known only from three localities (see Soriano, 1984, Fontqueria 6: 33), to which the two new localities have to be added.

B. VALDÉS

***Dryopteris filix-mas* (L.) Schott, Gen. Fil., tab. 9 (1834)**

Granada: Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 451; Puerto de la Ragua, near the crossroads to Canjáyar, VG9803, 19.06.1988, 961.

***Echinaria capitata* (L.) Desf., Fl. Atl. 2: 385 (1799)**

Almería: Sierra de Gador, Lote de Bardagí, calcareous soils, WF1784, 2050 m, 18.06.1988, 866; Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 364; between El Marquesado and Alque, Cerro de los Pinos, hillsides with pines, on shales, VG9011, 1700 m, 16.06.1988, 443; Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1159; Sierra de Segura, between Pontones and El Campillo, pinewoods and fields, calcareous soils, WH2826, c. 1500 m, 26.06.1988, 2437; Jaén: Santiago de la Espada, Sierra de la Grana, calcareous soils, WH3819, 1480 m, 25.06.1988, 2288; Caserío de D. Domingo, above the river bed of Los Cuartos, calcareous soils, WH3107, 1600 m, 29.06.1988, 2777.

***Echinops strigosus* L., Sp. Pl. 815 (1753)**

Jaén: Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2827.

***Echinospartum boissieri* (Spach) Rothm., Bot. Jahrb. 72: 80 (1941)**

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 665.

***Echium* sp.**

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 321b.

***Echium asperimum* Lam., Tabl. Encycl. Méth., Bot. 1: 412 (1792)**

Murcia: between Almaciles and Casablanca, basic soil, WH7405, c. 100 m, 27.06.1988, 2500.

***Echium boissieri* Steudel, Nomencl. Bot. ed. 2, 1: 540 (1840)**

Jaén: Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2803.

Echium creticum L., Sp. Pl. 139 (1753) subsp. *coincyanum* (Lacaa) R. Fernandes
Bol. Soc. Brot., ser. 2, 43: 153 (1969)

Almería: Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 164; between Benahadux and Rioja, roadsides, marls, WF8847, 15.06.1988, 192.

Echium flavum Desf., Fl. Atl. 1: 165 (1798)

Granada: Puerto de la Ragua, near the crossroads to Canjayar, VG9803, 19.06.1988, 971; Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1316; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2743.

Echium vulgare L., Sp. Pl. 139 (1753)

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2169.

Elaeagnus angustifolia L., Sp. Pl. 121 (1753)

Granada: Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1097; Cullar Baza, salt marsh, WG3865, 22.06.1988, 1524.

Eleocharis palustris (L.) Roemer & Schultes, Syst. Veg. 2: 151 (1817)

Jaén: Sierra del Pozo, damp areas in basic soils, WG1498, 1580 m, 30.06.1988, 2952.

Eleocharis cf. multicaulis (Sm.) Desv., Obs. Pl. Angers 74 (1818)

Jaén: Sierra del Pozo, damp areas in basic soils, WG1498, 1580 m, 30.06.1988, 2952b.

Elymus caninus (L.) L., Fl. Suec. ed. 2: 39 (1755)

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2122.

Elymus hispanicus (Boiss.) Talavera, Lagascalia 14: 170 (1986)

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 823; Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m,

26.06.1988, 2340; Sierra de Cazorla, reservoir of El Tranco, calcareous soils, WH1920, 600-700 m, 30.06.1988, 2837; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 111.

Elymus hispidus (Opiz) Melderis, Bot. Journ. Linn. Soc. 76: 379 (1978)

Granada: Huéscar: Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1639.

Elymus hispidus subsp. *hispidus*

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1542.

Elymus pungens (Pers.) Melderis, Bot. Journ. Linn. Soc. 76: 380 (1978)

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1534.

Ephedra nebrodensis Tineo ex Guss., Fl. Sic. Syn. 2: 638 (1844)

Albacete: river Taibilla valley, Pedro Andrés, stony areas and cultivated ground, WH5522, 28.06.1988, 2608.

Ephedra nebrodensis subsp. *nebrodensis*

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1473; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1603.

Epilobium parviflorum Schreber, Spicil. Fl. Lips. 146, 155 (1771)

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2158; Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2197.

Epilobium tetragonum L., Sp. Pl. 348 (1753)

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 539; idem, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 548; Granada: Puerto de la Ragua, near the crossroads to Canjáyar, VG9803, 19.06.1988, 979.

Epipactis atrorubens (Hoffm.) Besser, Prim. Fl. Galic. 2: 220 (1809)

Albacete: Nerpio, reservoir of Taibilla, calcareous soils, WH6526, 1150 m, 28.06.1988, 2623; Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1654.

Epipactis helleborine (L.) Crantz, Stirp. Austr., ed. 2, 2: 467 (1769)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 671.

Epipactis cf. atrorubens (Hoffm.) Besser, Prim. Fl. Galic. 2: 220 (1809)

Granada: Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1370.

Equisetum ramosissimum Desf., Fl. Atl. 2: 398 (1799)

Erysimum linifolium subsp. *cazorlense* Heywood, Bull. Br. Mus. (Bot.) 1: 102 (1954)

Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2689; Sierra de Segura, Altos del Infierno, calcareous soils, WH2100, 1600 m, 30.06.1988, 2971.

Euphorbia characias L., Sp. Pl. 463 (1753) subsp. *characias*

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 786.

Euphorbia exigua L., Sp. Pl. 456 (1753)

Almería: Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 168.

Euphorbia falcata L., Sp. Pl. 456 (1753)

Almería: between Gergal and Venta de Cañicas, roadside escarpment of shale, WG4102, 420 m, 15.06.1988, 220; Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 255; La Calahorra, Cerro Juan Canal, calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1070; Sierra de la Sagra, calcareous soils, WG3597, 1400-1700 m, 24.06.1988, 2060.

Euphorbia falcata subsp. *falcata*

Jaén: Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2942.

Euphorbia flavidoma DC., Cat. Pl. Horti Monsp. 110 (1813)

Almería: Sierra de Gador, Lote de Bardagí, calcareous soils, WF1784, 2050 m, 18.06.1988, 880.

Euphorbia hirsuta L., Amoen. Acad. 4: 483 (1759). [= *E. pubescens* Vahl Symb. Bot. 2: 55, 1791]

Jaén: Santiago de la Espada, cultivated ground, basic soil, WH3816, 1200 m, 23.06.1988, 1911.

Euphorbia nicaeensis All., Fl. Pedem. 1: 285 (1785)

Almería: Sierra de Gador, low part of El Morrón Llanos del Sabinar, calcareous soils, WF1783, 1700-1900 m, 18.06.1988, 860; Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1643; Sierra de la Sagra, amongst rocks and stones, calcareous soil and screes, WG3699, 1850-2300 m, 24.06.1988, 1986; Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1256; idem, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1302; idem, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1429.

Euphorbia peplus L., Sp. Pl. 456 (1753) var. *peplus*

Granada: Granada, gardens of the Alhambra, on walls of calcareous stone, 14.06.1988, 124.

Euphorbia segetalis L., Sp. Pl. 458 (1753) var. *segetalis*

Almería: Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 167.

Euphorbia segetalis var. *pinea* (L.) Lange in Willk. & Lange Prodr. Fl. Hisp. 3: 499 (1877). [= *E. pinea* L., Syst. Nat. ed. 2: 233, 1767]

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 48.

Euphorbia serrata L., Sp. Pl. 459 (1753)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-

1100 m, 18.06.1988, 695; **Granada:** Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1223; Cullar Baza, salt marsh, WG3865, 22.06.1988, 1531.

***Euphorbia squamigera* Loisel., Fl. Gall. 729 (1807)**

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 779.

***Euphorbia cf. nevadensis* Boiss. & Reuter, Pugillus 110 (1852)**

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 597.

***Euphrasia willkommii* Freyn, Flora (Regensb.) 67: 681 (1884)**

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1489.

***Euzomodendron bourgaeanum* Cosson, Not. Pl. Cr. 144 (1852)**

Almería: between Gergal and Venta de Cañicas, roadside escarpment of shale, WG4102, 420 m, 15.06.1988, 201.

Evax pygmaea* (L.) Brot., Fl. Lus. 1: 363 (1804) subsp. *pigmaea

Granada: Sierra de Segura, between Pontones and El Campillo, pinewoods and fields, calcareous soils, WH2826, c. 1500 m, 26.06.1988, 2436.

***Fagonia cretica* L., Sp. Pl. 386 (1753)**

Almería: between Gergal and Venta de Cañicas, roadside escarpment of shale, WG4102, 420 m, 15.06.1988, 211.

***Fallopia convolvulus* (L.) A. Löve, Taxon 19: 300 (1970)**

Jaén: Santiago de la Espada, cultivated fields and ditches, basic soils, WH3816, 1350 m, 29.06.1988, 2795.

Festuca arundinacea Schreber, Spicil. Fl. Lips. 57 (1771) subsp. *atlantigena* (St.-Yves) Auquier, Soc. Ech. Pl. Eur. Occ. Med. 16: 142 (1976)

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 407.

Festuca arundinacea subsp. *senas* (Lag.) Arcangeli, Comp. Fl. al. ed. 2: 61 (1894)

Jaén: Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2893.

Festuca capillifolia Dufour in Roemer & Schultes, Syst. Veg. 2: 735 (1817)

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 723; idem, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 810b; idem, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 819; idem, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 821; **Granada:** Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 460; Sierra de Baza, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1286; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1632.

Festuca gautieri (Hackel) K. Richter, Pl. Eur. 1: 105 (1890) subsp. *scoparia* (A. Kerner & Hackel) Kerguélen, Lejeunia, nov. ser. 110: 58 (1983)

Granada: Sierra de la Sagra, calcareous screes, WG3699, 1700-1850 m, 24.06.1988, 2026.

Festuca gautieri (Hackel) K. Richter was known as *F. varia* Haenke subsp. *scoparia* A. Kerner & Hackel in Hackel's Monograph (Hackel, 1988, Monogr. Festuc. Eur.), and within it three varieties were recognized. Two of these, var. *genuine* Hackel and var. *gautieri* Hackel, occur in Spain, while the third, var. *lutea* Hackel, occurs in Romania.

Recently, Kerguélen (1983, Lejeunia s. 2, 110) and Kerguélen & Plonka (1989, Bull. Soc. Bot. Centre-Ouest, n° spécial 10) have considered the former two as subspecies of one species, *F. gautieri* subsp. *gautieri* and subsp. *scoparia* (A. Kerner & Hackel) Kerguélen.

The characters separating these two subspecies seem rather clear: shorter and more rigid and curved leaves with a continuous band of sclerenchyma and 7 veins as well as longer leaves with discrete strands of sclerenchyma and 5 veins as well as shorter spikelets in

leaves with discrete strands of sclerenchyma and 5 veins as well as shorter spikelets in subsp. *scoparia*. However, these characters are not always constant, and intermediate between the two subspecies occur in northern Spain. This variability also led Pau (1895, Not. Bot. Fl. Esp.: 6) to describe a new species from Teruel, said to be intermediate between *F. varia* (incl. *F. gautieri*) and *F. elegans* Boiss., which he called *F. jabalambreensis* Pau; this was later considered by Litardière (1943, Candollea 9: 477-480) to fall within "*F. scoparia* (Kerner) Hackel", non Hooker f. (= *F. gautieri*). Subsp. *scoparia* is widespread throughout the eastern half of the Iberian Peninsula, and in the north extends west to the eastern range of the Picos de Europa; it has also been recorded from northern Morocco. Subsp. *gautieri*, on the other hand, is confined to the eastern Pyrenees so far as it is known.

The plants of specimen n° 2026 differ slightly from the normal range of *F. gautieri* in their laxer panicles and longer leaves, features bringing them nearer to *F. xanthina* Roemer & Schultes from Romania and Yugoslavia. This at first led us to believe that n° 2026 is intermediate between *F. gautieri* subsp. *scoparia* and *F. xanthina*, but these characters are variable within the former taxon, as may be seen by examining material from a range of Pyrenean populations. It seems to us likely that the laxer leaves and panicle might be the result of growth in shadier habitats. Similar specimens to n° 2026 from the same area, as well as from other mountain ranges of eastern and southern Spain, were distributed by Elisée Reverchon in his *Plantes d'Espagne* 1899, n° 662, as "*F. scoparia* Kern".

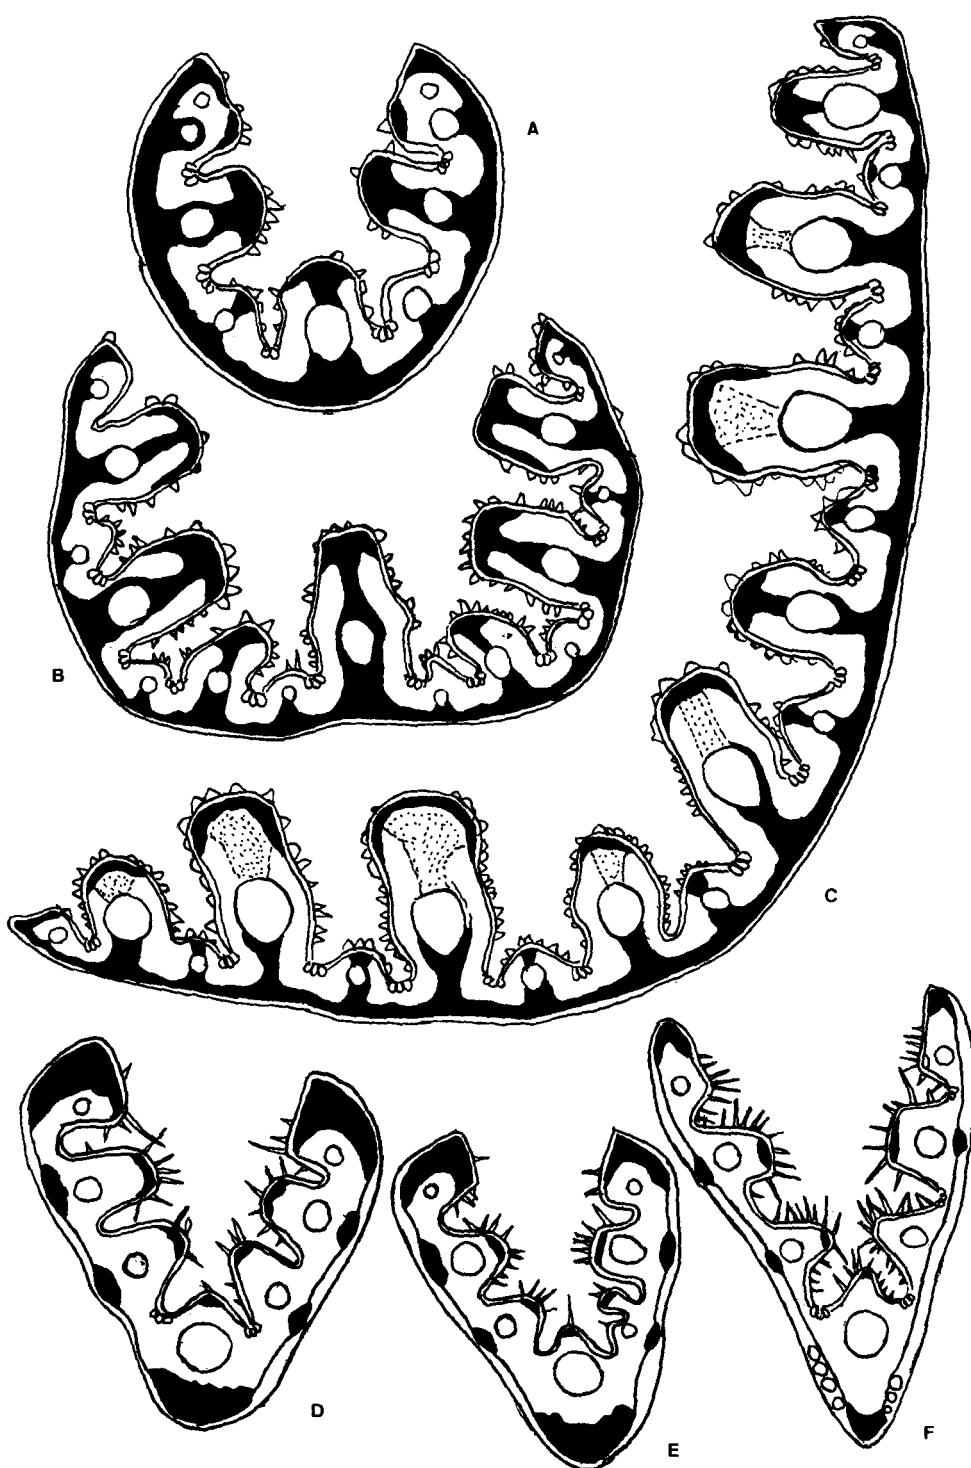

As a result of the above considerations we consider that n° 2026 should be referred to *Festuca gautieri* subsp. *scoparia* until further more detailed studies on living plants show exactly how many taxa should be recognized within *F. gautieri*. Cultivations and hybridization experiments as well as cytological investigations should prove of value. Küpfer (1974, Boissiera 23) has shown that both diploids and tetraploids occur within the species, but his results are not sufficient to indicate whether there is any correlations with other characters as has been suggested by Kerguélen (1983, l.c.).

Albacete: river Taibilla valley, Pedro Andrés, stony areas and cultivated ground, WH5522, 28.06.1988, 2601.

Hibiscus trionum L., Sp. Pl. 697 (1753)

Jaén: Santiago de la Espada, cultivated fields and ditches, basic soils, WH3816, 1350 m, 29.06.1988, 2800.

This weed, widespread in the tropical regions of Asia and Africa and fairly common in the E Mediterranean, was indicated for Spain as naturalized by Webb (1968, in Tutin & al. Fl. Eur. 2: 256) and Greuter & al. (1989 Med-Checklist 4: 235). It was not included in the checklist of Malvaceae of the Jaén province by García Hernández and Fernández López (1986, Blancoana 4: 153-158), or was it recorded previously for Andalucia. It was collected at this same locality by Talavera and Valdés in September, 1987.

S. TALAVERA & B. VALDÉS

Hippocrepis glauca Ten., Fl. Nap. 1, Prodr. 43 (1811)

Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1240.

Hippocrepis scabra DC., Prodr. 2: 312 (1825)

Granada: La Calahorra, VG9415, 900 m, 19.06.1988, 1041b; idem, Cerro Juan Canal, calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1045; Galera, above the village, on hillside of gypsum soil, WG3976, 1100 m, 22.06.1988, 1565; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1653; Sierra de Guillimona; Cuerda de los Mirabeteos, calcareous soils, WH3707, c. 1800 m, 23.06.1988, 1862; Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2459; Jaén: Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2812.

Hirschfeldia incana (L.) Lagrèze-Fossat, Fl. Tarn. Gar. 19 (1847)

Jaén: Caserío de D. Domingo, above the river bed of Los Cuartos, calcareous soils, WH3107, 1600 m, 29.06.1988, 2778.

Hohenackeria exscapa (Steven) Kos.-Pol., Trudy Bot. Sada Jur'ev. 15(2-3): 120 (1914)

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1420.

Holcus lanatus L., Sp. Pl. 1048 (1753)

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 571; Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2086; Sierra de Cazorla, crossroads towards Nacimiento, damp area, basic soils, WH0497, 1100 m, 30.06.1988, 2879.

Holosteum umbellatum L., Sp. Pl. 88 (1753) subsp. *umbellatum*

Almería: Sierra de Gador, Lote de Bardagí, calcareous soils, WF1784, 2050 m, 18.06.1988, 871; Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 944; Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1474; Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 320.

Hordeum geniculatum All., Fl. Pedem. 2:259, tab. 91 (1785). [= *H. hystrix* Roth, Catalecta Bot. 1: 23, 1797]

Jaén: Sierra del Pozo, damp areas in basic soils, WG1498, 1580 m, 30.06.1988, 2953.

Hordeum leporinum Link, Linnaea 9: 133 (1835). [= *H. murinum* subsp. *leporinum* (Link) Arcangeli, Comp. Fl. al. 805, 1882]

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 399; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 71.

Hordeum murinum L., Sp. Pl. 85 (1753) subsp. *murinum*

Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2665.

Hordeum murinum* subsp. *glaucum (Steudel) Tvelev, Nov. Syst. Pl. Vasc. (Leningrad) 8: 67 (1971)

Almería: Sierra de Gador, Fondón, Fuente de la Parra, on shale, WF1389, c. 1400 m, 18.06.1988, 774; Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1168.

Hormatophylla longicaule (Boiss.) Cullen & Dudly, Feddes Repert. 71: 220 (1965). [= *Ptilotrichon longicaule* (Boiss.) Boiss., Elenchus 13, 1838]

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1448.

Hornungia petraea (L.) Reichenb., Deutschl. Fl. 1: 33 (1837)

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 619; Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1385; Sierra de la Sagra, amongst rocks and stones, calcareous soil and screes, WG3699, 1850-2300 m, 24.06.1988, 1939.

***Hornungia petraea* (L.) Reichenb.**, Deutschl. Fl. 1: 33 (1837). [= *Hutchinsia petraea* (L.) R. Br., in W. T. Aon, Hort. Kew., ed. 2, 4: 82, 1812]

Almería: Abrucena, Las Rozas, on shales, WG1607, 1400 m, 17.06.1988, 523d.

***Hymenolobus pauciflorus* (Koch) Schinz & Thell.**, Viert. Naturf. Ges. Zürich 66: 285 (1921)

Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocks and steep screes, calcareous soils, WH3222, 1250 m, 26.06.1988, 2389.

***Hyoscyamus niger* L.**, Sp. Pl. 179 (1753)

Jaén: Santiago de la Espada, cultivated ground, basic soil, WH3816, 1200 m, 23.06.1988, 1912; between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2159.

***Hyoseris radiata* L.**, Sp. Pl. 808 (1753)

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 20.

***Hyparrhenia hirta* (L.) Stapf**, in Oliver, Fl. Trop. Afr. 9: 315 (1919)

Almería: Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 171.

***Hypecoum imberbe* Sm.**, Fl. Graec. Prodri. 1: 107 (1806)

Granada: between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1120d; Murcia: between Caravaca and Lorca, 23 Km from Colonia de Sta. Teresa, gypsum soils, WG9897, 800 m, 27.06.1988, 2512.

***Hypecoum procumbens* L.**, Sp. Pl. 124 (1753)

Granada: Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1108.

***Hypericum ericoides* L.**, Sp. Pl. 785 (1753)

Albacete: Sierra de las Huebras, around El Pozo, rocks and stony areas, calcareous soils,

WH4618, c. 1400 m, 28.06.1988, 2562; **Granada:** Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1816.

Hypericum hyssopifolium Chaix in Vill., Hist. Pl. Dauph. 1: 329 (1786) subsp. ***callhyrsum*** (Cosson) Fernández Casas, Trab. Depart. Bot. Granada 1: 37(III) (1972). [= *H. callhyrsum* Cosson, Not. Pl. Cr. 152, 1852]

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1484.

Hypericum perfoliatum L., Syst. Nat. ed. 12, 2: 510 (1767)

Albacete: Nerpio, reservoir of Taibilla, calcareous soils, WH6526, 1150 m, 28.06.1988, 2621.

Hypericum perforatum L., Sp. Pl. 785 (1753)

Granada: Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1011; Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1101; Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2165; Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2265.

Hypericum pubescens Boiss., Elenchus 62 (1838)

Albacete: river Segura valley, near Parolis, calcareous and dolomitic soils, WH4937, c. 700 m, 28.06.1988, 2641; **Jaén:** Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2202.

Hypochoeris achyrophorus L., Sp. Pl. 810 (1753)

Granada: Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1006; Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 247; idem, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 346.

Hypochoeris radicata L., Sp. Pl. 811 (1753)

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 528; **Granada:** Sierra de Guillimona, on the ascent of Cuerda de Miravetes,

north-facing slopes, calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1858; Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2075; Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2286.

Iberis carnosa Willd., Sp. Pl. 3: 445 (1800) subsp. *granatensis* (Boiss. & Reuter) Moreno, Anales Jardín Bot. Madrid 41: 57 (1984). [= *I. granatensis* Boiss. & Reuter, Pugillus 11, 1852]

Albacete: Sierra de las Huebras, around El Pozo, rocks and stony areas, calcareous soils, WH4618, c. 1400 m, 28.06.1988, 2580; Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1476; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1746; Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1929; idem, calcareous scree, WG3699, 1700-1850 m, 24.06.1988, 2019.

Iberis nazara Moreno, Trab. Dep. Bot. Fisiolog. Veg. (Madrid) 12: 95 (1983)

Jaén: river Segura valley, near Parolis, calcareous and dolomitic soils, WH4935, c. 700 m, 28.06.1988, 2644.

Iberis saxatilis L., Cent. Pl. 2: 23 (1756) subsp. *saxatilis*

Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1594.

Inula montana L., Sp. Pl. 884 (1753)

Granada: Sierra de Baza, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1266; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1610; Sierra de Guillimona, on the ascent of Cuerda de Miravetes, north-facing slopes, calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1845.

Ionopsisidium prolongoi (Boiss.) Batt., Bull. Soc. Bot. Fr. 43: 259 (1896)

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1724; idem, Cuerda de los Mirabatos, calcareous soils, WH3707, c. 1800 m, 23.06.1988, 1861; Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1926; idem, calcareous soils, WG3597, 1400-1700 m, 24.06.1988, 2056; idem, Covacha de la Cañada, calcareous soils, WH3118, 1530 m, 26.06.1988, 2411; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2676.

Iris foetidissima L., Sp. Pl. 39 (1753)

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 97.

Iris xiphium L., Sp. Pl. 40 (1753)

Jaén: Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2273; Sierra de Cazorla, crossroads towards Nacimiento, damp area, basic soils, WH0497, 1100 m, 30.06.1988, 2859.

Isatis tinctoria L., Sp. Pl. 670 (1753)

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 790b.

Jasione foliosa Cav., Icon. Descr. 2: 38 (1793) subsp. *minuta* (Agardh ex Roemer & Schultes) Font Quer, Cavanillesia 7: 78 (1935)

Jaén: Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2283; Poyotello, Sierra de Segura, gorge of river Segura, rocks and steep screes, calcareous soils, WH3222, 1250 m, 26.06.1988, 2403; Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2740b; Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2934.

Jasione montana L., Sp. Pl. 928 (1753) subsp. *montana*

Granada: Sierra de Segura, between Pontones and El Campillo, pinewoods and fields, calcareous soils, WH2826, c. 1500 m, 26.06.1988, 2448.

Jasione montana subsp. *blepharodon* (Boiss. & Reuter) Rivas Martínez, Candollea 31: 113 (1976)

Granada: between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1134; Jaén: Sierra de Cazorla, reservoir of El Tranco, calcareous soils, WH1920, 600-700 m, 30.06.1988, 2840.

Jasione montana subsp. *echinata* (Boiss. & Reuter) Nyman, Consp. 486 (1879). [= *J. echinata* Boiss. & Reuter, Pugillus 73, 1852]

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 243; idem, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 382; Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 994.

Jasminum fruticans L., Sp. Pl. 7 (1753)

Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1598.

Jasonia tuberosa (L.) DC., Prodr. 5: 476 (1836)

Granada: Sierra de Segura, between Pontones and El Campillo, pinewoods and fields, calcareous soils, WH2826, c. 1500 m, 26.06.1988, 2433.

Juncus ambiguus Guss., Fl. Sic. Prodr. 1: 437 (1827)

Jaén: Sierra del Pozo, damp areas in basic soils, WG1498, 1580 m, 30.06.1988, 2955c.

Juncus articulatus L., Sp. Pl. 327 (1753)

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 559; **Granada:** Puerto de la Ragua, near the crossroads to Canjaya, VG9803, m, 19.06.1988, 968; **Jaén:** Sierra del Pozo, damp areas in basic soils, WG1498, 1580 m, 30.06.1988, 2957; Sierra de Cazorla, crossroads towards Nacimiento, damp area, basic soils, WH0497, 1100 m, 30.06.1988, 2854; idem, damp area, basic soils, WH0497, 1100 m, 30.06.1988, 2865.

Juncus bufonius L., Sp. Pl. 328 (1753)

Granada: Sierra de Guillimona, on the ascent of Cuerda de Miravetes, north-facing slopes, calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1843d; **Jaén:** Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2275; Santiago de la Espada, Sierra de la Grana, calcareous soils, WH3819, 1480 m, 25.06.1988, 2291; Sierra del Pozo, damp areas in basic soils, WG1498, 1580 m, 30.06.1988, 2950; idem, damp areas in basic soils, WG1498, 1580 m, 30.06.1988, 2955b.

Juncus fontanesii Gay in Laharpe, Mém. Soc. Hist. Nat. Paris 3: 130 (1827)

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2133; idem, WH4523, 950 m, 25.06.1988, 2143.

Juncus inflexus L., Sp. Pl. 326 (1753)

Albacete: river Taibilla valley, Pedro Andrés, stony areas and cultivated ground, WH5522, 28.06.1988, 2591; Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 564.

Juncus inflexus var. *inflexus*

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2139.

Juncus tenageia L. fil., Suppl. 208 (1781)

Jaén: Sierra del Pozo, damp areas in basic soils, WG1498, 1580 m, 30.06.1988, 2955.

Juniperus communis L., Sp. Pl. 1040 (1753) subsp. *hemisphaerica* (C. Presl)
Nyman, Consp. 676 (1881)

Almería: Sierra Nevada, El Chullo, damp area in shale soils, VG9905, 2150 m, 19.06.1988, 899; Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1452; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1776.

Juniperus oxycedrus L., Sp. Pl. 1038 (1753) subsp. *oxycedrus*

Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1236.

Juniperus phoenicea L., Sp. Pl. 1040 (1753) subsp. *phoenicea*

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1772.

Juniperus sabina L., Sp. Pl. 1039 (1753)

Almería: Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 932; Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1450; Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1936.

Jurinea humilis (Desf.) DC., Prodr. 6: 677 (1838)

Almería: Sierra de Gador, Fondón, Llanos de Boliches, calcareous soils, WF1786, 1650 m, 18.06.1988, 837; Granada: between El Marquesado and Alque, Cerro de los Pinos, hillsides with pines, on shales, VG9011, 1700 m, 16.06.1988, 429; Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1389; Sierra de Guillimona, on the ascent of Cuerda de Miravetes, north-facing slopes, calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1840; idem, Cuerda de los Mirabete, calcareous soils, WH3707, c. 1800 m, 23.06.1988, 1898; Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1984.

Jurinea humilis var. *scaposa* Lev. ex Willk., Prodr. Fl. Hisp., Suppl. 99 (1893)

Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2726.

Jurinea pinnata (Lag.) DC., Prodr. 6: 676 (1838)

Granada: Sierra de Baza, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1277; Galera, above the village, on hillside of gypsum soil, WG3976, 1100 m, 22.06.1988, 1562.

Kernera boissieri Reuter in Boiss. & Reuter, Pugillus 9 (1852)

Granada: Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1932.

Klasea flavescens (L.) J. Holub, Folia Geobot. Phytotax. (Praha) 12: 305 (1977)
subsp. *leucantha* (Cav.) Cantó & Rivas Martínez, Lazaroa 5: 319 (1984) var.
leucantha

Murcia: between Almaciles and Casablanca, basic soil, WH7405, c. 100 m, 27.06.1988, 2503.

Klasea pinnatifida (Cav.) Cass., Dict. Sci. Nat. 35: 173 (1825). [= *Serratula pinnatifida* (Cav.) Poiret in Lam., Encycl. Méth., Bot. 6: 561, 1805]

Granada: Sierra de Guillimona, Cuerda de los Mirabete, calcareous soils, WH3707, c. 1800 m, 23.06.1988, 1879; Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1190; idem, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1268; **Málaga:** Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 6.

Knautia subscaposa Boiss. & Reuter, Pugillus 53 (1852)

Albacete: Sierra de las Huebras, around El Pozo, rocks and stony areas, calcareous soils, WH4618, c. 1400 m, 28.06.1988, 2571; **Granada:** Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 494; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, m, 22.06.1988, 1666; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1802; Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2457; Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 400; **Jaén:** Caserío de D. Domingo, above the river bed of Los Cuartos, calcareous soils, WH3107, 1600 m, 29.06.1988, 2785.

Koeleria crassipes Lange, Vid. Meddel. Dansk Naturh. Foren. Kjobenhavn 1860: 43 (1861)

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 275, Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 992.

Koeleria crassipes subsp. *crassipes*

Almería: Sierra de Gador, Lotede Bardagí, calcareous soils, WF1784, 2050 m, 18.06.1988, 872; **Granada:** Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 375.

Koeleria crassipes subsp. *nevadensis* (Hackel) Romero Zarco in Valdés & al., Herb. Univ. Hisp. 1: 44 (1982)

Malva tournefortiana L., Cent. Pl. 1: 21 (1753)

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 377; idem, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 377b.

Mantisalca salmantica (L.) Briq. & Cavillier, Arch. Sci. Phys. Nat. (Genève), ser. 5, 12: 111 (1930). [= *Microlonchus salmanticus* (L.) DC., Prodr. 6: 563, 1838]

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 330; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, m, 22.06.1988, 1604b; Jaén: Santiago de la Espada, above the river Zumeta, plateau with calcareous soil, WH3815, 23.06.1988, 1905; Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2277; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 66.

Marrubium supinum L., Sp. Pl. 583 (1753)

Almería: Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m,

19.06.1988, 950; Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 784; idem, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 803; Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 347; Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1372; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1600; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1675.

Marrubium x willkommii Magnus ex Pau, Bol. Soc. Ibér. Ci. Nat. 25: 76 (1926)

Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1200.

Matricaria chamomilla L., Sp. Pl. 891 (1753). [= *Chamomilla recuta* (L.) Rauschert, Folia Geobot. Phytotax. (Praha) 9: 255, 1974]

Almería: between Tabernas and Venta de los Yesos, hillside, gypsum soil, WG6104, 500 m, 15.06.1988, 134.

Matthiola fruticulosa (L.) Maire in Jahandiez & Maire, Cat. Pl. Maroc 2: 311 (1932)
subsp. *fruticulosa*

Almería: between Abrucena and Las Rozas, on shales, WG1708, 1100-1350 m, 17.06.1988, 513; Granada: between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1140.

Matthiola lunata DC., Reg. Veg. Syst. Nat. 2: 176 (1821)

Almería: between Benahadux and Rioja, roadsides, marls, WF8847, 15.06.1988, 188.

Matthiola parviflora (Schousboe) R. Br. in Aon, Hort. Kew. ed. 2, 4: 121 (1812)

Murcia: between Caravaca and Lorca, Cerros de Lorca, gypsum soils, 550 m, 27.06.1988, 2544.

Medicago arabica (L.) Hudson, Fl. Engl. 288 (1762)

Sevilla: between Ecija and La Luisiana, cultivated fields of *Helianthus annuus*, 01.07.1988, 3002b.

Medicago litoralis Rohde ex Loisel., Not. Pl. Fr. 118 (1810)

Granada: Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2492.

Medicago litoralis* var. *litoralis

Granada: between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1129b; idem, sandy soils, VG8938, 20.06.1988, 1129b.

Medicago lupulina L., Sp. Pl. 779 (1753)

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1712; idem, Cuerda de los Mirabete, calcareous soils, WH3707, c. 1800 m, 23.06.1988, 1899.

Medicago lupulina* var. *lupulina

Granada: Granada, gardens of the Alhambra, on walls of calcareous stone, 14.06.1988, 123.

Medicago minima (L.) Bartal., Cat. Piante Siena 61 (1776)

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 750; **Granada:** between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1127; Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1251; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1710.

Medicago monspeliaca (L.) Trautv., Bull. Sci. Acad. Imp. Sci. Saint-Pétersbourg 8: 272 (1841). [= *Trigonella monspeliaca* L., Sp. Pl. 777, 1753]

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 751b; **Granada:** Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1260.

Medicago orbicularis (L.) Bartal., Cat. Piante Siena 60 (1776)

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500

m, 23.06.1988, 1705; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 98.

Medicago polyceratia (L.) Trautv., Bull. Sci. Acad. Imp. Sci. Saint-Pétersbourg 8: 272 (1841). [= *Trigonella polyceratia* L., Sp. Pl. 777, 1753]

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1720; Jaén: Caserío de D. Domingo, above the river bed of Los Cuartos, calcareous soils, WH3107, 1600 m, 29.06.1988, 2780.

Medicago rigidula (L.) All., Fl. Pedem. 1: 316 (1785)

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 747; Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 282e.

Medicago sativa L., Sp. Pl. 778 (1753) subsp. *sativa*

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1532; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1707.

Melica bocquetii Talavera, Lagascalia 14: 118 (1986)

Granada: Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 456; Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1333.

Melica humilis Boiss., Voy. Bot. Midi Esp. 2: 662 (1844)

Almería: Sierra de Gador, Fondón, Llanos de Boliches, calcareous soils, WF1786, 1650 m, 18.06.1988, 842; idem, low part of El Morrón, Llanos del Sabinar, calcareous soils, WF1783, 1700-1900 m, 18.06.1988, 863; Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1783; Jaén: Santiago de la Espada, above the river Zumeta, plateau with calcareous soil, WH3815, 23.06.1988, 1901b.

Melica humilis × *M. ciliata* L.

Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2368.

Melica magnolii Gren. & Godron, Fl. Fr. 3: 550 (1855). [= *M. ciliata* L. subsp. *magnolii* (Gren. & Godron) Husnot, Gram. 56, tab. 20, 1898]

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 811; **Granada:** La Calahorra, Cerro Juan Canal, calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1059; **Jaén:** Santiago de la Espada, above the river Zumeta, plateau with calcareous soil, WH3815, 23.06.1988, 1901; Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2669; Sierra de Cazorla, Burunchel, basic soils, WH0400, 800 m, 30.06.1988, 2850; **Málaga:** Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 90.

Melica minuta L., Mantissa 32 (1767)

Albacete: river Taibilla valley, Pedro Andrés, stony areas and cultivated ground, WH5522, 28.06.1988, 2612; **Almería:** Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 669; **Granada:** Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 383; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1607; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1781; **Jaén:** Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2200; Sierra de Cazorla, crossroads towards Nacimiento, damp area, basic soils, WH0497, 1100 m, 30.06.1988, 2856; **Málaga:** Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 47.

Melilotus albus Medicus, Vorl. Chrupf. Phys.-Ökon. Ges. 2:382 (1787)

Jaén: Sierra de la Sagra, Hornos, in roadside ditches, calcareous soils, WH2429, 01.07.1988, 2984.

Melilotus indica (L.) All., Fl. Pedem. 1: 308 (1785)

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1529; **Jaén:** Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2256d.

Melilotus neapolitana Ten., Fl. Neap. 1, Prodr.: 62 (1811)

Jaén: Sierra de Cazorla, crossroads towards Nacimiento, damp area, basic soils, WH0497, 1100 m, 30.06.1988, 2882.

Melilotus sulcata Desf., Fl. Atl. 2: 193 (1799)

Granada: Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1083; Sierra de la Sagra, calcareous soils, WG3597, 1400-1700 m, 24.06.1988, 2043.

Mentha longifolia (L.) Hudson, Fl. Engl. 221 (1762)

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2164.

Mercurialis annua L., Sp. Pl. 1035 (1753) subsp. *annua*

Granada: La Calahorra, Cerro Juan Canal, calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1048.

Mercurialis huetii Hanry, Billotia 1: 21 (1864)

Albacete: river Taibilla valley, Pedro Andrés, stony areas and cultivated ground, WH5522, 28.06.1988, 2595; idem, stony areas and cultivated ground, WH5522, 28.06.1988, 2596.

Mercurialis tomentosa L., Sp. Pl. 1035 (1753)

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 791b.

Micromeria graeca (L.) Bentham ex Reichenb., Fl. Germ. Excurs. 859 (1832)

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 8.

Micropus supinus L., Sp. Pl. 927 (1753)

Granada: Huelgo, Cerros de Monca, gypsum soils, 20.06.1988, 1153b; Sierra de Segura, between Pontones and El Campillo, pinewoods and fields, calcareous soils, WH2826, c. 1500 m, 26.06.1988, 2441.

Micropyrum tenellum* (L.) Link, Linnaea 17: 398 (1843) var. *tenellum

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 301; Jaén: Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2257.

***Micropyrum tenellum* var. *aristatum* (Tausch) Pilger, Bot. Jahrb. 74: 567 (1949)**

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 291.

***Minuartia campestris* L., Sp. Pl. 89 (1753)**

Albacete: Sierra de Taibilla, near Nerpio, calcareous soils, WH6122, c. 1000 m, 28.06.1988, 2616; Granada: between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1120c; Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2476.

***Minuartia dichotoma* L., Sp. Pl. 89 (1753)**

Almería: Abrucena, Las Rozas, on shales, WG1607, 1400 m, 17.06.1988, 523.

***Minuartia funkii* (Jordan) Graebner in Ascherson & Graebner, Syn. Mteleur. Fl. 5(1): 714 (1818)**

Granada: Sierra de Guillimona, Cuerda de los Mirabete, calcareous soils, WH3707, c. 1800 m, 23.06.1988, 1874; Sierra de la Sagra, amongst rocks and stones, calcareous soil and screes, WG3699, 1850-2300 m, 24.06.1988, 1934; Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1383; idem, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1439; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2681.

Almería: Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 151b.

***Minuartia hamata* (Hausskn. & Bornm.) Mattf., Bot. Jahrb. 57, Beibl. 126: 29 (1921).
[= *Queria hispanica* L., Sp. Pl. 90 (1753)]**

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310,

1600 m, 16.06.1988, 295; between El Marquesado and Alque, Cerro de los Pinos, hillsides with pines, on shales, VG9011, 1700 m, 16.06.1988, 433; Sierra de Guillimona, on the ascent of Cuerda de Miravetes, north-facing slopes, calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1850; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2678.

Minuartia hybrida* (Vill.) Schischkin in Komarov, Fl. URSS 6: 488 (1936) subsp. *hybrida

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 739; Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 324; Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1029; Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1339c; idem, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1495; idem, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1223c; idem, calcareous soils, WG1044, 1120 m, 21.06.1988, 1229b; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1633; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1764; Jaén: Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2221b; Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2276; Sierra de Cazorla, Burunchel, basic soils, WH0400, 800 m, 30.06.1988, 2847.

***Minuartia montana* L., Sp. Pl. 90 (1753)**

Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1604c.

***Minuartia rubra* (Scop.) McNeill, Feddes Repert. 68: 173 (1963)**

Granada: Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1941.

***Misopates orontium* (L.) Rafin., Autikon Bot. 158 (1840)**

Granada: between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1128f.

***Moehringia fontqueri* Pau, Cavanillesia 2: 163 (1930)**

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 615; Sierra Nevada, Cerro del Almirez, shale soils,

WG0804, 2240-2280 m, 19.06.1988, 926; Granada: Sierra de la Sagra, calcareous screes, WG3699, 1700-1850 m, 24.06.1988, 2013.

Moehringia intricata Willk., Linnaea 25: 14 (1852)

Albacete: river Taibilla valley, Pedro Andrés, stony areas and cultivated ground, WH5522, 28.06.1988, 2599; Granada: Sierra de la Sagra, amongst rocks and stones, calcareous soil and screes, WG3699, 1850-2300 m, 24.06.1988, 1928; Jaén: Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2182; Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2323; Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2932.

Moehringia pentandra Gay, Ann. Sci. Nat., ser. 1, 26: 230 (1832)

Granada: Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 453; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1766; Sierra de la Sagra, calcareous screes, WG3699, 1700-1850 m, 24.06.1988, 2036.

Moenchia erecta (L.) P. Gaertner, B. Meyer & Scherb., Fl. Wett. 1: 219 (1799)

Granada: Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1034.

Monotropa hypopys L., Sp. Pl. 387 (1753) var. *glabra* Roth, Tent. Fl. Germ. 2: 46 (1789). [= *M. hypophegea* Wallr., Sched. Cr. 191, 1822]

Jaén: Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2917.

This species, very rare in S Spain where it reaches the southern limit of its distribution, was recorded previously for Andalucia by Valle & al. (1988, Anales Jard. Bot. Madrid 45: 249) who found it in *Quercus pyrenaica* communities in the neighbourhoods of the Sierra de Segura.
S. TALAVERA

Montia fontana L., Sp. Pl. 87 (1753) subsp. *amporana* Sennen, Bull. Geogr. Bot. (Le Mans) 21: 110 (1911)

Almería: Sierra Nevada, El Chullo, damp area in shale soils, VG9905, 2150 m,

19.06.1988, 890; **Granada**: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 419.

Montia fontana subsp. *chondrosperma* (Fenzl) Walters, Watsonia 3: 4 (1953)

Granada: Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1017.

Montia fontana subsp. *variabilis* Walters, Watsonia 3: 5 (1953)

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 297b; Puerto de la Ragua, near the crossroads to Canjayar, VG 9803, 19.06.1988, 956b.

Moricandia arvensis (L.) DC., Reg. Veg. Syst. Nat. 2: 626 (1821)

Almería: between Benahadux and Rioja, roadsides, marls, WF8847, 15.06.1988, 194; **Murcia**: between Caravaca and Lorca, 23Km from Colonia de Sta. Teresa, gypsum soils, WG9897, 800 m, 27.06.1988, 2528.

Moricandia foetida Bourgeau ex Cosson, Not. Pl. Cr. 143 (1852)

Granada: Huelgo, Cerros de Monca, gypsum soils, 20.06.1988, 1157.

Moricandia moricandioides (Boiss.) Heywood, Feddes Repert. 66: 154 (1962)

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 725.

Mucizonia hispida (Lam.) A. Berger in Engler & Prantl, Natürl. Pflanzenfam., ed. 2. 18a: 420 (1930)

Granada: Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1027; **Jaén**: Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2208; **Huéscar**, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1629; **Málaga**: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 44.

***Muscari comosum* (L.) Miller, Gard. Dict. ed. 8, n. 2 (1768)**

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 752; Granada: Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 452; Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1337; Sierra de Guillimona, on the ascent of Cuerda de Miravetes, north-facing slopes, calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1849; Jaén: Caserío de D. Domingo, above the river bed of Los Cuartos, calcareous soils, WH3107, 1600 m, 29.06.1988, 2769.

***Myosotis decumbens* Host., Fl. Austr. 1: 228 (1827) subsp. *teresiana* (Sennen)
Grau, Öesterr. Bot. Zeschr. 111: 578 (1964)**

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 547; Granada: Puerto de la Ragua, near the crossroads to Canjayar, VG9803, 19.06.1988, 964.

***Myosotis minutiflora* Boiss. & Reuter, Pugillus 80 (1852)**

Almería: Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 925; Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1426; Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1965; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2756.

***Myosotis ramosissima* Rochel in Schultes, Öesterr. Fl., ed. 2, 1: 366 (1814) subsp.
*ramosissima***

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 768; Granada: Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 490.

***Myosotis stricta* Link ex Roemer & Schultes, Syst. Veg. 4: 104 (1819)**

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 624; Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 935; Granada: Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1914.

Narduroides salzmannii (Boiss.) Rouy, Fl. Fr. 14: 301 (1913)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 676; idem, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 722.

Nardus stricta L., Sp. Pl. 53 (1753)

Almería: Sierra Nevada, El Chullo, damp area in shale soils, VG9905, 2150 m, 19.06.1988, 882.

Nasturtium officinale R. Br. in Aon fil., Hort. Kew. ed. 2, 4: 111 (1812)

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 556; Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2127.

Neatostema apulum (L.) I. M. Johnston, Journ. Arnold Arb. 34: 6 (1953)

Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1192.

Nepeta amethystina Poiret in Lam. & Poiret, Encycl. Méth. Bot., Suppl. 2: 202 (1811) subsp. *amethystina*

Albacete: river Taibilla valley, Pedro Andrés, stony areas and cultivated ground, WH5522, 28.06.1988, 2590; Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 806; idem, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 824b; Jaén: Santiago de la Espada, cultivated ground, basic soil, WH3816, 1200 m, 23.06.1988, 1910.

Nepeta amethystina subsp. *laciniata* (Willk.) Ubera & Valdés Lagascalia 12: 40 (1983)

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 614; Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1425..

Nepeta amethystina subsp. *mallophora* (Webb & Heldr.) Ubera & Valdés Lagascalia 12: 35 (1983) var. *anticaria* Ladero & Rivas Goday ex Ubera & Valdés, Lagascalia 12: 40 (1983)

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 52.

Nepeta amethystina subsp. *mallophora* (Webb & Heldr.) Ubera & Valdés Lagascalia 12: 35 (1983) var. *bouргaei* (Briq.) Ubera & Valdés, Lagascalia 13: 38 (1983)

Almería: Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 176.

Nepeta tuberosa L., Sp. Pl. 571 (1753) subsp. *gienensis* (Degen & Hervier) Heywood, Bot. Journ. Linn. Soc. 65: 262 (1972)

Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2375; Sierra de Cazorla, crossroads towards Nacimiento, damp area, basic soils, WH0497, 1100 m, 30.06.1988, 2864.

Notobasis syriaca (L.) Cass., Dict. Sci. Nat. 35: 171 (1825)

Jaén: Sierra del Pozo, Loma de La Sagra, calcareous soils, WG0795, 1100 m, 30.06.1988, 2885.

Notoceras bicone (Aon) Amo, Fl. Iber. 6: 536 (1873)

Almería: between Gergal and Venta de Cañicas, roadside escarpment of shale, WG4102, 420 m, 15.06.1988, 225.

Odontes longiflora (Vahl) Webb, er Hisp. 24 (1838)

Granada: Sierra de Baza, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1280.

Odontes verna (Bellardi) Dumort., Fl. Belg. 32 (1827)

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2083.

Onobrychis argentea Boiss., Voy. Bot. Midi Esp. 2: 188 (1839)

Granada: Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2458.

Onobrychis argentea subsp. *hispanica* (Sirj.) P. W. Ball Feddes Repert. 79: 42 (1968)

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 814; Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1655; Sierra de Guillimona, Cuerda de los Mirabates, calcareous soils, WH3707, c. 1800 m, 23.06.1988, 1873.

Onobrychis stenorhiza DC., Prodr. 2: 346 (1825)

Murcia: between Caravaca and Lorca, Cerros de Lorca, gypsum soils, 550 m, 27.06.1988, 2546.

Onobrychis viciifolia Scop., Fl. Carn., ed. 2, 2: 76 (1772)

Jaén: Santiago de la Espada, cultivated fields and ditches, basic soils, WH3816, 1350 m, 29.06.1988, 2799.

Ononis sp.

Granada: Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2495d.

Ononis aragonensis Asso, Syn. Stirp. Arag. 96 (1779)

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 824; Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1455; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1723; Sierra de la Sagra, calcareous screes, WG3699, 1700-1850 m, 24.06.1988, 2017; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2695.

Ononis cephalotes Boiss., Elenchus 33 (1838)

Jaén: Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2817.

Ononis fruticosa L., Sp. Pl. 718 (1753)

Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1660.

Ononis minutissima L., Sp. Pl. 717 (1753)

Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1631.

Ononis mitissima L., Sp. Pl. 717 (1753)

Jaén: Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2804.

Ononis mollis Savi, Mem. Soc. al. Mod. 9: 351, tab. 8 (1802)

Granada: La Calahorra, Cerro Juan Canal, calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1057.

Ononis natrix L., Sp. Pl. 717 (1753) subsp. *natrix*

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 687; Granada: Sierra de Baza, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1276; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2709.

Ononis natrix subsp. *hispanica* (L. fil.) Coutinho, Fl. Port. 331 (1913)

Almería: Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 175.

Ononis pubescens L., Mantissa Alt. 267 (1771)

Jaén: Sierra de Cazorla, reservoir of El Tranco, calcareous soils, WH1920, 600-700 m, 30.06.1988, 2832; Bailén, in roadside ditches, basic soils, 01.07.1988, 3000.

Ononis pusilla L., Syst. Nat. ed. 10, 2: 1159 (1759). [= *O. columnae* All., Auct. Syn. Met. Horti Taur. 77, 1773]

Albacete: Sierra de las Huebras, around El Pozo, rocks and stony areas, calcareous soils, WH4618, c. 1400 m, 28.06.1988, 2576; Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 674; Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1241; idem, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1444; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 86.

Ononis reclinata L., Sp. Pl., ed. 2: 1011 (1763)

Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1247.

Ononis repens L., Sp. Pl. 717 (1753) subsp. *australis* (Sirj.) Devesa, Lagascalia 14: 145 (1986) var. *hispanica* (Lange) Devesa, l.c.: 145 (1986)

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1512; Sierra de Guillimona, on the ascent of Cuerda de Miravetes, north-facing slopes, calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1848.

Ononis rotundifolia L., Sp. Pl. 719 (1753)

Almería: Sierra de Gador, Fondón, Fuente de la Parra, on shale, WF1389, c. 1400 m, 18.06.1988, 771; Granada: Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1308.

Ononis saxicola Boiss. & Reuter, Pugillus 32 (1852)

Granada: Sierra de Guillimona, Cuerda de los Mirabete, calcareous soils, WH3707, c. 1800 m, 23.06.1988, 1867.

Ononis speciosa Lag., Gen. Sp. Nov. 22 (1816)

Almería: Fíflana, Cerro de la Cruz, on shale, WG0810, 1500-1600 m, 17.06.1988, 633b; Granada: Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1102.

Ononis spinosa L., Sp. Pl. 716 (1753) subsp. *australis* (Sirj.) Greuter & Burdet,
Willdenowia 19: 33 (1989)

Albacete: Sierra de las Huebras, around El Pozo, rocks and stony areas, calcareous soils, WH4618, c. 1400 m, 28.06.1988, 2552; river Taibilla valley, Pedro Andrés, stony areas and cultivated ground, WH5522, 28.06.1988, 2526

Ononis tridentata L., Sp. Pl. 718 (1753)

Granada: Galera, above the village, on hillside of gypsum soil, WG3976, 1100 m, 22.06.1988, 1567; Murcia: between Caravaca and Lorca, 23Km from Colonia de Sta. Teresa, gypsum soils, WG9897, 800 m, 27.06.1988, 2520.

Ononis viscosa L., Sp. Pl. 718 (1753)

Granada: Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1095.

Onopordon acaulon L., Sp. Pl. ed. 2: 1159 (1763)

Almería: Abrucena, Cerro de Pinates, on shales, WG1208, 1720 m, 17.06.1988, 575.

Onopordon macracanthum Schousboe, Vextr. Marokko 198 (1800)

Almería: between Tabernas and Venta de los Yesos, hillside, gypsum soil, WG6104, 500 m, 15.06.1988, 146.

Onopordon nervosum Boiss., Voy. Bot. Midi Esp. 2: 357 (1841)

Murcia: between Don Fadrique and Caravaca, cross-roads to Lorca, basic soil, WH9612, 800 m, 27.06.1988, 2506.

Onosma tricerosperma Lag., Gen. Sp. Nov. 10 (1816) subsp. *hispanica* (Degen & Hervier) P. W. Ball, Bot. Journ. Linn. Soc. 65: 354 (1972)

Granada: Sierra de Guillimona, on the ascent of Cuerda de Miravetes, north-facing slopes, calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1852; Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2493; Jaén: Sierra de Segura, Altos del Infierno, calcareous soils, WH2100, 1600 m, 30.06.1988, 2968.

Ophrys scolopax Cav., Icon. Descr. 2: 46 (1793)

Jaén: Santiago de la Espada, Sierra de la Grana, calcareous soils, WH3819, 1480 m, 25.06.1988, 2311b; Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2351.

Ophrys cf. sphegodes Miller, Gard. Dict. ed. 8, n. 8 (1768)

Granada: Sierra de Baza, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1289.

? *Opopanax* sp.

Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2373.

Oponanax chironium (L.) Koch, Nova Acta Acad. Leop.-Carol. 12(1): 96 (1824)

Granada: La Losa, basic soil, WH3502, c. 1400 m, 24.06.1988, 2065.

Orchis coriophora L., Sp. Pl. 940 (1753) subsp. *fragans* (Pollini) Sudre, Fl. Toulous. 187 (1907)

Orobanche amethystea subsp. *castellana* (Reuter) Rouy, Fl. Fr. 11: 185 (1909)

Jaén: Sierra de Cazorla, crossroads towards Nacimiento, damp area, basic soils, WH0497, 1100 m, 30.06.1988, 2853.

Orobanche caryophyllacea Sm., Trans. Linn. Soc. London 4: 169 (1798)

Albacete: river Taibilla valley, Pedro Andrés, stony areas and cultivated ground, WH5522, 28.06.1988, 2606; Granada: Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1334; Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2365.

Orobanche cernua Loefl., er Hisp. 152 (1758)

Granada: between El Marquesado and Alque, Cerro de los Pinos, hillsides with pines, on shales, VG9011, 1700 m, 16.06.1988, 444; between Benalúa de Guadix and Fonellar, c.

river Fardas, tributary river bed, sandy soils, on *Artemisia glutinosa*, VG8938, 20.06.1988, 1129.

***Orobanche gracilis* Sm., Trans. Linn. Soc. London 4: 172 (1798)**

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1785; Sierra de la Sagra, calcareous screes, WG3699, 1700-1850 m, 24.06.1988, 2009.

***Orobanche loricata* Reichenb., Pl. Cr. 7: 41 (1829)**

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 65.

***Orobanche lutea* Baumg., Enum. Pl. Stirp. Transs. 2:215 (1816)**

Jaén: Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2912.

***Orobanche minor* Sm. in Sowerby, Engl. Bot. 6, tab. 422 (1797)**

Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1650; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1687.

***Orobanche purpurea* Jacq., Enum. Stirp. Vindob. 108, 252 (1762)**

Granada: Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2461; **Jaén:** between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2206.

***Orobanche ramosa* L., Sp. Pl. 633 (1753)**

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 105.

Orobanche ramosa L., Sp. Pl. 633 (1753) subsp. *mutelii* (F. W. Schultz) Coutinho, Fl. Port. 566 (1913)

Granada: Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 2001; **Jaén:** Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2720.

Orobanche rapum-genistae Thuill., Fl. Paris, ed. 2, 317 (1800).

Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2715.

Orobanche reticulata Wallr., Orob. Gen. 42 (1825)

Granada: Sierra de Guillimona, on the ascent of Cuerda de Miravetes, north-facing slopes, calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1843.

Orobanche cf. arenaria Borkh., Neues Mag. Bot. (Roemer) 1: 6 (1794).

Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1646.

Orobanche cf. lutea Baumg., Enum. Stirp. Transs. 2: 215 (1816).

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1667.

Paeonia broteroi Boiss. & Reuter, Diagn. Pl. Nov. Hisp. 4 (1842)

Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1593; Sierra de la Sagra, calcareous soils, WG3597, 1400-1700 m, 24.06.1988, 2038; **Jaén:** Sierra de Segura, Covacha de la Cañada, calcareous soils, WH3118, 1530 m, 26.06.1988, 2404; Caserío de D. Domingo, above the river bed of Los Cuartos, calcareous soils, WH3107, 1600 m, 29.06.1988, 2767.

Paeonia officinalis L., Sp. Pl. 530 (1753) subsp. *pumilla* (Retz.) Cullen & Heywood, Feddes Repert. 69: 34 (1964)

Jaén: Caserío de D. Domingo, above the river bed of Los Cuartos, calcareous soils, WH3107, 1600 m, 29.06.1988, 2670.

Pallenis spinosa (L.) Cass., Dict. Sci. Nat. 37: 276 (1825)

Jaén: Bailén, in roadside ditches, basic soils, 01.07.1988, 2999.

Pallenis spinosa var. *spinosa*

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 73.

Polygala boissieri Cosson, Not. Pl. Cr. 100 (1851)

Almería: Sierra de Gador, Fondón, Llanos de Boliches, calcareous soils, WF1786, 1650 m, 18.06.1988, 840.

Papaver argemone L., Sp. Pl. 506 (1753)

Almería: Abrucena, Las Rozas, on shales, WG1607, 1400 m, 17.06.1988, 519; Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1779; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2730.

Papaver dubium L., Sp. Pl. 1196 (1753)

Almería: Abrucena, Las Rozas, on shales, WG1607, 1400 m, 17.06.1988, 520.

Papaver hybridum L., Sp. Pl. 506 (1753)

Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1212.

Papaver rhoeas L., Sp. Pl. 507 (1753) var. *rhoeas*

Almería: Abrucena, Las Rozas, on shales, WG1607, 1400 m, 17.06.1988, 522; Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1206; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1782.

Papaver rhoeas var. *strigosum* Boenn., Prodr. Fl. Monast. 157 (1824)

Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2732.

Parapholis incurva (L.) C. E. Hubbard, Blumea, Suppl. 3: 14 (1946)

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1523.

Parietaria judaica L., Fl. Palaest. 32 (1756). [= *P. officinalis* auct., non L.]

Albacete: Sierra de Lagos, Graya, rocky area, calcareous soils, WH5737, 1150 m, 28.06.1988, 2635; Granada: Granada, gardens of the Alhambra, on walls of calcareous stone, 14.06.1988, 125; Jaén: Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2209.

Parietaria mauritanica Durieu in Duchartre, Rev. Bot. 2: 427 (1847)

Albacete: river Taibilla valley, Pedro Andrés, stony areas and cultivated ground, WH5522, 28.06.1988, 2594b.

Paronychia aretioides DC., Prodr. 3: 371 (1828)

Granada: Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1349; Sierra de la Sagra, amongst rocks and stones, calcareous soil and screes, WG3699, 1850-2300 m, 24.06.1988, 1935b; Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2489.

Paronychia argentea Lam., Fl. Fr. 3: 230 (1778)

Granada: Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1084; Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2080.

Paronychia capata (L.) Lam., Fl. Fr. 3: 229 (1778)

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 278; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 30.

Paronychia kapela (Jacq.) Kerner, Österr. Bot. Zeschr. 19: 367 (1869)

Granada: Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1935; **Jaén:** Sierra Seca: El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2688.

Paronychia kapela subsp. *serpyllifolia* (Chaix) Graebner in Ascherson & Graebner, Syn. Mteleur. Fl. 5(1): 892 (1919)

Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2728b.

Paronychia polygonifolia (Vill.) DC. in Lam. & DC., Fl. Fr. ed. 3, 3: 403 (1805)

Almería: Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 936.

Paronychia suffruticosa (L.) Lam., Encycl. Meth. Bot. 5: 25 (1804)

Almería: Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 162; between Gergal and Venta de Cañicas, roadside escarpment of shale, WG4102, 420 m, 15.06.1988, 222; **Almería:** Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 807; **Granada:** Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 276; Sierra de Baza, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1287; Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2460.

Peganum harmala L., Sp. Pl. 444 (1753)

Almería: between Tabernas and Venta de los Yesos, hillside, gypsum soil, WG6104, 500 m, 15.06.1988, 129; **Murcia:** between Caravaca and Lorca, 23Km from Colonia de Sta. Teresa, gypsum soils, WG9897, 800 m, 27.06.1988, 2530.

Petrorhagia nanteuillii (Burnat) P. W. Ball & Heywood, Bull. Br. Mus. (Bot.) 3: 164 (1964)

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 735; **Granada:** Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 261; idem, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 352; Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1002; **Sierra de**

Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1740; Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2076; Sierra de Cazorla, reservoir of El Tranco, calcareous soils, WH1920, 600-700 m, 30.06.1988, 2839; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 24.

***Phagnalon rupestre* (L.) DC., Prodr. 5: 396 (1836)**

Granada: La Calahorra, Cerro Juan Canal, calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1076.

***Phagnalon saxatile* (L.) Cass., Bull. Soc. Philom. Paris 1819: 174 (1819)**

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 235; Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1013.

***Phagnalon sordidum* (L.) Reichenb., Fl. Germ. Excurs. 224 (1831)**

Granada: La Calahorra, Cerro Juan Canal, calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1079; Jaén: Santiago de la Espada, Sierra de la Grana, calcareous soils, WH3819, 1480 m, 25.06.1988, 2297.

***Phalaris arundinacea* L., Sp. Pl. 55 (1753)**

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2125.

***Phalaris coerulescens* Desf., Fl. Atl. 1: 56 (1798)**

Jaén: Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2809.

***Phalaris minor* Retz., Obs. Bot. 3: 8 (1783)**

Sevilla: between Ecija and La Luisiana, cultivated fields of *Helianthus annuus*, 01.07.1988, 3002.

Phillyrea angustifolia L., Sp. Pl. 7 (1753)

Jaén: river Segura valley, near Parolis, calcareous and dolomitic soils, WH4935, c. 700 m, 28.06.1988, 2648.

Phleum bertolonii DC., Cat. Pl. Horti Monsp. 132 (1813). [= *P. pratensis* L., Sp. Pl. 59, 1753 subsp. *bertolonii* (DC.) Bornm., Bot. Jahrb. 61, Beibl. 140: 158, 1982]

Jaén: Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2906.

Phleum pratense L., Sp. Pl. 59 (1753) subsp. *bertolonii* (DC.) Bornm., Bot. Jahrb. 61, Beibl. 140: 157 (1928)

Granada: Sierra de Guillimona, on the ascent of Cuerda de Miravete, north-facing slopes, calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1835; Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2104.

Phlomis composita Pau, Bol. Soc. Aragon. Ci. Nat. 17: 132 (1918)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 668; Granada: between El Marquesado and Alque, Cerro de los Pinos, hillsides with pines, on shales, VG9011, 1700 m, 16.06.1988, 426; between Aldeira and the gorge of the Pasillos, on shales, VG9407, c. 1650 m, 16.06.1988, 498.

Phlomis crina Cav., Icon. Descr. 3: 25 (1795)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 634.

Phlomis herba-venti L., Sp. Pl. 586 (1753)

Jaén: Santiago de la Espada, above the river Zumeta, plateau with calcareous soil, WH3815, 23.06.1988, 1900.

Phlomis lychnis L., Sp. Pl. 585 (1753)

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 250; Sierra de Baza, near Cortijo del Bardín, calcareous soils,

WG1044, 1120 m, 21.06.1988, 1194; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 88.

Phlomis purpurea L., Sp. Pl. 585 (1753)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 635.

Phyteuma orbiculare L., Sp. Pl. 170 (1753)

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1821.

Picris comosa (Boiss.) B.D. Jackson., Index Kew. 2:521 (1894) subsp. *comosa*

Jaén: Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2816.

Picris echioides L., Sp. Pl. 792 (1753)

Jaén: Bailén, in roadside ditches, basic soils, 01.07.1988, 2991.

Picris hispanica (Willd.) P. D. Sell, Bot. Journ. Linn. Soc. 71: 248 (1976)

Granada: La Calahorra, Cerro Juan Canal, calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1075; Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1187; Sierra de la Sagra, calcareous soils, WG3597, 1400-1700 m, 24.06.1988, 2041; Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2462.

Pimpinella saxifraga L., Sp. Pl. 263 (1753)

Jaén: Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2926.

Pimpinella tragium Vill., Prosp. Pl. Dauph. 24 (1779) subsp. *lhophila* (Schishkin)
Tutin, Feddes Repert. 79: 62 (1968)

Jaén: Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2194.

Cynodon dactylon (L.) Pers., *Syn. Pl.* 1: 85 (1805)

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1526.

Cynodon dactylon subsp. *affinis* (Caro & Sánchez) Romero Zarco, *Lagascalia* 14: 171 (1986). [= *C. affinis* Caro & Sánchez, *Kurtziana* 5: 223, 1969]

Almería: between Gergal and Venta de Cañicas, roadside escarpment of shale, WG4102, 420 m, 15.06.1988, 215.

Cynoglossum cheirifolium L., *Sp. Pl.* 134 (1753)

Granada: Sierra de Guillimona, on the ascent of Cuerda de Miravetes, north-facing slopes calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1843e; **Jaén:** Sierra de Segura, Covacha de la Cañada, calcareous soils, WH3118, 1530 m, 26.06.1988, 2406.

Cynoglossum creticum Miller, *Gard. Dict. ed. 8*, n. 3 (1768). [= *C. pictum* Aon, *Hort. Kew. 1*: 179, 1789]

Granada: Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1112; **Jaén:** Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2361.

Cynoglossum dioscoridis Vill., *Prosp. Pl. Dauph.* 21 (1779)

Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2384.

Cynoglossum nebrodense Guss., *Fl. Sic. Prodr.* 1: 216 (1827)

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 721; **Granada:** Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1332; idem, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1468.

Cynosurus echinatus L., *Sp. Pl.* 72 (1753)

Granada: Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1093; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1792; **Jaén:** between Tobos and Ves, bed of river Zumeta,

Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1801; Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2106; Santiago de la Espada, Sierra de la Grana, calcareous soils, WH3819, 1480 m, 25.06.1988, 2306; Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2889.

Pistacia lentiscus L., Sp. Pl. 1026 (1753)

Albacete: river Segura valley, near Parolis, calcareous and dolomitic soils, WH4937, c. 700 m, 28.06.1988, 2636.

Pistacia terebinthus L., Sp. Pl. 1025 (1753)

Jaén: Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2187.

Pistorinia hispanica (L.) DC., Prodr. 3: 399 (1838)

Almería: between Abrucena and Las Rozas, on shales, WG1708, 1100-1350 m, 17.06.1988, 507.

Pistorinia hispanica (L.) DC., Prodr. 3: 399 (1828)

Granada: La Calahorra, Cerro Juan Canal, calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1050; Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1245; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1700; Jaén: Sierra de Segura, Altos del Infierno, calcareous soils, WH2100, 1600 m, 30.06.1988, 2975.

Plantago afra L., Sp. Pl., ed. 2: 168 (1762)

Almería: Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 154.

Plantago albicans L., Sp. Pl. 114 (1753)

Almería: Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 178; Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1198; Galera, above the village, on hillside of gypsum soil, WG3976, 1100 m, 22.06.1988, 1579.

Plantago amplexicaulis Cav., Icon. Descr. 2: 22 (1793)

Almería: Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 178b.

Plantago coronopus L., Sp. Pl. 115 (1753)

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1519.

Plantago holosteum Scop., Fl. Carn., ed. 2, 1: 107 (1771)

Almería: Sierra de Gador, Fondón, Llanos de Boliches, calcareous soils, WF1786, 1650 m, 18.06.1988, 825; idem, calcareous soils, WF1786, 1650 m, 18.06.1988, 825b; Granada: between El Marquesado and Alque, Cerro de los Pinos, hillsides with pines, on shales, VG9011, 1700 m, 16.06.1988, 423; idem, hillsides with pines, on shales, VG9011, 1700 m, 16.06.1988, 423b; idem, hillsides with pines, on shales, VG9011, 1700 m, 16.06.1988, 436; Jaén: Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2916.

Plantago lagopus L., Sp. Pl. 114 (1753)

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 63.

Plantago major L., Sp. Pl. 112 (1753) subsp. *intermedia* (DC.) Arcangeli, Comp. Fl. al. 501 (1882)

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2140.

Plantago sempervirens Crantz, Inst. Rei Herb. 2: 331 (1766)

Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1181; idem, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1410; Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2141.

Plantago subulata L., Sp. Pl. 115 (1753)

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 328.

Platycapnos saxicola Willk., Bot. Ze. 6: 367 (1848)

Granada: Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1972.

Plumbago europaea L., Sp. Pl. 151 (1753)

Albacete: river Taibilla valley, Pedro Andrés, stony areas and cultivated ground, WH5522, 28.06.1988, 2588; **Granada:** Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1623.

Poa bulbosa L., Sp. Pl. 70 (1753)

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 385; between El Marquesado and Alque, Cerro de los Pinos, hillsides with pines, on shales, VG9011, 1700 m, 16.06.1988, 439b; Puerto de la Ragua, near the crossroads to Canjayar, VG9803, 19.06.1988, 952; Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1477; **Jaén:** Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2661.

Poa compressa L., Sp. Pl. 69 (1753)

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1801b; **Jaén:** between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2117.

Poa flaccidula Boiss. & Reuter, Pugillus 128 (1852)

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1798; **Jaén:** Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2338; Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2672; **idem,** calcareous soils, WH2800, 1800 m, 29.06.1988, 2685.

Poa ligulata Boiss., Voy. Bot. Midi Esp., tab. 178 (1842), 2: 659 (1844) var. *ligulata*

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 598; Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 915; **Granada:** Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1971; Sierra

de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1405; idem, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1496; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2666.

Poa nemoralis L., Sp. Pl. 69 (1753)

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 565; idem, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 589b; Granada: Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 450; idem, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 492;

Poa pratensis L., Sp. Pl. 67 (1753)

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 305b; Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1338.

Poa trivialis L., Sp. Pl. 67 (1753) subsp. *trivialis*

Granada: Puerto de la Ragua, near the crossroads to Canjayar, VG9803, 19.06.1988, 958; Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 303b; idem, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 305; Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2360.

Polycnemum arvense L., Sp. Pl. 35 (1753)

Almería: Abrucena, Las Rozas, on shales, WG1607, 1400 m, 17.06.1988, 524.

This finding confirms the old collection by Clemente (Colmeiro 1988, Enum. Rev. Pl. Pen. Hisp. Lusit. 4: 553) for Sierra Nevada, registered for the area by Molero Mesa & Pérez Raya (1987, Fl. Sierra Nevada: 66).

B. VALDÉS

Polygala boissieri Cosson, Not. Pl. Cr. 100 (1851)

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1817; Sierra de Baza, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1296; idem, limestone, WG1340, 1400-1600 m, 21.06.1988, 1318.

Polygala monspeliaca L., Sp. Pl. 702 (1753)

Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1604f; **Jaén:** Santiago de la Espada, Sierra de la Grana, calcareous soils, WH3819, 1480 m, 25.06.1988, 2315.

Polygala rupestris Pourret, Mém. Acad. Sci. Toulouse 3: 325 (1788)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 674b; idem, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 794; **Granada:** La Calahorra, Cerro Juan Canal, calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1043; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, m, 22.06.1988, 1615; **Jaén:** Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2217; Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2262; **Málaga:** Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 12.

Polygonatum odoratum (Miller) Druce, Ann. Scott. Nat. Hist. 1906: 226 (1906)

Almería: Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 914; **Granada:** Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1672b; **Jaén:** Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2353; Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2895.

Polygonum bellardii All., Fl. Pedem. 1: 207 (1785)

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1556.

Polygonum hydropiper L., Sp. Pl. 361 (1753)

Jaén: Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2186.

Polygonum rurivagum Jordan & Boreau, Fl. Centre Fr. ed. 3, 2: 560 (1857)

Jaén: Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2196.

Polypogon viridis (Gouan) Breistr., Bull. Soc. Bot. Fr. 110 (Sess. Extr.): 56 (1966)

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2093; Sierra de Cazorla, crossroads towards Nacimiento, damp area, basic soils, WH0497, 1100 m, 30.06.1988, 2858.

Polystichum aculeatum (L.) Roth, Tent. Fl. Germ. 3: 79 (1799)

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 537.

Polystichum setiferum (Forsskål) Woymar, Mt. Naturwiss. Vereins Steiermark 49: 181 (1913)

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 594.

Potamogeton densus L., Sp. Pl. 126 (1753)

Jaén: Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2177.

Potentilla caulescens L., Cent. Pl. 2: 19 (1756)

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1744.

Potentilla hirta L., Sp. Pl. 497 (1753)

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 579; Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 355; Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1311; idem, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1431.

Potentilla reptans L., Sp. Pl. 499 (1753)

Granada: Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1365; Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2113.

Primula veris L., Sp. Pl. 142 (1753)

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 613.

Primula vulgaris Hudson, Fl. Angl. 70 (1762) subsp. *vulgaris*

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1815; Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2324.

Prolonga hispanica G. López & Ch. E. Jarvis, Anales Jardín Bot. Madrid 40: 343 (1984)

Granada: between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1142.

Prunella hyssopifolia L., Sp. Pl. 600 (1753)

Jaén: Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2808.

Prunella hyssopifolia L. x *P. laciniata* (L.) L.

Jaén: Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2808b.

Prunella laciniata (L.) L., Sp. Pl. ed. 2, 837 (1763)

Granada: Sierra de Guillimona, on the ascent of Cuerda de Miravetes, north-facing slopes, calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1837; Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2385.

Prunella vulgaris L., Sp. Pl. 600 (1753)

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 545; Granada: Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1355; Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2162; Poyotello, Sierra de Segura, gorge of river

Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2387.

Prunus mahaleb L., Sp. Pl. 474 (1753)

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1734; **Jaén:** Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2318.

Prunus prostrata Labill., Icon. Pl. Syr. 1: 15 (1791)

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 609; Sierra de Gador, above the Lote de Bardagí, calcareous soils, WF1784, 1700-1900 m, 18.06.1988, 849; **Granada:** Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1467; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1622; Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1988.

Prunus ramburii Boiss., Elenchus 39 (1838)

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 620.

Psilurus incurvus (Gouan) Schinz & Thell., Viert. Naturf. Ges. Zürich 58: 40 (1913)

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 266.

Pterocephalus spathulatus (Lag.) Coulter, Mém. Dipsac. 32 (1823)

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1399; Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1949.

Ptilostemon hispanicum (Lam.) Greuter, Boissiera 13: 146 (1967). [= *Chamaepetrum hispanicum* (Lam.) DC., Prodromus 6: 658, 1838]

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 53.

Ptilotrichum longicaule (Boiss.) Boiss., Elenchus 13 (1838)

Jaén: Sierra de Segura, Covacha de la Cañada, calcareous soils, WH3118, 1530 m, 26.06.1988, 2407.

Ptilotrichum spinosum (L.) Boiss., Voy. Bot. Midi Esp. 2: 46 (1839). [= *Alyssum spinosum* L., Sp. Pl. 650, 1753]

Granada: Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 448; Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1954; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2655.

Ptychotis saxifraga (L.) Loret & Barrandon, Fl. Montpell. 283 (1876)

Albacete: Sierra de Lagos, Graya, rocky area, calcareous soils, WH5737, 1150 m, 28.06.1988, 2628.

Pulicaria paludosa Link, Neues Journ. Bot. 1(3):142 (1806)

Jaén: Bailén, in roadside ditches, basic soils, 01.07.1988, 2992.

Quercus coccifera L., Sp. Pl. 995 (1753)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 686; Jaén: river Segura valley, near Parolis, calcareous and dolomitic soils, WH4935, c. 700 m, 28.06.1988, 2649.

Quercus faginea Lam., Encycl. Méth. Bot. 1: 725 (1785) subsp. *faginea*

Jaén: river Segura valley, near Parolis, calcareous and dolomitic soils, WH4935, c. 700 m, 28.06.1988, 2643.

Quercus rotundifolia Lam., Encycl. Méth. Bot. 1: 723 (1785)

Granada: Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 459; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1749.

Ranunculus sp.

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1515.

Ranunculus arvensis L., Sp. Pl. 555 (1753)

Albacete: river Taibilla valley, Pedro Andrés, stony areas and cultivated ground, WH5522, 28.06.1988, 2605; Jaén: Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2256c; Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2355; Caserío de D. Domingo, above the river bed of Los Cuartos, calcareous soils, WH3107, 1600 m, 29.06.1988, 2782.

Ranunculus bulbosus L., Sp. Pl. 554 (1753) subsp. *aleae* (Willk.) Rouy & Fouc., Fl. Fr. 1: 106 (1893)

Almería: Sierra Nevada, El Chullo, damp area in shale soils, VG9905, 2150 m, 19.06.1988, 906.

Ranunculus bulbosus subsp. *aleae* (Willk.) Rouy & Fouc., Fl. Fr. 1: 106 (1893)
var. *adscendens* (Brot.) Pinto da Silva, Agron. Lus. 14:14 (1952)

Jaén: Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2929.

Ranunculus demissus DC., Syst. Nat. 1: 275 (1817)

Almería: Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 939.

Ranunculus gramineus L., Sp. Pl. 549 (1753)

Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2750.

Ranunculus gramineus var. *gramineus*

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1498; Sierra de Segura, between Pontones and El Campillo, pinewoods and fields, calcareous soils, WH2826, c. 1500 m, 26.06.1988, 2431; Jaén:

Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2377.

Ranunculus granatensis Boiss., Diagn. Pl. Or. Nov., ser. 2, 1: 8 (1854)

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 408; Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 479; Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2077; Poyotello, Sierra de Segura, gorge of river Segura, rocks and steep screes, calcareous soils, WH3222, 1250 m, 26.06.1988, 2395.

Ranunculus hederaceus L., Sp. Pl. 556 (1753)

Granada: Puerto de la Ragua, near the crossroads to Canjayar, VG9803, 19.06.1988, 956; idem, VG9803, 19.06.1988, 964c.

Ranunculus malessanus Degen & Hervier, Bull. Acad. Int. Géogr. Bot. (Le Mans) 16(202-204): 222 (1906)

Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2383.

Ranunculus ollissiponensis Pers., Syn. Pl. 2: 106 (1806) subsp. *ollissiponensis*

Granada: Puerto de la Ragua, near the crossroads to Canjayar, VG9803, 19.06.1988, 976.

Ranunculus paludosus Poiret, Voy. Barb. 2: 184 (1789)

Jaén: Sierra del Pozo, damp areas in basic soils, WG1498, 1580 m, 30.06.1988, 2958.

Ranunculus parviflorus L. in Loefl., er Hisp. 303, 57 (1758)

Granada: Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 493; Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1033.

Ranunculus peltatus* Schrank, Baier. Fl. 2: 103 (1789) subsp. *peltatus

Almería: Sierra de Gador, low part of El Morrón Llanos del Sabinar, calcareous soils, WF1483, 1780 m, 18.06.1988, 854.

***Ranunculus pseudomillefoliatus* Grau, Mt. Bot. Staatssamml. München 20: 55 (1984)**

Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2382.

***Ranunculus repens* L., Sp. Pl. 554 (1753)**

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 534; Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2100.

***Ranunculus trichophyllus* Chaix, Pl. Vap. 31 (1785)**

Jaén: Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2210; Sierra del Pozo, damp areas in basic soils, WG1498, 1580 m, 30.06.1988, 2963.

***Reichardia intermedia* (Schultz Bip.) Sampaio, Bol. Soc. Brot. 24: 68 (1909)**

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 21.

***Reichardia tingana* (L.) Roth, Bot. Abh. 35 (1787)**

Granada: between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1124; idem, sandy soils, VG8938, 20.06.1988, 1144; Murcia: between Caravaca and Lorca, Cerros de Lorca, gypsum soils, 550 m, 27.06.1988, 2549.

***Reseda alba* L., Sp. Pl. 449 (1753)**

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2118.

Reseda barrelieri Bertal. ex Müller Arg., in DC., Prodr. 16(2): 557 (1868). [= *R. undata* Boiss., Voy. Bot. Midi Esp. 2: 75, 1839, non L., 1759; *R. baetica* (Müller Arg.) Gay ex Lange in Willk. & Lange]

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 781; idem, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 717; Granada: Galera, above the village, on hillside of gypsum soil, WG3976, 1100 m, 22.06.1988, 1585; Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1915.

As *R. undulata* L., to which it is closely related, this species has pentamerous flowers, but the base of the petals is well marked and the capsules are almost twice as long as in *R. undulata*.
B. VALDÉS

Reseda complicata Bory, Ann. Gén. Sci. Phys. (Bruxelles) 3: 13 (1820)

Granada: Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1015.

Reseda decursiva Forsskål, Fl. Aegypt. LXVI (1775)

Almería: between Gergal and Venta de Cañicas, roadside escarpment of shale, WG4102, 420 m, 15.06.1988, 228.

This species had been indicated for Spain only in Cádiz province, near Gibraltar (Yeo 1964, in Tutin & al., Fl. Eur. 1: 348; Ramos 1987, in Valdés & al., Fl. Vasc. Andal. Occ. 1: 451). This constitutes a new record for Almería province, and the second for Spain.
H. J. M. BOWEN & B. VALDÉS

Reseda lanceolata Lag., Gen. Sp. Nov. 17 (1816)

Almería: between Benahadux and Rioja, roadsides, marls, WF8847, 15.06.1988, 191; Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 657.

Reseda lutea L., Sp. Pl. 449 (1753)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 706; Granada: La Calahorra, Cerro Juan Canal, calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1052; Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1314; Galera, above the village, on hillside of gypsum soil, WG3976, 1100 m, 22.06.1988, 1589.

Reseda luteola L., Sp. Pl. 448 (1753)

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 388; Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2120.

Reseda phyteuma L., Sp. Pl. 449 (1753)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 705; Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1611; Sierra de Guillimona, Cuerda de los Mirabete, calcareous soils, WH3707, c. 1800 m, 23.06.1988, 1897; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 83.

Reseda stricta Pers., Syn. Pl. 2: 10 (1806)

Granada: Galera, above the village, on hillside of gypsum soil, WG3976, 1100 m, 22.06.1988, 1591.

Reseda undata L., Syst. Nat. ed. 10, 2: 1046 (1759)

Granada: Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2490; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1729; idem, Cuerda de los Mirabete, calcareous soils, WH3707, c. 1800 m, 23.06.1988, 1876; Murcia: between Caravaca and Lorca, 23Km from Colonia de Sta. Teresa, gypsum soils, WG9897, 800 m, 27.06.1988, 2511; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2656; Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2818.

Retama sphaerocarpa (L.) Boiss., Voy. Bot. Midi Esp. 2: 144 (1840). [= *Lygos sphaerocarpa* (L.) Heywood, Feddes Repert. 79: 53, 1968]

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 277.

Rhagadiolus edulis Gaertner, Fruct. Sem. Pl. 2: 354 (1791)

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 29b; Jaén: Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2892.

Rhagadiolus stellatus (L.) Gaertner, Fruct. Sem. Pl. 2: 354 (1791)

Jaén: Santiago de la Espada, Sierra de la Grana, calcareous soils, WH3819, 1480 m, 25.06.1988, 2311.

Rhamnus lycioides L., Sp. Pl., ed. 2, 279 (1762) subsp. *lycioides*

Almería: between Gergal and Venta de Cañicas, roadside escarpment of shale, WG4102, 420 m, 15.06.1988, 217; Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 685.

Rhamnus myrtifolia Willk., Linnaea 25: 18 (1852)

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 782; Jaén: Santiago de la Espada, above the river Zumeta, plateau with calcareous soil, WH3815, 23.06.1988, 1902.

Rhamnus pumila Turra, Giorn. al. Sci. Nat. Agric. Arti Commerc. 1: 120 (1764)

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1456; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1750; Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1993; Jaén: Sierra de Segura, Covacha de la Cañada, calcareous soils, WH3118, 1530 m, 26.06.1988, 2408.

Rhamnus saxatilis Jacq., Enum. Stirp. Vindob. 39: 212 (1762)

Granada: Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1346; Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1983.

Rhamnus saxatilis var. *infectoria* (L.) Molero Mesa & Pérez Raya Fl. Sierra Nevada: 179 (1987)

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 605.

Rhoemeria hybrida (L.) DC., Reg. Veg. Syst. Nat. 2: 92 (1821)

Almería: between Gergal and Venta de Cañicas, roadside escarpment of shale, WG4102, 420 m, 15.06.1988, 218; Murcia: between Caravaca and Lorca, 23Km from Colonia de Sta. Teresa, gypsum soils, WG9897, 800 m, 27.06.1988, 2509.

Salsola opposifolia Desf., Fl. Atl. 1: 219 (1798)

Almería: between Benahadux and Rioja, roadsides, marls, WF8847, 15.06.1988, 181b; between Gergal and Venta de Cañicas, roadside escarpment of shale, WG4102, 420 m, 15.06.1988, 199.

Salsola soda L., Sp. Pl. 223 (1753)

Almería: between Gergal and Venta de Cañicas, roadside escarpment of shale, WG4102, 420 m, 15.06.1988, 200.

Salvia argentea L., Sp. Pl. ed. 2: 31 (1762)

Granada: Sierra de Guillimona, on the ascent of Cuerda de Miravetes, north-facing slopes, calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1854; Sierra de Segura, between Pontones and El Campillo, pinewoods and fields, calcareous soils, WH2826, c. 1500 m, 26.06.1988, 2445; Jaén: Caserío de D. Domingo, above the river bed of Los Cuartos, calcareous soils, WH3107, 1600 m, 29.06.1988, 2766.

Salvia lavandulifolia Vahl, Enum. Pl. 1: 222 (1804)

Albacete: Sierra de las Huebras, around El Pozo, rocks and stony areas, calcareous soils, WH4618, c. 1400 m, 28.06.1988, 2569; Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 797, Granada: Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1113; Sierra de Baza, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1278; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1597; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1686.

The plants from Sierra de Gador and from other localities seem to belong to var. *lagascana* (Webb) Rosúa & Blanca (1986, Acta Bot. Malacitana 11: 264). However, the calyx is not glabrous, since it has glandular hairs at least at the base, on the lower nerves. The status of these plants is doubtful.

G. ALZIAR & B. VALDÉS

Salvia phlomoides Asso, Intr. Oryctogr. Arag. 158 (1784)

Granada: Sierra de la Sagra, calcareous soils, WG3597, 1400-1700 m, 24.06.1988, 2059; Sierra de Segura, Pontones, calcareous soils, WH2819, 26.06.1988, 2455.

Salvia verbenaca L., Sp. Pl. 25 (1753)

Granada: La Calahorra, Cerro Juan Canal, calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1051; La Losa, basic soil, WH3502, c. 1400 m, 24.06.1988, 2066.

Samolus valerandi L., Sp. Pl. 171 (1753)

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2097; Sierra de Cazorla, crossroads towards Nacimiento, damp area, basic soils, WH0497, 1100 m, 30.06.1988, 2857.

Scrophularia sciophila Willk., Bot. Ze. 8: 77 (1850)

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 536.

Scutellaria orientalis L., Sp. Pl. 598 (1753) subsp. *hispanica* (Boiss.) Greuter & Burdet, Willdenowia 14: 307 (1985)

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-

2200 m, 21.06.1988, 1504; Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1991.

As Edmondson (1980, Notes Roy. Bot. Gard. Edinburgh 38: 53) stated, *S. orientalis* is very polymorphic species which extends from Spain and NW Africa to Central Asia and W China. This wide area of distribution is, however, discontinuous, and there are several rather well characterized subspecies. As far as southern continental Europe is concerned, this species occurs only in the Balkans, specially in Yugoslavia, and in the south of the Iberian Peninsula. The plants from the Balkans were separated by Edmondson (l.c.: 54) as subsp. *pinnatifida* (sensu Boiss., non Reichenb., nom. inval.), while those from the Iberian Peninsula were described by Boissière (1841, Voy. Bot. Midi Esp. 2: 500) as var. *hispanica*, and rised to subspecific level by Greuter & Burdet (1985, Willdenowia 14: 307).

The decision to consider both groups of plants as different subspecies seems to be quite correct, since the plants from the Iberian Peninsula differ from those from the Balkans in a number of quantitative as well as qualitative characters, especially in general habit, size and shape of leaves, bracts and flowers, and indumentum. The clearest difference concerns the indumentum of the corolla, which is formed by eglandular hairs in the plants from the Iberian Peninsula (Fig. 1A) and by glandular hairs in those from the Balkans (Fig. 1 B-H).

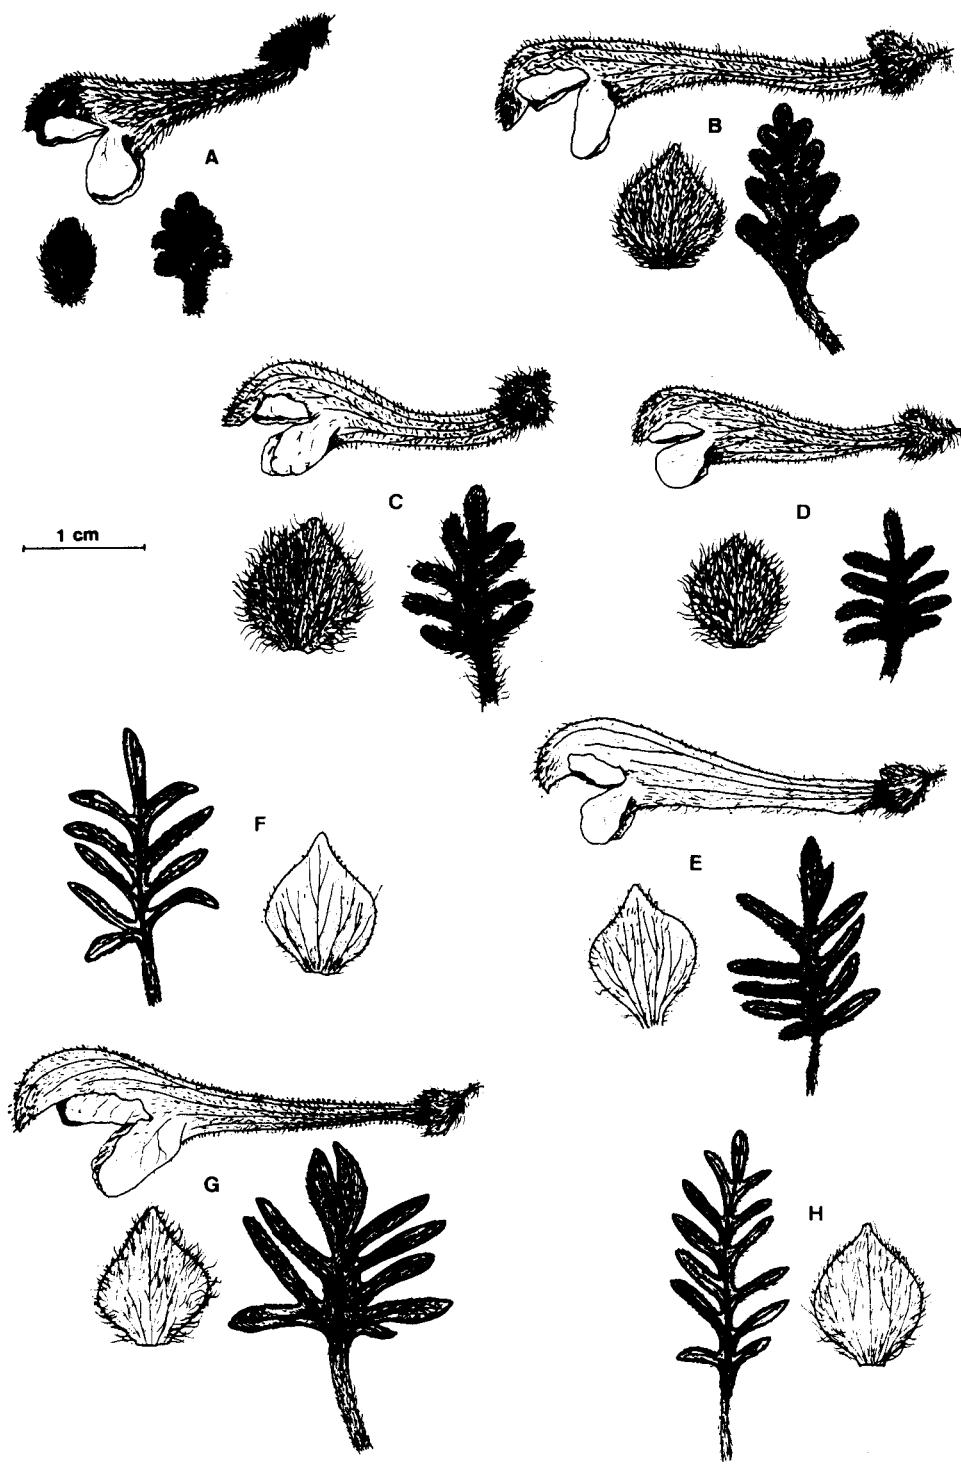

In my opinion, the presence of *S. orientalis* in the Iberian Peninsula and N Morocco could be related to the spread of the steppic oriental flora towards the western Mediterranean, its furthermost spreading point during the glacial age and in the boreal interglacial period. Certain species of, for instance, *Adonis* sect. *Consilago*, *Paeonia*, *Astragalus*, etc., most directly indicated the existence of a "steppic oriental" pathway. *S. orientalis* habitats in Yugoslavia could in a broader sense be described as steppic submediterranean, and they differ in many a respect from the habitats in Spain, which are mostly oromediterranean; this could be explained by postglacial adaptation of *S. orientalis* to habitat conditions in the Iberian Peninsula.

Almería: Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 150b.

Silene mellifera Boiss. & Reuter, Biblioth. Univ. Genève ser. 2, 38: 200 (1842)

Albacete, gorge of river Zumeta, calcareous soils, WH4926, 1000-1100 m, 25.06.1988, 2226; Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 656; idem, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 716; Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 331; Sierra de Baza, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1269; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1661; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1735; Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2319; Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2692; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 54.

Silene muscipula L., Sp. Pl. 420 (1753)

Granada: Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1087; Huelgo, Cerros de Monca, gypsum soils, 20.06.1988, 1155; Jaén: Santiago de la Espada, Sierra de la Grana, calcareous soils, WH3819, 1480 m, 25.06.1988, 2316.

Silene nocturna L., Sp. Pl. 416 (1753)

Albacete: Sierra de Taibilla, near Nerpio, calcareous soils, WH6122, c. 1000 m, 28.06.1988, 2615; Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m,

25.06.1988, 2128; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 5.

Silene nocturna subsp. *nocturna*

Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1233; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1761.

Silene portensis L., Sp. Pl. 420 (1753)

Almería: between Abrucena and Las Rozas, on shales, WG1708, 1100-1350 m, 17.06.1988, 510; Jaén: Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2824.

Silene psammis Link ex Sprengel, Novi Provent. 39 (1819)

Granada: Sierra de la Sagra, calcareous screes, WG3699, 1700-1850 m, 24.06.1988, 2010.

Silene psammis subsp. *lasiostyla* (Boiss.) Rivas Goday, Anales Real Acad. Farm. 38: 461 (1972)

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1748; idem, Cuerda de los Mirabete, calcareous soils, WH3707, c. 1800 m, 23.06.1988, 1883; Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2092; Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2252; Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2379; Sierra de Segura, Altos del Infierno, calcareous soils, WH2100, 1600 m, 30.06.1988, 2976.

Silene rubella L., Sp. Pl. 419 (1753)

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1518.

Silene rupestris L., Sp. Pl. 421 (1753)

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils,

WG1006, 1900-1980 m, 17.06.1988, 627; Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 948.

Silene saxifraga L., Sp. Pl. 421 (1753)

Albacete, gorge of river Zumeta, calcareous soils, WH4926, 1000-1100 m, 25.06.1988, 2227; Sierra de las Huebras, around El Pozo, rocks and stony areas, calcareous soils, WH4618, c. 1400 m, 28.06.1988, 2568; Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1640; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1758; Sierra de la Sagra, amongst rocks and stones, calcareous soil and screes, WG3699, 1850-2300 m, 24.06.1988, 1948; idem, calcareous screes, WG3699, 1700-1850 m, 24.06.1988, 2014; Jaén: Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2211; Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2660.

Silene secundiflora Otth in DC., Prodr. 1: 375 (1824)

Almería: Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 152b.

Silene stricta L., Cent. Pl. 2: 17 (1756)

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 40.

Silene tridentata Desf., Fl. Atl. 1: 349 (1798)

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 264; Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1235; Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2475; Murcia: between Almaciles and Casablanca, basic soil, WH7405, c. 100 m, 27.06.1988, 2501.

Silene vulgaris (Moench) Garcke, Fl. Nord. Mittel-Deutschl. ed. 9: 64 (1869) subsp. *vulgaris*. [= *S. inflata* Sm., Fl. Br.: 467, 1800]

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 731; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 42.

Silene vulgaris subsp. *commutata* (Guss.) Heyek, Repert. Spec. Nov. Regni Veg. (Beih.) 30(1): 258 (1924)

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 341; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1736; Jaén: Santiago de la Espada, Sierra de la Grana, calcareous soils, WH3819, 1480 m, 25.06.1988, 2313.

Silene vulgaris subsp. *glareosa* (Jordan) Marsden-Jones & Turrill, Bladder Champions 20: 135 (1957)

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1454; Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1938.

Silybum marianum (L.) Gaertner, Fruct. Sem. Pl. 2: 378 (1791)

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 57.

Sisymbrella aspera (L.) Spach, Hist. Nat. Vég. (Phan.) 6: 426 (1838) subsp. *aspera*

Jaén: Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2925.

Sisymbrella aspera subsp. *boissieri* (Cosson) Heywood, Bull. Br. Mus. (Bot.) 1: 107 (1954)

Jaén: Sierra del Pozo, damp areas in basic soils, WG1498, 1580 m, 30.06.1988, 2960.

Sisymbrium austriacum Jacq., Fl. Austr. 3: 35 (1775)

Albacete: Sierra de las Huebras, around El Pozo, rocks and stony areas, calcareous soils, WH4618, c. 1400 m, 28.06.1988, 2578b.

Sisymbrium crassifolium Cav., Descr. Pl. 437 (1802)

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1728; Sierra de la Sagra, calcareous scree, WG3699, 1700-1850 m, 24.06.1988, 2025.

Sisymbrium irio L., Sp. Pl. 659 (1753)

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1510.

Sisymbrium laxiflorum Boiss., Elenchus 9 (1838)

Granada: Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1937.

Sisymbrium orientale L., Cent. Pl. 2: 24 (1756)

Almería: Fifiña, Cerro de la Cruz, on shale, WG0810, 1500-1600 m, 17.06.1988, 632; Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 719; Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 310; Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocks and steep scree, calcareous soils, WH3222, 1250 m, 26.06.1988, 2396.

Sisymbrium runcinatum Lag. ex DC., Reg. Veg. Syst. Nat. 2: 478 (1821)

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 767; Granada: between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1123.

Sixalis atropurpurea (L.) Greuter & Burdet, Willdenowia 15: 76 (1985) subsp. *marima* (L.) Greuter & Burdet, l. c. 76 (1985). [= *Scabiosa marima* L., Cent. Pl. 2: 8, 1756]

Granada: Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2466.

Smyrnium perfoliatum L., Sp. Pl. 262 (1753)

Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocks and steep scree, calcareous soils, WH3222, 1250 m, 26.06.1988, 2388.

Sonchus marimus L., Syst. Nat. ed. 10, 2: 1192 (1759) subsp. *aquatilis* (Pourret) Nyman, Consp. 434 (1879)

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2087;

Sierra de Cazorla, crossroads towards Nacimiento, damp area, basic soils, WH0497, 1100 m, 30.06.1988, 2852.

***Sonchus tenerimus* L., Sp. Pl. 794 (1753)**

Almería: between Benahadux and Rioja, roadsides, marls, WF8847, 15.06.1988, 183; Murcia: between Caravaca and Lorca, Cerros de Lorca, gypsum soils, 550 m, 27.06.1988, 2534.

***Sonchus x novocastellanus* Cirujano, Anales Jardín Bot. Madrid 40: 279 (1983)**

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1509.

***Sorbus aria* (L.) Crantz, Stirp. Austr. 2: 45 (1763)**

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1488; Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2348.

***Sorghum halepense* (L.) Pers., Syn. Pl. 1: 101 (1805)**

Jaén: Bailén, in roadside ditches, basic soils, 01.07.1988, 2994.

***Spergula murisonii* Boreau in Duchartre, Rev. Bot. 2: 424 (1847)**

Almería: Sierra Nevada, El Chullo, damp area in shale soils, VG9905, 2150 m, 19.06.1988, 898.

***Spergularia diandra* (Guss.) Boiss., Fl. Or. 1: 733 (1867)**

Granada: between Benalúa de Guadix and Fonellar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1126b.

***Spergularia media* (L.) C. Presl., Fl. Sic. 161 (1826)**

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1541.

Spergularia nicaeensis Sarato ex Burnat, Fl. Alp. Mar. 1: 269 (1892)

Granada: Puerto de la Ragua, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1020; Cullar Baza, salt marsh, WG3865, 22.06.1988, 1517.

Spergularia rubra (L.) J. & C. Presl, Fl. Cechica 94 (1819) subsp. *longipes* (Lange) Briq., Prodr. Fl. Corse 1: 490 (1910). [= *S. purpurea* (Pers.) G. Don fil., Gen. Syst. 1: 425, 1831]

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 367.

Sphenopus divaricatus (Gouan) Reichenb., Fl. Germ. Excurs. 45 (1830)

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1538.

Stachys circinata L'Hér., Stirp. Nov. 51 (1786)

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 99.

Staelhelina dubia L., Sp. Pl. 840 (1753)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 707; Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1665; Jaén: river Segura valley, near Parolis, calcareous and dolomitic soils, WH4935, c. 700 m, 28.06.1988, 2645.

Stellaria alsine Grimm., Nova Acta Acad. Leop.-Carol. 3, app.: 313 (1767)

Granada: Puerto de la Ragua, near the crossroads to Canjayar, VG9803, 19.06.1988, 956c; Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 297; idem, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 418.

Stipa bromoides (L.) Dörfler, Herb. Norm. 34: 129 (1897)

Jaén: between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2112; Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2802.

Stipa celakovskyi Martinovsky, Preslia 48: 187 (1976)

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 271b.

Stipa gigantea Link, Journ. Bot. (Schrader) 1799(2): 313 (1800)

Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 75.

Stipa iberica Martinovsky, Feddes Report. 73: 150 (1966) subsp. *austro-iberica* H. Scholz, Willdenowia 19: 129 (1989)

Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1644; Jaén: Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2657.

Stipa iberica subsp. *pauneroana* Martinovsky, Anales Inst. Bot. Cavanilles 27: 74 (1970)

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 816.

Stipa lagascae Roemer & Schultes, Syst. Veg. 2: 333 (1817)

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 292; between Benalúa de Guadix and Fonollar, c. river Fardas, tributary river bed, sandy soils, VG8938, 20.06.1988, 1137; Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1161; Galera, above the village, on hillside of gypsum soil, WG3976, 1100 m, 22.06.1988, 1580; Sierra de Guillimona, Cuerda de los Mirabete, calcareous soils, WH3707, c. 1800 m, 23.06.1988, 1864; Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2484.

Stipa parviflora Desf., Fl. Atl. 1: 98 (1798)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 675; between Gergal and Venta de Cañicas, roadside escarpment of shale, WG4102, 420 m, 15.06.1988, 203; Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 16.06.1988, 262b; idem, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 271; La Calahorra, Cerro Juan Canal,

calcareous and schist soils, VG9515, 1250-1350 m, 20.06.1988, 1056; Almaciles, Campos de Bugejar, gypsophilous soils, WH6104, 1100 m, 27.06.1988, 2471.

Stipa tenacissima L., Cent. Pl. 1: 6 (1755). [= *Macrochloa tenacissima* (L.) Kunth, Revis. Gram. 1: 59, 1829]

Almería: between Gergal and Venta de Cañicas, roadside escarpment of shale, WG4102, 420 m, 15.06.1988, 208; Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1163; Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1645b; Málaga: Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 101.

Suaeda maritima (L.) Dumort., Fl. Belg. 22 (1827) subsp. *maritima*

Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1543.

Suaeda vera J. F. Gmelin in L., Syst. Nat. ed. 13, 2(1): 503 (1791)

Almería: between Gergal and Venta de Cañicas, roadside escarpment of shale, WG4102, 420 m, 15.06.1988, 198; Granada: Cullar Baza, salt marsh, WG3865, 22.06.1988, 1551; idem, salt marsh, WG3865, 22.06.1988, 1553; idem, salt marsh, WG3865, 22.06.1988, 1555.

Taeniatherum caput-medusae (L.) Nevski, Acta Univ. As. Méd., ser. 8b (Bot.) 17: 38 (1934)

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 272.

Taeniatherum caput-medusae subsp. *asper* (Simonkai) Melderis, Notes Royal Bot. Garden Edinb. 42: 81 (1984)

Almería: Sierra de Gador, Fondón, Llanos de Boliches, calcareous soils, WF1786, 1650 m, 18.06.1988, 841.

Tamarix gallica L., Sp. Pl. 270 (1753)

Granada: Gor, Venta de Castín, Arroyo de Gor, hillsides and schist soils, WG0034, 1160 m, 20.06.1988, 1086.

***Taraxacum* sp.**

Almería: Sierra Nevada, El Chullo, damp area in shale soils, VG9905, 2150 m, 19.06.1988, 886.

***Trifolium angustifolium* L., Sp. Pl. 769 (1753)**

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 741; Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 281; Jaén: Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2254.

***Trifolium arvense* L., Sp. Pl. 769 (1753)**

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 283.

***Trifolium campestre* Schreber in Sturm, Deutschl. Fl. 1(4): 16 (1804)**

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 16.06.1988, 285; idem, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 416; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1714.

***Trifolium cherleri* L., Demonstr. Pl. 21 (1753)**

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 282b.

***Trifolium fragiferum* L., Sp. Pl. 772 (1753) subsp. *bonanii* (C. Presl) Soják, Nov. Bot. Horti Bot. Univ. Carol. Prag. 1963: 50 (1963)**

Jaén: Villanueva del Arzobispo, in roadside ditches, WH0026, 01.07.1988, 2986.

***Trifolium glomeratum* L., Sp. Pl. 770 (1753)**

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 409; Puerto de la Ragua, near the crossroads to Canjayar, VG9803, m, 19.06.1988, 965.

***Trifolium hirtum* All., Auct. Fl. Pedem. 20 (1789)**

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 282c.

Trifolium ochroleucum Hudson, Fl. Angl. 283 (1762)

Granada: Sierra de Segura, between Pontones and El Campillo, pinewoods and fields, calcareous soils, WH2826, c. 1500 m, 26.06.1988, 2449.

Trifolium phleoides Pourret ex Willd., Sp. Pl. 3: 1377 (1802) fo. *pedunculatum* C. Vicioso, Anales Inst. Bot. Cavanilles 11(2): 304 (1953)

Almería: Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 946; **Granada:** Puerto de la Ragua, near the crossroads to Canjayar, VG9803, m, 19.06.1988, 986; idem, crossroad with the road to Alpujarra, schist soils, VG9998, 1400 m, 19.06.1988, 1028b.

Trifolium pratense L., Sp. Pl. 768 (1753)

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 542; Sierra Nevada, El Chullo, damp area in shale soils, VG9905, 2150 m, 19.06.1988, 907; **Granada:** Sierra de Guillimona, on the ascent of Cuerda de Miravetes, north-facing slopes, calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1836; **Jaén:** Sierra de Segura, descending to Hornos, pine woodland, basic soils, WH2629, 1000 m, 30.06.1988, 2805.

Trifolium repens L., Sp. Pl. 767 (1753) subsp. *repens*

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 406.

Trifolium repens subsp. *nevadense* (Boiss.) D. E. Coombe, Feddes Report. 79: 54 (1968)

Almería: Sierra Nevada, El Chullo, damp area in shale soils, VG9905, 2150 m, 19.06.1988, 905; **Granada:** Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1480.

Trifolium resupinatum L., Sp. Pl. 771 (1753)

Jaén: Sierra del Pozo, damp areas in basic soils, WG1498, 1580 m, 30.06.1988, 2961.

Trifolium scabrum L., Sp. Pl. 770 (1753)

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 16.06.1988, 285b; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1711; **Málaga:** Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 100.

Trifolium stellatum L., Sp. Pl. 769 (1753)

Jaén: Sierra del Pozo, Loma de La Sagra, calcareous soils, WG0795, 1100 m, 30.06.1988, 2886.

Trifolium striatum L., Sp. Pl. 770 (1753)

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 401; idem, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 405; **Jaén:** Sierra del Pozo, Nava de San Pablo, calcareous soils, WG0997, c. 1450 m, 30.06.1988, 2937.

Trifolium suffocatum L., Mantissa Alt. 276 (1771)

Granada: Granada, gardens of the Alhambra, on walls of calcareous stone, 14.06.1988, 122.

Trifolium sylvaticum Gerard ex Lois., Journ. Bot. (Desvaux) 2: 367 (1809). [= *T. smyrnaeum* Boiss., Diagn. Pl. Or. Nov., ser. 1, 2: 25, 1843]

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 282d.

Trifolium tomentosum L., Sp. Pl. 771 (1753)

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1717; **Jaén:** Sierra del Pozo, Loma de La Sagra, calcareous soils, WG0795, 1100 m, 30.06.1988, 2887.

Trigonella polyceratia L., Sp. Pl. 777 (1753)

Almería: Abrucena, Las Rozas, on shales, WG1607, 1400 m, 17.06.1988, 525; Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 751;

Granada: Sierra de Baza, near Cortijo del Bardín, calcareous soils, WG1044, 1120 m, 21.06.1988, 1258.

***Trisetaria cavanillesii* (Trin.) Maire,** Bull. Soc. Hist. Nat. Afr. Nord 33: 92 (1942)

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1759.

***Trisetaria scabriuscula* (Lag.) Paunero,** Anales Jardin Bot. Madrid 9: 519 (1950). [= *Trisetum scabriusculum* (Lag.) Cosson ex Willk. in Willk. & Lange, Prodr. Fl. Hisp. 1: 73 (1861)]

Granada: Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 258; **Jaén:** Santiago de la Espada, above the river Zumeta, plateau with calcareous soil, WH3815, 23.06.1988, 1903; between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2103.

***Tulipa sylvestris* L.,** Sp. Pl. 305 (1753) subsp. *australis* (Link) Pamp. Bul. Soc. al. 1914: 114 (1914)

Granada: Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1402.

***Turgenia latifolia* (L.) Hoffm.,** Gen. Umb. 59 (1814)

Granada: Huéscar, Sierra de Moncayo, calcareous soils, WG3395, 22.06.1988, 1651; **Jaén:** Sierra de Segura, Altos del Infierno, calcareous soils, WH2100, 1600 m, 30.06.1988, 2978.

***Ulex canescens* Lange,** Pugillus 4: 159 (1861)

Almería: Cabo de Gata, volcanic soils, WF7265, 50 m, 15.06.1988, 158.

***Ulex parviflorus* Pourret,** Mém. Acad. Sci. Toulouse 3: 334 (1788)

Almería: Sierra de Gador, Fuente Victoria, Cerro Alto, calcareous soil, WF0990, 900-1100 m, 18.06.1988, 679.

Ulex parviflorus subsp. *parviflorus*. [= *U. willkommii* Webb, Anal. Sci. Nat., ser. 3, 17: 280, 1852]

Granada: Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 465.

Vicia monantha Retz, Obs. Bot. 3: 39 (1783). [= *V. calcarata* Desf., Fl. Atl. 2: 166, 1799]

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 544; Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m, 17.06.1988, 549.

Vicia onobrychoides L., Sp. Pl. 735 (1753)

Almería: Sierra de Gador, Fondón, Cortijo de Chapina, on shale, WF1089, 1250-1350 m, 18.06.1988, 724; idem, Llanos de Boliches, calcareous soils, WF1786, 1650 m, 18.06.1988, 832; **Granada:** Aldeira, gorge of Gallego, banks and sides of gorge, VG9009, 1650-1700 m, 16.06.1988, 469; Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1447; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1713; idem, on the ascent of Cuerda de Miravetes, north-facing slopes, calcareous soils, WH3709, 1000-1700 m, 23.06.1988, 1825; **Jaén:** Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2712.

Vicia peregrina L., Sp. Pl. 737 (1753)

Jaén: Santiago de la Espada, above the river Zumeta, plateau with calcareous soil, WH3815, 23.06.1988, 1904; idem, Sierra de la Grana, calcareous soils, WH3819, 1480 m, 25.06.1988, 2304; Caserío de D. Domingo, above the river bed of Los Cuartos, calcareous soils, WH3107, 1600 m, 29.06.1988, 2791.

Vicia pyrenaica Pourret, Mém. Acad. Sci. Toulouse 3: 333 (1788)

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 576; **Granada:** Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1482.

Vicia sativa L., Sp. Pl. 736 (1753) subsp. *nigra* (L.) Ehrb., Hannover Mag. 1780(15): 229 (1780)

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310,

1600 m, 16.06.1988, 350; idem, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 394; Jaén: Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2241.

***Vicia tenuissima* (Bieb.) Schinz & Thell., Viert. Naturf. Ges. Zürich 58: 70 (1913)**

Granada: Sierra de Segura, between Pontones and El Campillo, pinewoods and fields, calcareous soils, WH2826, c. 1500 m, 26.06.1988, 2454.

***Vicia villosa* Roth, Tent. Fl. Germ. 2(2): 182 (1793) subsp. *varia* (Host) Corb., Nouv. Fl. Normand. 181 (1893)**

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 353; idem, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 395.

***Vincetoxicum nigrum* (L.) Moench, Méth. Suppl. 313 (1802)**

Granada: Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1913; Jaén: Poyotello, Sierra de Segura, gorge of river Segura, rocky and stony ground, calcareous soils, WH3222, 1400-1450 m, 26.06.1988, 2380; Sierra Seca, El Chaparral, calcareous soils, WH2800, 1800 m, 29.06.1988, 2707; Sierra de Cazorla, reservoir of El Tranco, calcareous soils, WH1920, 600-700 m, 30.06.1988, 2833.

***Viola* sp.**

Granada: Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1823; Jaén: Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2223.

***Viola alba* Besser, Prim. Fl. Galic. 1: 171 (1809) subsp. *dehnhardtii* (Ten.) W. Becker, Ber. Bayer. Bot. Ges. 8(2): 257 (1902)**

Almería: Sierra de Gador, Fondón, Cortijo de Boliches, Peña Horadada, calcareous soils, WF1489, 1450-1600 m, 18.06.1988, 798.

***Viola arvensis* Murray, Prodr. Stirp. Götting 73 (1770)**

Granada: Puerto de la Ragua, near the crossroads to Canjayar, VG9803, 19.06.1988, 953.

Viola canina L., Sp. Pl. 935 (1753)

Granada: Sierra de Baza, on the ascent to Santa Bárbara, limestone, WG1340, 1400-1600 m, 21.06.1988, 1367.

Viola cazorlensis Gand., Bull. Assoc. Fr. Bot. 5: 226 (1902)

Albacete: gorge of river Zumeta, calcareous soils, WH4926, 1000-1100 m, 25.06.1988, 2229.

This species was known from several Sierras of Jaén province (Cazorla, Pozo, Castril, Cabrilla and Mágina) and from one locality in Murcia province (Sierra de Mojantes, near Caravanca: Blanca & Valle, 1986, Monogr. Fl. Veg. Bética 1: 21). This is the first record for Albacete province and the northernmost locality of this taxon.

V. STEVANOVIC & B. VALDÉS

Viola crassiuscula Bory, Ann. Gén. Sci. Phys. (Bruxelles) 3: 16 (1820). [= *V. nevadensis* Boiss., Elenchus 26, 1838]

Almería: Sierra Nevada, Cerro del Almirez, shale soils, WG0804, 2240-2280 m, 19.06.1988, 922.

Viola kaibeliana Schultes in Roemer & Schultes, Syst. Veg. 5: 383 (1819)

Granada: Jerez del Marquesado, Arroyo de Alcázar, hillside and banks of stream, VG8310, 1600 m, 16.06.1988, 384; Sierra de Guillimona, gorge of Torilla, calcareous soils, WH3812, 1400-1500 m, 23.06.1988, 1814; Sierra de la Sagra, calcareous scree, WG3699, 1700-1850 m, 24.06.1988, 2012.

Viola parvula Tineo, Pl. Rar. Sic. Pug. 5 (1817)

Almería: Abrucena, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 626; Sierra Nevada, El Chullo, damp area in shale soils, VG9905, 2150 m, 19.06.1988, 904; **Granada:** Sierra de Baza, Santa Bárbara, dolomitic and calcareous soils, WG1437, 2000-2200 m, 21.06.1988, 1416; Sierra de la Sagra, amongst rocks and stones, calcareous soil and scree, WG3699, 1850-2300 m, 24.06.1988, 1973b.

Viola reichenbachiana Jordan ex Boreau, Fl. Centre Fr. ed. 3, 2: 78 (1857)

Almería: Abrucena, gorge of the Mina, damp area, on shale, WG1506, 1540-1560 m,

17.06.1988, 531; idem, gorge of La Campana, to the N of Cerro del Almirez, shale soils, WG1006, 1900-1980 m, 17.06.1988, 578.

***Viola riviniana* Reichenb., Pl. Cr. 1: 81 (1823)**

Almería: Sierra Nevada, El Chullo, north slopes, dry areas in shale soils, WG0005, c. 2000 m, 19.06.1988, 910; **Granada:** Puerto de la Ragua, near the crossroads to Canjayar, VG9803, 19.06.1988, 975.

Viola tricolor* L., Sp. Pl. 935 (1753) subsp. *tricolor

Granada: Puerto de la Ragua, near the crossroads to Canjayar, VG9803, 19.06.1988, 980.

***Viola cf. viviniana* Reichenb., Pl. Cr. 1: 81 (1823)**

Jaén: Ves, gorge of the river Zumeta, WH4827, 950 m, 25.06.1988, 2225.

***Viscum album* L., Sp. Pl. 1023 (1753) subsp. *austriacum* (Wiesb.) Vollman, Fl. Bayern 212 (1914)**

Granada: Sierra de la Sagra, calcareous soils, WG3597, 1400-1700 m, 24.06.1988, 2039.

***Volutaria lippii* (L.) Maire in Jahandiez & Maire, Cat. Pl. Maroc 3: 817 (1934)**

Almería: between Tabernas and Venta de los Yesos, hillside, gypsum soil, WG6104, 500 m, 15.06.1988, 133.

***Vulpia ciliata* Dumort., Obs. Gram. Belg. 100 (1824)**

Almería: Abrucena, Las Rozas, on shales, WG1607, 1400 m, 17.06.1988, 515c; between Gergal and Venta de Cañicas, roadside escarpment of shale, WG4102, 420 m, 15.06.1988, 205b; **Granada:** Jerez del Marquesado, La Dehesa, under *Pinus pinaster*, on shales, VG8415, 1300 m, 15.06.1988, 265; Sierra de Baza, on the ascent to Santa Bárbara, dolomitic soils, WG1143, 1330-1350 m, 21.06.1988, 1264; **Jaén:** between Tobos and Ves, bed of river Zumeta, WH4523, 950 m, 25.06.1988, 2131; Marchena, Sierra de la Grana, calcareous soils, WH4327, c. 1350 m, 25.06.1988, 2247; **Málaga:** Antequera, Torcal, amongst calcareous rocks and stones, 1150-1300 m, 14.06.1988, 108.
