

## Catalogue of the benthic marine macroalgae of the Italian coast of the Adriatic Sea

Giovanni Furnari, Mario Cormaci & Donatella Serio

### Abstract

Furnari, G., Cormaci, M. & Serio, D.: Catalogue of the benthic marine macroalgae of the Italian coast of the Adriatic Sea. — Bocconeia 12: 5-214. 1999. — ISSN 1120-4060.

A catalogue of the macroalgae from the Italian coast of the Adriatic Sea is presented. It is based on a critical nomenclatural and taxonomic revision of previous records from that region. The list contains 642 taxa belonging to the Rhodophyta (381), the Phaeophyta (140) and the Chlorophyta (121) of which 556 are at specific level and 86 are infraspecific (9 subspecies, 65 varieties, 12 forms). Moreover 6 *incertae sedis*, 115 taxa *inquirenda* (38 Rhodophyta, 23 Phaeophyta, 54 Chlorophyta), 16 taxa *excludenda* (12 Rhodophyta, 2 Phaeophyta, 2 Chlorophyta) and 75 *nomina nuda* (33 Rhodophyta, 13 Phaeophyta, 29 Chlorophyta) are listed separately. The catalogue is completed by 8 floristic lists, one per each of geographic regions into which the studied area was subdivided.

### Introduction

The Adriatic Sea (Fig. 1) is an elongated landlocked basin bounded on both west and north by the Italian peninsula and on east by the Istrian peninsula, Dalmatia and Albania. A sill, located in the Strait of Otranto at a depth of 740 m, divides the Adriatic Sea from the Ionian Sea. The East coast is mainly composed of rocky shores and characterised by the presence of numerous islands and islets. The West coast, on the contrary, is mainly sandy with only short rocky stretches localised in the Gulf of Trieste, in the Lagoon of Venice (artificial substrata), along Mount Conero (near Ancona), along promontory of Gargano and along the South coast of Apulia.

The project PRISMA 2, sub-project 3 of the Italian C.N.R., aims, among other things, to improve the knowledge of the benthic communities occurring along the Italian coast of the Adriatic Sea. In this framework, this catalogue reporting all published records of species and infraspecific taxa of benthic marine macroalgae from Trieste to Cape Otranto (the Tremiti Islands and Pianosa included) (Fig. 1), was compiled. On the basis of a critical nomenclatural and taxonomic revision, 556 species, 9 subspecies, 65 varieties, 12 forms, for a total of 642 taxa are recognised. Of these, 381 are Rhodophyta, 140 Phaeophyta and 121 Chlorophyta. Moreover, 6 taxa *incertae sedis*, 115 species *inquirenda* (38 Rhodophyta, 23 Phaeophyta, 54 Chlorophyta), 16 species *excludenda* (12 Rhodophyta, 2 Phaeophyta, 2 Chlorophyta) and 75 *nomina nuda* (33 Rhodophyta, 13 Phaeophyta, 29 Chlorophyta), are listed too.

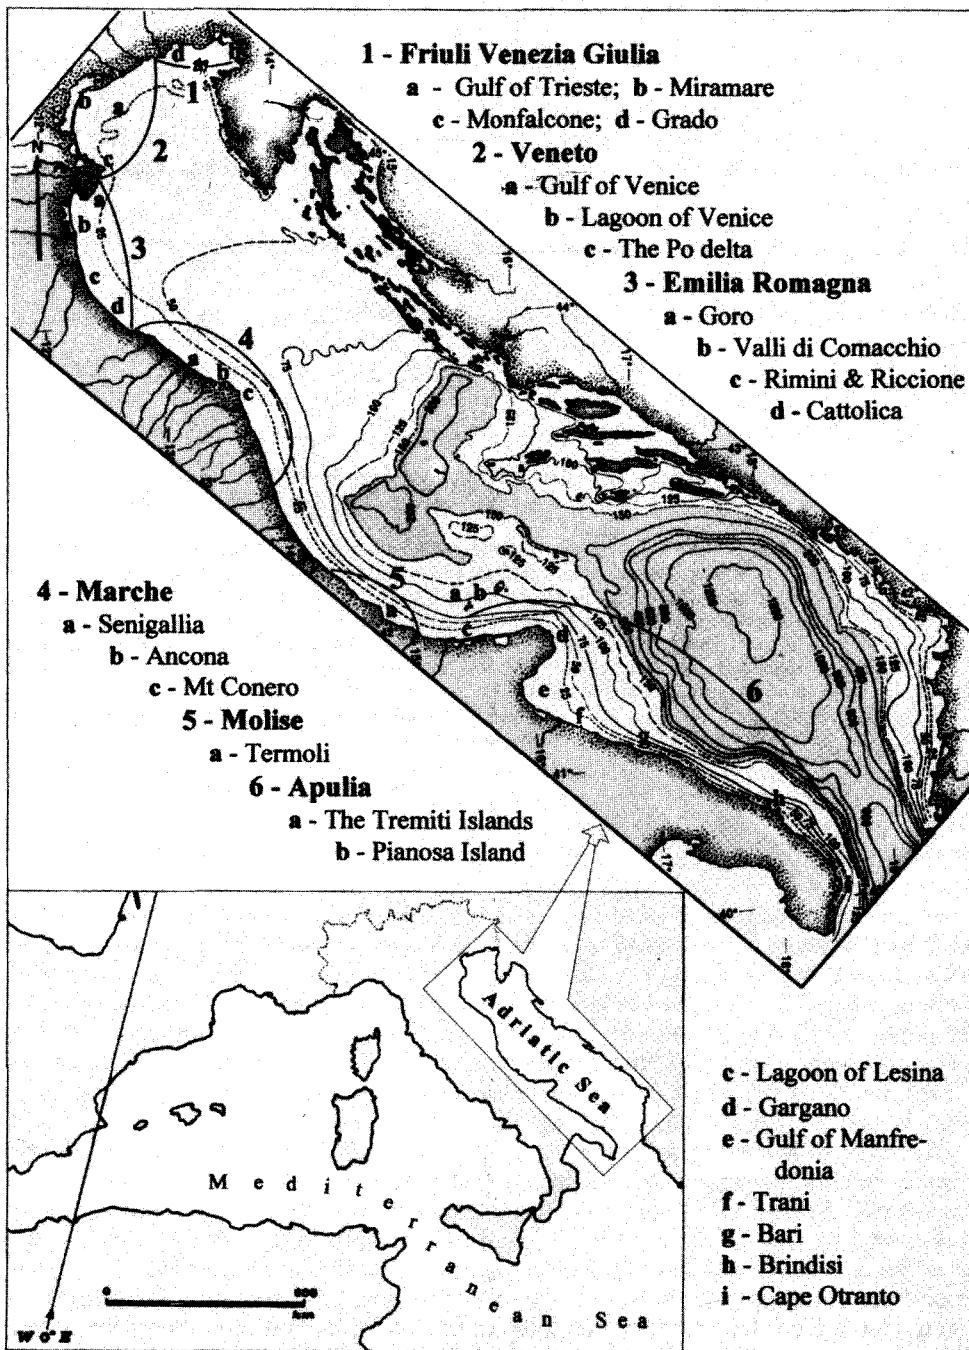

Fig. 1. Map of the Adriatic Sea showing the localities quoted in the catalogue.

Taxa are listed alphabetically within the three divisions Rhodophyta, Phaeophyta and Chlorophyta, in order to make searches in the catalogue easier.

For each taxon the accepted name is listed first followed by synonyms and/or misapplied names with which it was quoted in literature. For each synonym and/or misapplied name the authors are reported as quoted in the original papers. Each name (accepted, synonym, misapplied, etc.) is followed by the localities from which it was recorded. Numbers in square brackets refer to papers where the records were published. Such papers are numbered in References. All other papers quoted in this catalogue are also listed in the references but without a corresponding number.

For each taxon the phytogeographic element is also given. According to Cormaci & al. (1982), the following abbreviations are used: **A** = Atlantic; **Ab** = boreo-Atlantic; **Abt** = boreo-tropical Atlantic; **AP** = Atlanto-Pacific; **APet** = Atlanto-Pacific cold temperate; **At** = Atlantic tropical; **C** = Cosmopolite; **CB** = Circumboreal; **CBA** = Circumboreo-austral; **IA** = Indo-Atlantic; **IAt** = Indo-Atlantic tropical; **IAct** = Indo-Atlantic cold temperate; **IP** = Indo-Pacific; **M** = Mediterranean; **P** = Pantropical; **SC** = Subcosmopolitan.

If a name was not formed according to the rules of the I. C. B. N. (Greuter & al. 1994) when it was published, we have made the appropriate corrections and appended the original spelling in quotation marks within round brackets. A note has been appended to some taxa. Such notes provide reasons for treating a name as invalidly published, illegitimate or misapplied; explanations of unusual complicated or controversial taxonomic and nomenclatural situations and/or reasons for proposals of both new combinations and new names.

The following lists complete the catalogue: taxa *incertae sedis*, taxa *inquirenda*, taxa *excludenda*, *nomina nuda* and 8 floristic lists, one per each of geographic regions into which the studied area was subdivided (see Fig. 1).

## Floristic List

### RHODOPHYTA

- IP** *Acanthophora nayadiformis* (Delile) Papenfuss

Gargano: [79, 89 as *Acanthophora delilei* J. V. Lamouroux]

NOTE: We follow Silva & al. (1996: 469) in retaining Delile's original spelling "nayadiformis" that by some subsequent authors was changed to "najadiformis" or "naiadiformis".

- M** *Acrodiscus vidovichii* (Meneghini) Zanardini

Gulf of Trieste: [79] - The Tremiti Islands: [29, 79, 121] - Brindisi: [28] - Cape Otranto: [77]

- IA** *Acrosorium venulosum* (Zanardini) Kylin

Gulf of Trieste: [77, 79, 112; 52 as *Nitophyllum venulosum* Zanardini]

Gulf of Venice: [56 as *Nitophyllum venulosum* Zanardini; 166 as *N. laceratum* (C. Agardh) Greville]

Lagoon of Venice: [46, 158; 159 as *Nitophyllum venulosum* Zanardini]

Ancona: [107 as *Nitophyllum punctatum* Greville var. *uncinatum* De Toni (misapplied name); 108 as *N. uncinatum* C. Agardh (misapplied name)]

The Tremiti Islands: [29, 79; 161 as *Nitophyllum uncinatum* (Turner) J. Agardh (misapplied name)]

Brindisi: [28]

Cape Otranto: [77; 122 as *Acrosorium uncinatum* (J. Agardh) Kylin (misapplied name)]

NOTE: *Acrosorium uncinatum* (Turner) Kylin, erroneously accredited to (J. Agardh) Kylin by Rizzi Longo & Giaccone (1974), is a synonym of *Cryptopleura ramosa* (Hudson) Kylin ex L. Newton, a species not present in the Adriatic Sea. However, Mediterranean records of taxa with the epithet "uncinatum" are here referred to *A. venulosum* as made by Wynne (1989) for records of "A. uncinatum" from the British Isles.

**M** *Acrosymphyton purpuriferum* (J. Agardh) G. Sjöstedt

Gulf of Trieste: [77, 79, 112] - The Tremiti Islands: [121, 111]

**M** *Aglaothamnion caudatum* (J. Agardh) Feldmann-Mazoyer

Gulf of Trieste: [79, 84; 77, 112 as *Aglaothamnion caudatum* J. Agardh]

Gulf of Venice: [56 as *Callithamnion caudatum* J. Agardh]

**IAt** *Aglaothamnion cordatum* (Børgesen) Feldmann-Mazoyer

Gulf of Trieste: [77, 79, 84, 112, 151 as *Aglaothamnion neglectum* Feldmann-Mazoyer]

**Ab** *Aglaothamnion gallicum* (Nägeli) Halos ex Ardré

Gulf of Trieste: [79 as *Aglaothamnion brodiei* ("*brodiaeum*") (Harvey) Feldmann-Mazoyer; 77, 112 as *A. brodiei* ("*brodiaeum*") Harvey; 84 as *A. brodiei* ("*brodiaeum*")]

The Tremiti Islands: [29]

NOTE: We follow Maggs & Hommersand (1993: 99) in referring to *A. gallicum* all records of *A. brodiei* from the Mediterranean Sea that are based on Feldmann-Mazoyer's concept of this taxon.

**Ab** *Aglaothamnion scopulorum* (C. Agardh) Feldmann-Mazoyer

Gulf of Trieste: [79, 84 as *Aglaothamnion scopulorum* (J. Agardh) Feldmann-Mazoyer; 77, 84, 112 as *Callithamnion hirtellum* Zanardini; 88 as *C. scopulorum* J. Agardh]

Miramare (Trieste): [59 as *Callithamnion scopulorum* C. Agardh]

Gulf of Venice: [79 as *Aglaothamnion scopulorum* (J. Agardh) Feldmann-Mazoyer]

Lagoon of Venice: [110 as *Callithamnion hirtellum* Zanardini]

**IA** *Aglaothamnion tenuissimum* (Bonnemaison) Feldmann-Mazoyer var. *tenuissimum*

Lagoon of Venice: [110 as *Seirospora lanceolata* Kützing; 131, 163 as *S. lanceolata* (Kützing) Schiffner]

The Tremiti Islands: [29; 79, 121 as *Aglaothamnion furcellariae* (J. Agardh) Feldmann-Mazoyer]

Termoli: [114 as *Aglaothamnion furcellariae* (J. Agardh) Feldmann-Mazoyer]

Gargano: [79 as *Aglaothamnion furcellariae* (J. Agardh) Feldmann-Mazoyer]

Brindisi: [28 as *Callithamnion byssoides* Arnott ex Harvey]

**M** *Aglaothamnion tenuissimum* (Bonnemaison) Feldmann-Mazoyer var. *mazoyerae* G. Furnari, L'Hardy-Halos, Rueness & Serio

Gulf of Trieste: [14 as *Aglaothamnion tenuissimum*; 79, 112 as *A. tenuissimum*

- (Bonnemaison) Feldmann-Mazoyer; 77 as *A. tenuissimum* (Bonnemaison) Kützing]  
 Miramare (Trieste): [59 as *Callithamnion tenuissimum* (Bonnemaison) Zanardini]  
 Gulf of Venice: [79 as *Aglaothamnion tenuissimum* (Bonnemaison) Feldmann-Mazoyer; 56 as *Callithamnion tenuissimum* (Bonnemaison) Kützing]  
 Lagoon of Venice: [148 as *Callithamnion tenuissimum* (Bonnemaison) Kützing; 166 as *C. tenuissimum* (Bonnemaison) Zanardini]  
 Mt Conero: [77 as *Aglaothamnion tenuissimum* (Bonnemaison) Kützing; 79 as *A. tenuissimum* (Bonnemaison) Feldmann-Mazoyer]  
 The Tremiti Islands: [29]  
 Brindisi: [28 as *Callithamnion tenuissimum* (Bonnemaison) Kützing]

NOTE: We follow Furnari & al. (1998) in referring records of species showing the features of *A. tenuissimum sensu* Feldmann-Mazoyer (1941: 469-471), to this taxon.

- IA** *Aglaothamnion tripinnatum* (C. Agardh) Feldmann-Mazoyer  
 Gulf of Trieste: [14 as *Aglaothamnion tripinnatum*; 77, 79, 112 as *A. tripinnatum* (Grateloup) Feldmann-Mazoyer]  
 The Tremiti Islands: [29; 79, 121 as *Aglaothamnion tripinnatum* (Grateloup, ?) Feldmann-Mazoyer]  
 Gulf of Manfredonia: [79 as *Aglaothamnion tripinnatum* (Grateloup, ?) Feldmann-Mazoyer]
- At** *Alsidium corallinum* C. Agardh  
 Gulf of Trieste: [1, 77, 79, 84, 166; 102a as *Alsidium corallinum*; 112 as *A. corallinum* J. Agardh]  
 Miramare (Trieste): [16]  
 Gulf of Venice: [56; 168 as *Alsidium corallinum*]  
 Lagoon of Venice: [59]  
 Ancona: [107 as *Hypnea musciformis* J. V. Lamouroux (misapplied name)]  
 Trani: [126 as *Alsidium corallinum* C. Agardh f. *lanceiferum* Ardissoni]  
 The Tremiti Islands: [29]
- NOTE: The specimen identified as *H. musciformis* by Pierpaoli [107], is referred to this taxon on the basis of the examination of the herbarium sheet.
- M** *Alsidium helminthochorton* (Schwendemann) Kützing  
 Gulf of Trieste: [79] - The Tremiti Islands: [29]  
 Gargano: [79; 124 as *Alsidium helminthochorton* Kützing] - Cape Otranto: [122]
- IAt** *Amphiroa beauvoisii* J. V. Lamouroux  
 Adriatic: [7, 9] - The Tremiti Islands: [29]
- SC** *Amphiroa rigida* J. V. Lamouroux  
 Adriatic: [7] - Gulf of Trieste: [79] - Gulf of Venice: [56, 160]  
 Ancona: [107 as *Amphiroa rigida*]  
 The Tremiti Islands: [29, 77, 79, 93, 121, 111] - Pianosa Island: [125]  
 Gargano: [124] - Brindisi: [28] - Cape Otranto: [77]
- P** *Amphiroa rubra* (Philippi) Woelkerling  
 Adriatic: [7, 9 as *Amphiroa cryptarthrodia* Zanardini]  
 Gulf of Trieste: [59, 79, 171 as *Amphiroa cryptarthrodia* Zanardini; 79 as

*A. verruculosa* Kützing]

Gulf of Venice: [56, 168 as *Amphiroa cryptarthrodia* Zanardini; 166 as *Corallina verrucosa* Zanardini]

Ancona: [107 as *Amphiroa cryptarthrodia* Zanardini]

The Tremiti Islands: [29; 77, 79, 111, 121, 161 as *Amphiroa cryptarthrodia* Zanardini]

NOTE: *Amphiroa verruculosa* and *A. cryptarthrodia* are closely related to *A. rubra* differing only in ranges of length of both longer and shorter cells in the intergenicular tiers, which, however, are partially overlapping. Cabioch (1969: 2338; 1972: 148), ignoring *A. rubra*, considered (but with some doubts) *A. verruculosa* as distinct from *A. cryptarthrodia* mainly because the former lives as endo-epiphyte on *Lithophyllum frondosum* (as *Pseudolithophyllum expansum*), while the latter grows on other substrata. Conversely, Athanasiadis (1987: 30), ignoring *A. verruculosa*, referred to *A. rubra* specimens living as endo-epiphyte on *Lithophyllum frondosum* (as *Lithophyllum expansum*), saying that *A. rubra*, of which Woelkerling (1983: 173) studied the type, is most similar to *A. cryptarthrodia*.

Until a comparative study among the three species is made, we think, differently from Sartoni & De Biasi (1999: 278), that the above differences are not sufficient to distinguish them at specific rank. Therefore, they are treated here as conspecific, with the name *A. rubra* having priority against the other two.

**Abt**    *Anotrichium barbatum* (C. Agardh) Nägeli

Gulf of Trieste: [77, 79, 112 as *Griffithsia barbata* (J. E. Smith) C. Agardh]

Gulf of Venice: [79 as *Griffithsia barbata* (J. E. Smith) C. Agardh]

The Tremiti Islands: [29; 79, 121 as *Griffithsia barbata* (J. E. Smith) C. Agardh]

Brindisi: [28 as *Griffithsia barbata* (J. E. Smith) C. Agardh]

**APct**    *Anotrichium furcellatum* (J. Agardh) Baldock

Gulf of Trieste: [79, 84, 112 as *Neomonospora furcellata* (J. Agardh) Feldmann & Meslin]

Brindisi: [28 as *Griffithsia furcellata* J. Agardh]

**IP**    *Anotrichium tenue* (C. Agardh) Nägeli

Gulf of Venice: [3b as *Callithamnion tenue* (C. Agardh) Harvey; 1, 30, 56, 166 as *Griffithsia tenuis* C. Agardh; 3a, 102a, 168 as *G. tenuis*]

Lagoon of Venice: [53, 59, 131 as *Griffithsia tenuis* C. Agardh]

Tremiti Islands: [29] - Brindisi: [28 as *Griffithsia tenuis* C. Agardh]

**IA**    *Antithamnion cruciatum* (C. Agardh) Nägeli

Gulf of Trieste: [77, 79, 112; 77, 79, 112 as *Antithamnion cruciatum* (C. Agardh) Nägeli var. *profundum* Feldmann-Mazoyer; 79 as *A. cruciatum* var. *radicans* J. Agardh; 128 as *A. cruciatum* (C. Agardh) Nägeli var. *radicans* J. Agardh; 102a as *Callithamnion cruciatum*; 166 as *C. cruciatum* C. Agardh]

Miramare (Trieste): [16]

Gulf of Venice: [79; 34, 37 as *Antithamnion cruciatum* (C. Agardh) Nägeli var. *radicans* (J. Agardh) Collins & Hervey; 131 as *A. cruciatum* (C. Agardh) Nägeli var. *radicans* J. Agardh; 148 as *A. cruciatum* C. Agardh; 79 as *A. cruciatum* var. *radicans* J. Agardh; 56, 166 as *Callithamnion cruciatum* C. Agardh; 166 as *C. dubium* Zanardini; 102a as *C. naccarianum*; 168 as

- C. cruciatum*, as *C. cruciatum* var. *dubium* (Zanardini) Zanardini;  
 Lagoon of Venice: [34, 37, 38, 79, 113, 131, 133, 138, 141, 158, 159, 163]  
 Ancona: [107; 108 as *Antithamnion cruciatum* C. Agardh]  
 Mt Conero: [77, 79; 77, 79 as *Antithamnion cruciatum* (C. Agardh) Nägeli var.  
*profundum* Feldmann-Mazoyer]  
 The Tremiti Islands: [29; 121; 161; 79, 121 as *Antithamnion cruciatum*  
 (C. Agardh) Nägeli var. *profundum* Feldmann-Mazoyer]  
 Brindisi: [28; 28 as *Antithamnion cruciatum* var. *profundum* Feldmann-Mazoyer]
- A** *Antithamnion decipiens* (J. Agardh) Athanasiadis  
 Gulf of Venice: [79 as *Antithamnion cruciatum* var. *fragilissimum* (Zanardini)  
 Hauck]  
 The Tremiti Islands: [29]
- M** *Antithamnion heterocladium* Funk  
 The Tremiti Islands: [29]
- AP** *Antithamnion pectinatum* (Montagne) Brauner ex Athanasiadis & Tittley  
 Lagoon of Venice: [34, 37, 38, 44, 136 as *Antithamnion pectinatum* (Montagne)  
 Brauner]  
 NOTE: The correct author citation of this species is Brauner ex Athanasiadis &  
 Tittley and not Brauner in Athanasiadis & Tittley as commonly reported in  
 literature. In fact, Athanasiadis & Tittley (1994: 79) stated that they (and not  
 Brauner) were validating in their paper the combination originally proposed by  
 Brauner in his unpublished thesis.
- M** *Antithamnion tenuissimum* (Hauck) Schiffner  
 Gulf of Trieste: [79] - The Tremiti Islands: [121] - Brindisi: [28]
- SC** *Antithamnionella elegans* (Berthold) J. H. Price & D. M. John var. *elegans*  
 Lagoon of Venice: [133 as *Antithamnion elegans* Berthold]
- M** *Antithamnionella elegans* (Berthold) J. H. Price & D. M. John var. *decussata*  
 Cormaci & G. Furnari  
 The Tremiti Islands: [29]  
 NOTE: According to Athanasiadis (1996: 119) this taxon is a synonym of  
*Antithamnionella sublittoralis* (Setchell & N. L. Gardner) Athanasiadis.
- SC** *Antithamnionella spirographidis* (Schiffner) E. M. Wollaston  
 Gulf of Trieste: [55, 130 as *Antithamnion spirographidis* Schiffner; 128 as  
*A. (Haplocladum) spirographidis* Schiffner]  
 Lagoon of Venice: [34, 36, 37, 38, 44] - The Tremiti Islands: [29]

- NOTE: The combination *Ceramium nudiusculum* (bas.: *Echinoceras nudiusculum* Kützing) was proposed in 1847 by both Rabenhorst (1847: 143) and by Zanardini

(1847: 222). But, Rabenhorst's combination, published in January 1847, predates that by Zanardini published in Vol. 6 of "Atti del Reale Istituto Veneto di Scienze, Lettere e Arti". In fact, the last publication probably appeared in late 1847 because of it contains papers read at sessions of that "Istituto" from November 1846 to October 1847. Incidentally, Zanardini read his paper at the session of 29 March 1847.

**M** *Ceramium ciliatum* (J. Ellis) Ducluzeau var. *robustum* (J. Agardh) Feldmann-Mazoyer

The Tremiti Islands: [29; 79, 121 as *Ceramium tenuissimum* (Lyngbye) J. Agardh (*nom. illeg.*)]

Gargano: [79, 124 as *Ceramium tenuissimum* (Lyngbye) J. Agardh (*nom. illeg.*)]

Trani: [126 as *Ceramium tenuissimum* (Lyngbye) J. Agardh (*nom. illeg.*)]

Brindisi: [28 as *Ceramium tenuissimum* (Lyngbye) J. Agardh (*nom. illeg.*)]  
 Cape Otranto: [77 as *Ceramium tenuissimum* (Lyngbye) J. Agardh (*nom. illeg.*)]

NOTE: Following Maggs & Hommersand (1993: 74) records of *C. diaphanum* *sensu* Harvey are listed under *C. siliquosum* (see below).

*Ceramium gracillimum* (Kützing) Zanardini, is a later homonym of *Ceramium gracillimum* C. Agardh (probably = *Compsothamnion thuyoides*, see Silva & al. 1996: 920). Zanardini's record is here listed, since according to Womersley (1978: 236) the basionym *Hormoceras gracillimum* Kützing (1842: 733) should be referred to *Ceramium diaphanum*.

The combination *Ceramium nodosum* (bas.: *Hormoceras nodosum* Kützing) was proposed in 1847 by both Griffiths & Harvey in Harvey (1847 [1846-1851]: pl. XC), and by Zanardini (1847: 227); the same combination was then proposed by Ardissoni [1874c: 71]. But, since the combination by Griffiths & Harvey was published probably in March 1847 (Silva & al. 1996: 394), it predates that by Zanardini (see note to *Ceramium ciliatum* var. *ciliatum*) as well as that by Ardissoni.

*C. tenuissimum* (Roth) Areschoug is a later homonym of *C. tenuissimum* Bonnemaison (1828: 132) [= *Aglaothamnion tenuissimum* (Bonnemaison) Feldmann-Mazoyer]. Both the attributions of this species to (Lyngbye) J. Agardh and to J. Agardh are incorrect.

**Ab**      *Ceramium echionotum* J. Agardh

Gulf of Trieste: [79] - Gulf of Venice: [56]

**C**      *Ceramium flaccidum* (Kützing) Ardissoni

Gulf of Trieste: [77, 79 as *Ceramium gracillimum* (Griffiths) Harvey var. *byssoideum* (Harvey) Feldmann-Mazoyer; 84, 112 as *C. gracillimum* (Griffiths) Harvey var. *byssoideum* Feldmann-Mazoyer]

Gulf of Venice: [56 as *Ceramium gracillimum* Griffiths & Harvey; 168 as *C. hospitans* Zanardini]

Lagoon of Venice: [36; 59 as *Ceramium gracillimum* Harvey]

Ancona: [3a as *Ceramium gracillimum* (Kützing) Griffiths; 108 as *C. gracillimum* Griffiths]

The Tremiti Islands: [29; 79, 121 as *Ceramium gracillimum* (Griffiths) Harvey var. *byssoideum* (Harvey) Feldmann-Mazoyer]

Pianosa Island: [125 as *Ceramium gracillimum* (Griffiths) Harvey; 79 as *C. gracillimum* (Griffiths) Harvey var. *byssoideum* (Harvey) Feldmann-Mazoyer]

Brindisi: [28]

NOTE: *C. gracillimum* (Kützing) Griffiths & Harvey (reported by several authors with incorrect authorities), is a later homonym of *C. gracillimum* C. Agardh (probably = *Compsothamnion thuyoides*, see Silva & al. 1996: 920). While the basionym *Hormoceras gracillimum* Kützing (1842: 733) should be referred to *C. diaphanum* (Womersley 1978: 236), *C. gracillimum* *sensu* Griffiths & Harvey corresponds to *C. flaccidum* (Womersley 1978: 234).

Trani: [126 as *Ceramium rubrum* (Hudson) C. Agardh]

Brindisi: [28 as *Ceramium rubrum* (Hudson) C. Agardh]

NOTE: While Maggs & Hommersand (1993: 64) considered *C. rubrum* (Hudson) C. Agardh as a synonym of *C. nodulosum* Ducluzeau, we follow Silva & al. (1996: 402), in considering the circumscription and correct name of *C. rubrum* uncertain. Moreover, as stated by Silva & al. (1996: 402) *C. nodulosum* Ducluzeau (1805: 61) [often erroneously accredited to (Lightfoot) Ducluzeau] is illegitimate, being a later homonym of *C. nodulosum* De Candolle (in Lamarck & De Candolle 1808: 45).

*Ceramium repens* Zanardini (1847: 221) is a later homonym of *C. repens* (Dillwyn) C. Agardh (1817: 63) [= *Spermothamnion repens* (Dillwyn) Rosenvinge].

The specimen identified as *C. cinnabarinum* by Pierpaoli [107], is referred to this taxon on the basis of the examination of the herbarium sheet.

**M** *Ceramium rubrum auctorum* var. *implexo-contortum* Solier

Gulf of Trieste: [79, 112 as *Ceramium rubrum* (Hudson) C. Agardh var. *implexo-contortum* Solier]

Gulf of Trieste: [77 as *Ceramium rubrum* var. *implexo-contortum* Solier]

**M** *Ceramium rubrum auctorum* var. *tenue* C. Agardh

Gulf of Venice: [56 as *Ceramium rubrum* (Hudson) C. Agardh var. *tenue* C. Agardh]

**Ab** *Ceramium secundatum* Lyngbye

Gulf of Trieste: [84 as *Ceramium barbatum* (Kützing) J. Agardh; 77, 79, 85, 112 as *C. rubrum* (Hudson) C. Agardh var. *barbatum* (Kützing) J. Agardh]

Gulf of Venice: [168 as *Ceramium barbatum* Kützing, as *C. connivens* Zanardini; 79 *C. rubrum* (Hudson) C. Agardh var. *barbatum* (Kützing) J. Agardh]

Lagoon of Venice: [53, 110, 131 as *Ceramium barbatum* Kützing; 113, 138, 141, 163 as *C. barbatum* (Kützing) J. Agardh; 131 as *C. barbatum* Kützing var. *minus* Schiffner, as *C. barbatum* Kützing var. *minus* Schiffner f. *dichotomum*

- (Kützing) Schiffner; 59 as *C. connivens* Zanardini; 133, 158, 159 *C. rubrum* (Hudson) C. Agardh var. *barbatum* (Kützing) J. Agardh]
- Goro: [106 *Ceramium rubrum* (Hudson) C. Agardh var. *barbatum* (Kützing) J. Agardh]
- Ancona: [53 as *Ceramium barbatum* Kützing; 107 as *C. rubrum* C. Agardh f. *barbatum* Hauck; 108 as *C. rubrum* Kützing f. *barbatum* Kützing]
- Mt Conero: [77, 79 *Ceramium rubrum* (Hudson) C. Agardh var. *barbatum* (Kützing) J. Agardh; 154 as *C. rubrum* Kützing f. *barbatum* Kützing]
- Termoli: [114 as *Ceramium barbatum* (Kützing) J. Agardh]
- The Tremiti Islands: [29; 79 *Ceramium rubrum* (Hudson) C. Agardh var. *barbatum* (Kützing) J. Agardh]
- Gargano: [124 as *Ceramium barbatum* (Kützing) J. Agardh; 79 *C. rubrum* (Hudson) C. Agardh var. *barbatum* (Kützing) J. Agardh]
- Gulf of Manfredonia: [79 *Ceramium rubrum* (Hudson) C. Agardh var. *barbatum* (Kützing) J. Agardh]
- Cape Otranto: [77 *Ceramium rubrum* (Hudson) C. Agardh var. *barbatum* (Kützing) J. Agardh]

NOTE: We follow Abdelahad & D'Archino (1998:107) in referring *C. rubrum* var. *barbatum* to *C. secundatum*.

All Mediterranean authors, quoting *C. rubrum* var. *barbatum*, followed G. Feldmann (1941: 333) who attributed such a variety to (Kützing) J. Agardh. However, J. Agardh never made such a combination. Moreover, *C. barbatum* Kützing (1842: 740) is illegitimate being a later homonym of *C. barbatum* Duby (1833: 19). Therefore, because of G. Feldmann supplied a description, the trinomial should be treated as a new name: *C. rubrum* var. *barbatum* G. Feldmann

- SC      *Ceramium siliquosum* (Kützing) Maggs & Hommersand var. *siliquosum*
- Gulf of Trieste: [68, 77, 79, 84, 112, 151 as *Ceramium diaphanum* (Roth) Harvey]
- Gulf of Venice: [56 as *Ceramium diaphanum* (Lightfoot) Roth; 79 as *C. diaphanum* (Roth) Harvey, as *C. diaphanum* (Lightfoot) Roth var. *decipiens* Schiffner, as *C. orthocladium* Schiffner]
- Lagoon of Venice: [34, 59, 113, 133, 141, 158, 163 as *Ceramium diaphanum* (Lightfoot) Roth; 138, 159 as *C. diaphanum* (Roth) Harvey; 166 as *C. diaphanum* (Wulfen) Roth; 131 as *C. diaphanum* (Lightfoot) Roth var. *decipiens* Schiffner, as *C. orthocladium* Schiffner f. *nanum* Schiffner; 163 as *C. orthocladium* Schiffner]
- Ancona: [107 as *Ceramium diaphanum* J. Agardh]
- Termoli: [114 as *Ceramium diaphanum* (Roth) Harvey]
- The Tremiti Islands: [29; 79, 121, 161 as *Ceramium diaphanum* (Roth) Harvey]
- Gargano: [79 as *Ceramium diaphanum* (Roth) Harvey]
- Brindisi: [28 as *Ceramium diaphanum* (Lightfoot) Roth]
- Cape Otranto: [77 as *Ceramium diaphanum* (Roth) Harvey]

NOTE: We consider the above records of *C. diaphanum* corresponding to *C. diaphanum* sensu Harvey [= *C. siliquosum* according to Maggs & Hommersand (1993: 74)]. Accordingly, infrageneric taxa of *C. diaphanum* (Roth) Harvey recognised and/or described by Feldmann-Mazoyer (1941) (whose taxonomic concept of the species corresponded to *C. diaphanum* sensu Harvey), are below combined, when necessary, in *C. siliquosum*.

- Ab** *Ceramium siliquosum* (Kützing) Maggs & Hommersand var. *elegans* (Roth) G. Furnari **comb. nov.**

Gulf of Trieste: [3a, 89g as *Hormoceras polygonum* Kützing; 151 as *Ceramium diaphanum* var. *elegans* (Ducluzeau) Feldmann-Mazoyer; 3d as *C. elegans* Ducluzeau]

Gulf of Venice: [89g as *Hormoceras polygonum* Kützing; 79 as *Ceramium diaphanum* var. *elegans* (Ducluzeau) Feldmann-Mazoyer; 56 as *C. elegans* Ducluzeau]

Lagoon of Venice: [133 as *Ceramium diaphanum* var. *elegans* (Ducluzeau) Feldmann-Mazoyer; 53, 59, 131, 163 as *C. elegans* Ducluzeau; 131 as *C. elegans* f. *nana* Schiffner, as *C. elegans* f. *tenuior* Schiffner, as *C. polygonum* (Kützing) Schiffner]

Trani: [126 as *Ceramium elegans* Ducluzeau]

NOTE: *Ceramium siliquosum* var. *elegans* (Roth) G. Furnari **comb. nov.** [Bas.: *Conferva elegans* Roth 1797: 199, pl. V, 4]

- At** *Ceramium siliquosum* (Kützing) Maggs & Hommersand var. *lophophorum* (Feldmann-Mazoyer) Serio

Gulf of Venice: [79 as *Ceramium diaphanum* Harvey var. *lophophorum* Feldmann-Mazoyer]

Lagoon of Venice: [113 as *Ceramium diaphanum* Harvey var. *lophophorum* Feldmann-Mazoyer]

The Tremiti Islands: [29]

- Ab** *Ceramium siliquosum* (Kützing) Maggs & Hommersand var. *zostericola* (Feldmann-Mazoyer) G. Furnari **comb. nov.**

Gulf of Trieste: [79, 84, 151 as *Ceramium diaphanum* Harvey var. *zostericola* Thuret; 112 as *C. diaphanum* (Roth) Harvey var. *zostericola* Thuret; 77 as *C. diaphanum* var. *zostericola* Thuret]

Lagoon of Venice: [158 as *Ceramium diaphanum* (Roth) Harvey var. *zostericola* Thuret]

The Tremiti Islands: [29]

NOTE: *Ceramium siliquosum* var. *zostericola* (Feldmann-Mazoyer) G. Furnari **comb. nov.** [Bas.: *Ceramium diaphanum* var. *zostericola* Feldmann-Mazoyer 1941: 314].

When Feldmann-Mazoyer (1941: 314) reported *Ceramium diaphanum* var. *zostericola*, even though she thought she was proposing a new combination based on *Ceramium strictum* var. *zostericola* Thuret in Le Jolis (1863: 120), she in effect described a new form. In fact, the intended basionym *Ceramium strictum* var. *zostericola* is a *nomen nudum* since it was not described either by Thuret in Le Jolis (op. cit.) or by G. Mazoyer (1938: 326) in her paper on *Ceramiaceae* from N. Africa.

- Ab** *Ceramium siliquosum* (Kützing) Maggs & Hommersand [var. *zostericola*] f. *acrocarpum* (G. Mazoyer) G. Furnari **comb. nov.**

Gulf of Trieste: [79 as *Ceramium diaphanum* var. *acrocarpum* Feldmann-Mazoyer]

NOTE: *Ceramium siliquosum* [var. *zostericola*] f. *acrocarpum* (G. Mazoyer) G. Furnari **comb. nov.** [Bas.: *Ceramium strictum* f. *acrocarpum* G. Mazoyer 1938:

326].

When G. Mazoyer (1938: 326) described *Ceramium strictum* var. *zostericola* f. *acrocarpum*, she quoted as basionym *Hormoceras acrocarpum* Kützing 1863: XIII, 1. But, since that name is invalid being a later homonym of *Hormoceras acrocarpum* Zanardini ex Frauenfeld (1855: 42), *Ceramium strictum* f. *acrocarpum* has to be accredited to only G. Mazoyer.

**Ab** *Ceramium strobiliforme* Lawson & D. M. John

**IP *Gelidiella antipae* Celan**

- The Tremiti Islands: [29]

**IP *Gelidiella lubrica* (Kützing) Feldmann & Hamel**

- Gulf of Trieste: [77, 79, 112] - Miramare (Trieste): [16]
- Gulf of Venice: [79; 168 as *Gelidium lubricum* (Kützing) Zanardini (*nom. illeg.*)]
- The Tremiti Islands: [29, 111, 121]

NOTE: When Zanardini (1847: 34) proposed the combination *Gelidium lubricum* (Kützing) Zanardini he ignored that *Acrocarpus lubricus* Kützing (1843: 405, pl. 60, fig. 2) had previously been combined under the genus *Gelidium* by Trevisan (1845: 17).

**M** *Gelidiella nigrescens* (Feldmann) Feldmann & Hamel

Gulf of Trieste: [68, 79; 14 as *Gelidiella nigrescens*]  
The Tremiti Islands: [79] - Cape Otranto: [77]

**SC** *Gelidiella pannosa* (Feldmann) Feldmann & Hamel

Gulf of Trieste: [77, 112 as *Gelidiella tenuissima* (Thuret) Hamel; 79 as *G. tenuissima* (Thuret) Feldmann & Hamel]  
The Tremiti Islands: [29] - Brindisi: [28]

**Ab** *Gelidium bipectinatum* G. Furnari sp. nov..

Gulf of Trieste: [79 as *Gelidium pectinatum* (Schousboe, ?) Montagne]  
The Tremiti Islands: [121 as *Gelidium pectinatum* (Schousboe) Montagne; 29 as *G. pectinatum* Schousboe ex Montagne (*nom. illeg.*)]  
Brindisi: [28 as *Gelidium pectinatum* Schousboe ex Montagne (*nom. illeg.*)]

NOTE: *Gelidium pectinatum* Montagne (1846b: 108-109) was illegitimate when published because its protologue included the citation of *Fucus serra* S. G. Gmelin (1768: 150), a name of uncertain application (Silva & al. 1996: 137).

Ardissone & Strafforello (in Ardissone 1883: 288), treated Montagne's species as a variety of *G. corneum* (Hudson) J. V. Lamouroux proposing the following combination: *G. corneum* var. *pectinatum* Ardissone & Strafforello. Such a trinomial, nomenclaturally correct (as pointed out by Silva & al. 1996: 137) does not seem taxonomically acceptable. In fact, *G. pectinatum* is more related to *G. spinosum* (S. G. Gmelin) P. C. Silva (a species commonly known as *G. latifolium* Bornet ex Hauck) than to *G. corneum*, a name that should be applied to *G. sesquipedale* (Clemente) Thuret (Silva & al., op. cit.: 136). It should be noted that the name *G. corneum* (under which *G. pectinatum* was combined by Ardissone & Strafforello), was most probably used by Ardissone & Strafforello, like other Mediterranean authors of that period did, for plants having the features of *G. spinosum* rather than of *G. corneum*.

Starting from Feldmann & Hamel (1936: 247), *Gelidium pectinatum* was treated as a distinct species in the Mediterranean literature. Both its features and ecology (it is found only in deep waters and/or in shallow shaded habitats) [see Feldmann & Hamel (op. cit.)] suggest the maintenance of the specific rank for Montagne's taxon.

All that considered, it seems opportune to describe a new species for Montagne's *Gelidium pectinatum* (*nom. inval.*) which, however, excludes *Fucus serra*. For it, the name *Gelidium bipectinatum* is proposed.

***Gelidium bipectinatum* G. Furnari sp. nov.**

Description in Montagne 1846b: 108-109, with the exclusion of *Fucus serra* S. G. Gmelin (1768: 150). Illustration in Montagne *op.cit.*: pl. 10: fig. 1. Type locality: Alger, Algeria.

Holotype: “*Gelidium pectinatum*” Montagne. Montagne's Herbarium (held in the Herbarium of the Laboratoire de Cryptogamie, Muséum National d'Histoire

Naturelle, PC); MA 2903.

The specific epithet derives from the disposition of pinnules on two rows reminding of a comb with two opposite rows of teeth.

**SC *Gelidium crinale* (Turner) Gaillon**

Gulf of Trieste: [79, 112; 77 as *Gelidium crinale* (Turner) J. V. Lamouroux; 128 as *Gelidium crinale* (Turner) J. Agardh var. *spathulatum* (Kützing) Schiffner (*nom. illeg.*)]

Miramare (Trieste): [67]

Gulf of Venice: [56, 79; 168 as *Gelidium corneum* var. *loncharion*; 56 as *G. crinale* (Turner) J. Agardh f. *spatulatum*, as *G. spinescens* (Kützing) Zanardini (*nom. illeg.*)]

Lagoon of Venice: [110, 113, 133, 141; 163 as *Gelidium crinale* (Turner) J. Agardh; 138 as *G. crinale* (Turner) J. V. Lamouroux; 110 as *G. crinale* var. *lubricum* Kützing; 131 as *G. crinale* (Turner) J. Agardh var. *spinescens* Kützing, as *G. crinale* var. *lubricum* (Kützing) Hauck]

Ancona: [108; 107 as *Gelidium crinale*, as *G. venetum* (misapplied name); 108 as *Gelidium crinale* (Turner) J. Agardh f. *spatulatum*, as *G. crinale* (Turner) J. Agardh var. *spinescens* Kützing; 3d as *G. crinale* (Turner) Lamouroux var. *nudiusculum* Ardissoni]

Mt Conero: [79; 77 as *Gelidium crinale* (Turner) J. V. Lamouroux; 154 as *G. crinale* (Turner) J. Agardh f. *spatulatum*, as *Gelidium crinale* C. Agardh f. *spatulatum* Kützing]

The Tremiti Islands: [29, 161] - Trani: [126]

Fano: [3d as *Gelidium crinale* (Turner) Lamouroux var. *subdichotomum* Ardissoni f. *lubricum* (Kützing) Ardissoni]

Brindisi: [28]

NOTE: When Schiffner (1916: 184) proposed the combination *Gelidium crinale* var. *spatulatum* he ignored that the combination had been previously made by Hauck (1883: 183).

When Zanardini (1847: 34) proposed the combination *Gelidium spinescens* (Kützing) Zanardini he ignored that Trevisan (1845: 17) had previously made the combination.

The specimen identified as *G. venetum* by Pierpaoli [107], is referred to this taxon on the basis of the examination of the herbarium sheet.

**C *Gelidium minusculum* (Weber Bosse) R. E. Norris**

Gulf of Trieste: [77, 79, 112 as *Gelidium pusillum* var. *minusculum* Weber Bosse]

The Tremiti Islands: [29]

**Ab *Gelidium pulchellum* (Turner) Kützing**

Gulf of Trieste: [68] - Gargano: [79, 124]

**C *Gelidium pusillum* (Stackhouse) Le Jolis**

Gulf of Trieste: [77, 79, 84, 112; 59 as *Gelidium corneum* (Hudson) J. V. Lamouroux var. *pulvinatum* (C. Agardh) Zanardini]

Miramare (Trieste): [67]

Gulf of Venice: [79; 160 as *Gelidium pusillum* Le Jolis; 168 as *G. corneum* var. *clavatum*; 56 as *G. corneum* f. *caespitosum* De Toni & Levi]

Lagoon of Venice: [34, 37, 110, 131, 133, 163; 113, 142 as *Gelidium pulvinatum*; 138 as *G. pulvinatum* Kützing]  
 The Tremiti Islands: [29, 161] - Brindisi: [28]

**Ab** *Gelidium spathulatum* (Kützing) Bornet

Gulf of Trieste: [77, 79, 84, 112; 14 as *Gelidium spathulatum*]  
 Miramare (Trieste): [16]  
 Gulf of Venice: [79; 79 as *Gelidium affine* Schiffner]  
 Lagoon of Venice: [110, 113, 131, 133, 138, 141, 163; 110 as *Gelidium spathulatum* var. *affine* Schiffner, as *G. spathulatum* var. *pulvinatum* Kützing; 131, 163 as *G. affine* Schiffner]  
 Ancona: [107 as *Gelidium spathulatum*, as *Gelidium corneum* var. *pectinatum* Ardissono (misapplied name)]  
 Mt Conero: [79] - Termoli: [114] - The Tremiti Islands: [29, 79, 121] - Gargano: [79, 124] - Brindisi: [28] - Cape Otranto: [77]

NOTE: According to Womersley & Guiry (1994: 133) this species is synonym of *Gelidium pusillum*.

The specimen identified as *G. corneum* var. *pectinatum* by Pierpaoli [107], is referred to this taxon on the basis of the examination of the herbarium sheet.

**SC** *Gelidium spinosum* (S. G. Gmelin) P. C. Silva var. *spinosum*

Gulf of Trieste: [14 as *Gelidium latifolium*, 79 as *G. latifolium* (Greville) Thuret & Bornet]  
 Gulf of Venice: [168 as *Gelidium corneum* var. *hypnoides*, as *G. corneum* var. *plumula*; 56 as *G. corneum* J. V. Lamouroux (misapplied name), as *Gelidium corneum* var. *pristoides* (C. Agardh) J. Agardh]  
 Mt Conero: [154 as *Gelidium coricum* J. V. Lamouroux (misapplied name)]  
 The Tremiti Islands: [29; 79 as *Gelidium latifolium* (Greville) Thuret & Bornet]  
 Brindisi: [28 as *Gelidium latifolium* (Greville) Bornet var. *latifolium*]

NOTE: To *G. corneum* should be referred the species currently known as *G. sesquipedale* (Clemente) Thuret (Silva & al. 1996: 136), the occurrence of which should be confirmed in the Mediterranean Sea. Thus, it is highly probable that both records of *G. corneum* by De Toni & Levi (1885) [56] and Solazzi (1966) [154] refer to *G. spinosum* since Mediterranean authors generally used the name *G. corneum* for *G. latifolium* (= *G. spinosum*).

**M** *Gelidium spinosum* (S. G. Gmelin) P. C. Silva var. *hystrix* (J. Agardh) G. Furnari

Gulf of Trieste: [14 as *Gelidium latifolium* var. *hystrix*; 79 as *G. latifolium* (Greville) Thuret & Bornet var. *hystrix* (J. Agardh) Hauck]  
 Gulf of Venice: [56 as *Gelidium corneum* var. *hystrix* (C. Agardh) J. Agardh]  
 The Tremiti Islands: [29; 111 as *Gelidium hystrix* Zanardini; 121 as *G. latifolium* (Greville) Thuret & Bornet var. *hystrix* (J. Agardh) Feldmann & Hamel; 79 as *G. latifolium* (Greville) Thuret & Bornet var. *hystrix* (J. Agardh) Hauck]  
 Trani: [126 as *Gelidium latifolium* (Greville) Bornet var. *hystrix* (J. Agardh) Hauck]  
 Cape Otranto: [77 as *Gelidium latifolium* var. *hystrix* Feldmann & Hamel]

**M** *Gloiocladia furcata* (C. Agardh) J. Agardh

Gulf of Trieste: [1, 52, 169; 166 as *Lomentaria* ? *furcata* (C. Agardh) Zanardini]  
 Miramare (Trieste): [59]

The Tremiti Islands: [29]  
Brindisi: [28]

**At** *Gracilaria armata* (C. Agardh) Greville

Gulf of Trieste: [68, 79, 84, 112, 166; 14 as *Gracilaria armata*; 71, 77, 128 as *G. armata* (C. Agardh) J. Agardh]  
Miramare (Trieste): [67]  
Gulf of Venice: [59, 79, 56; 168 as *Plocaria armata* (C. Agardh) Zanardini]  
Lagoon of Venice: [110, 133, 158, 163; 131 as *Gracilaria armata* (C. Agardh)  
J. Agardh]  
Goro: [106]  
Ancona: [107 as *Gracilaria armata*, as *G. armata* J. Agardh; 108 as *G. armata*  
C. Agardh]  
Mt Conero [79; 154 as *Gracilaria armata* (C. Agardh) J. Agardh]  
Lagoon of Lesina: [71 as *Gracilaria armata* (C. Agardh) J. Agardh]  
Trani: [126]

**SC** *Gracilaria bursa-pastoris* (S. G. Gmelin) P. C. Silva

Gulf of Trieste: [71; 14 as *Gracilaria bursa-pastoris*; 61, 60 as *G. bursa-pastoris*  
P. C. Silva; 1, 59, 68, 77, 79, 84, 85, 89, 90, 112, 128, 151 as *G. compressa*  
(C. Agardh) Greville; 166 as *G. secunda* (C. Agardh) Zanardini]  
Miramare (Trieste): [67 as *Gracilaria compressa* (C. Agardh) Greville]  
Gulf of Venice: [168 as *Gracilaria compressa*; 79, 166 as *G. compressa*  
(C. Agardh) Greville]  
Lagoon of Venice: [34, 37, 133, 138, 140; 110, 113, 131, 141, 163 as *Gracilaria*  
*compressa* (C. Agardh) Greville; 148 as *G. compressa* (C. Agardh) J. Agardh;  
113 as *G. compressa* f. *brunnea*; 131 as *G. compressa* (C. Agardh) Greville f.  
*vaga* (Kützing) Schiffner]  
Grado: [150 as *Gracilaria compressa* (C. Agardh) Greville]  
Ancona: [71; 107 as *Gracilaria compressa* J. Agardh; 59, 79, 108, 153 as  
*G. compressa* (C. Agardh) Greville; 153 as *G. compressa* f. *sporangifera*]  
Mt Conero: [77, 79, 154 as *Gracilaria compressa* (C. Agardh) Greville]  
Termoli: [114 as *Gracilaria compressa* (C. Agardh) Greville]  
The Tremiti Islands: [79 as *Gracilaria compressa* (C. Agardh) Greville]  
Gargano: [79, 124 as *Gracilaria compressa* (C. Agardh) Greville]  
Bari: [79 as *Gracilaria compressa* (C. Agardh) Greville]  
Cape Otranto: [89 as *Gracilaria compressa* (C. Agardh) Greville]

**Ab** *Gracilaria conferta* (Schousboe ex Montagne) Montagne

Gulf of Venice: [71, 71]

NOTE: The combination of *Gigartina conferta* Schousboe ex Montagne 1839: 12,  
pl. 9 (Montagne 1839-1841) under the genus *Gracilaria* is generally attributed to  
J. Feldmann & G. Feldmann-Mazoyer (1943: 240). But such a combination was  
previously made by Montagne (1846a: 69)

**M** *Gracilaria corallicola* Zanardini

Gulf of Trieste: [77, 79, 112] - Termoli: [114] - The Tremiti Islands: [79] -  
Gargano: [79] - Cape Otranto: [26]

**IA** *Gracilaria dura* (C. Agardh) J. Agardh

Gulf of Trieste: [77, 79, 112, 102; 166 as *Gigartina dura* (C. Agardh) Greville]

Gulf of Venice: [56; 168 as *Plocaria dura*]  
 Lagoon of Venice: [59, 133, 137, 140, 148]  
 Ancona: [153; 107 as *Gracilaria dura* J. Agardh; 108 as *G. dura* C. Agardh]  
 Mt Conero: [79, 154]

**IA** *Gracilaria foliifera* (Forsskål) Børgesen

Ancona: [107 as *Gracilaria multipartita* Harvey (misapplied name)]

NOTE: The specimen identified as *G. multipartita* by Pierpaoli [107], is referred to this taxon on the basis of the examination of the herbarium sheet.

**M** *Gracilaria longa* Gargiulo, De Masi & Tripodi

Gulf of Trieste: [71] - Lagoon of Venice: [140]

**C** *Gracilariopsis longissima* (S. G. Gmelin) Steentoft, L. M. Irvine & Farnham

Northern Adriatic: [78 as *Gracilaria verrucosa* (Hudson) Papenfuss]

Gulf of Trieste: [84 as *Gracilaria confervoides*; 149 as *G. confervoides* Greville; 77, 112, 128, 151 as *G. confervoides* (Linnaeus) Greville; 64 as *G. verrucosa*; 79, 123, 11, 102 as *G. verrucosa* (Hudson) Papenfuss]

Monfalcone: [79 as *Gracilaria verrucosa* (Hudson) Papenfuss]

Grado: [25 as *Gracilaria confervoides*; 150 as *G. confervoides* Greville; 152 as *G. confervoides* (Linnaeus) Greville; 65, 23 as *G. verrucosa* (Hudson) Papenfuss]

Gulf of Venice: [162 as *Gracilaria confervoides*; 56 as *G. confervoides* (Linnaeus) Greville; 79 as *G. verrucosa* (Hudson) Papenfuss, 168 as *Plocaria confervoides* (C. Agardh) Zanardini; 1 as *Hypnea confervoides* (C. Agardh) J. Agardh]

Lagoon of Venice: [138 as *Gracilaria verrucosa*; 34, 35, 37, 39, 43, 45, 46, 104, 133, 137, 140, 141, 142, 143, 146, 147, 158 as *G. verrucosa* (Hudson) Papenfuss; 2, 113, 163 as *G. confervoides*; 110, 131, 148, 159 as *G. confervoides* (Linnaeus) Greville; 166 as *G. confervoides* (C. Agardh) Greville; 131 as *G. confervoides* (Linnaeus) Greville var. *ramulosa* Kützing, as *G. confervoides* (Linnaeus) Greville var. *ramulosa* Kützing f. *minor* J. Agardh, as *G. confervoides* (Linnaeus) Greville var. *ramulosa* Kützing f. *monstrosa* J. Agardh, as *G. confervoides* (Linnaeus) Greville var. *veneta* Schiffner; 102a as *Sphaerococcus confervoides* var. *sordidus*]

Goro: [15 as *Gracilaria confervoides*; 152 as *G. confervoides* (Linnaeus) Greville; 6 as *G. verrucosa*; 72, 106, 18 as *G. verrucosa* (Hudson) Papenfuss]

Ferrara: [79 as *Gracilaria verrucosa* (Hudson) Papenfuss]

Ancona: [107 as *Gracilaria confervoides* J. Agardh, as *G. confervoides* (Linnaeus) Greville, as *G. confervoides* var. *divergens*, as *G. confervoides* Greville var. *ramosissima*, as *G. confervoides* Greville var. *ramulosa* Kützing, as *G. confervoides* J. Agardh f. *ramulosa* Kützing; 108 as *G. confervoides* Greville]

Mt Conero: [79 as *Gracilaria verrucosa* (Hudson) Papenfuss]

Lagoon of Lesina: [31 as *Gracilaria confervoides* (Linnaeus) Greville]

Bari: [71 as *Gracilaria verrucosa* (Hudson) Papenfuss]

NOTE: According to Gargiulo (personal communication), the major part of the records here referred to as *Gracilariopsis longissima*, most probably are based on specimens belonging to *Gracilaria* spp.

 Gulf of Venice: [79; 54 as *Hildenbrandia* (“*Hildenbrandia*”) prototypus Nardo; 168 as *H. nardii*; 1, 56, 166 as *H.* (“*Hildenbrandia*”) *nardii* Zanardini]  
 Lagoon of Venice: [133 as *Hildenbrandia* (“*Hildenbrandia*”) prototypus Nardo; 59, 166 as *H.* (“*Hildenbrandia*”) *nardii* Zanardini]  
 Mt Conero: [79]  
 The Tremiti Islands: [79; 111, 121 as *Hildenbrandia* (“*Hildenbrandia*”) prototypus Nardo]  
 Gargano: [79; 89 as *Hildenbrandia* (“*Hildenbrandia*”) prototypus Nardo]  
 Cape Otranto: [89 as *Hildenbrandia* (“*Hildenbrandia*”) prototypus Nardo]

**C *Hydrolithon boreale* (Foslie) Y. M. Chamberlain**

The Tremiti Islands: [29]  
 Brindisi: [28 as *Fosliella farinosa* (J. V. Lamouroux) M. Howe f. *callithamnioides* (Foslie) Y. M. Chamberlain]

**C *Hydrolithon farinosum* (J. V. Lamouroux) Penrose & Y. M. Chamberlain var. *farinosum***

Adriatic: [9; 7 as *Fosliella farinosa* (J. V. Lamouroux) M. Howe; 9 as *Hydrolithon cruciatum* (Bressan) Y. M. Chamberlain]  
 Gulf of Trieste: [12, 21, 79 as *Fosliella cruciata* Bressan; 12, 68, 79 as *F. farinosa* (J. V. Lamouroux) M. Howe; 77, 84, 112, 128 as *Melobesia farinosa* J. V. Lamouroux]  
 Gulf of Venice: [79 as *Fosliella farinosa* (J. V. Lamouroux) M. Howe; 56, 115, 168 as *Melobesia farinosa* J. V. Lamouroux]  
 Lagoon of Venice: [35, 133 as *Fosliella farinosa* (J. V. Lamouroux) M. Howe; 34, 37, 38, 39, 158; 110, 131, 148, 163 as *Melobesia farinosa* J. V. Lamouroux]  
 Valli di Comacchio: [83 as *Fosliella farinosa* (J. V. Lamouroux) M. Howe]  
 Rimini and Riccione: [129 as *Melobesia farinosa* J. V. Lamouroux]  
 Ancona: [107 as *Melobesia farinosa* J. V. Lamouroux]  
 Mt Conero: [79 as *Fosliella farinosa* (J. V. Lamouroux) M. Howe]  
 Termoli: [114 as *Melobesia farinosa* J. V. Lamouroux]  
 The Tremiti Islands: [79, 93, 161 as *Fosliella farinosa* (J. V. Lamouroux) M. Howe; 121 as *Melobesia farinosa* J. V. Lamouroux]  
 Pianosa Island: [79 as *Fosliella farinosa* (J. V. Lamouroux) M. Howe]  
 Gargano: [79 as *Fosliella farinosa* (J. V. Lamouroux) M. Howe]  
 Trani: [126 as *Melobesia farinosa* J. V. Lamouroux]

Brindisi: [28 as *Fosliella farinosa* (J. V. Lamouroux) M. Howe var. *farinosa*]

NOTE: It is possible that some records of both *Fosliella farinosa* and *Melobesia farinosa* should be referred to *Hydrolithon boreale*, a species recently characterised by Chamberlain (1994).

Penrose (1996: 261) proposed the synonymy between *H. cruciatum* and *H. farinosum*.

- At** *Hydrolithon farinosum* (J. V. Lamouroux) Penrose & Y. M. Chamberlain var. *chalicodictyum* (W. R. Taylor) Serio

The Tremiti Islands: [29]

NOTE: A study of the germination disc pattern of this taxon is needed to confirm its taxonomic position.

- P** *Hypnea musciformis* (Wulfen) J. V. Lamouroux

Northern Adriatic: [24]

Gulf of Trieste: [8, 11, 68, 77, 79, 84, 87, 112, 128, 151, 166; 14 as *Hypnea musciformis*; 1 as *Hypnea rissoana* J. Agardh (*nom. illeg.*); 166 as *Gracilaria ? divaricata* (C. Agardh) Greville]

Gulf of Venice: [56, 59, 79, 160; 168 as *Hypnea musciformis* J. V. Lamouroux; 1 as *H. rissoana* J. Agardh (*nom. illeg.*); 168 as *H. rissoana*]

Lagoon of Venice: [110, 113, 131, 133, 138, 141]

Grado: [150 as *Hypnea musciformis* J. V. Lamouroux]

Coast of Marche: [157 as *Hypnea musciformis* J. V. Lamouroux]

Ancona: [153; 108 as *Hypnea musciformis* J. V. Lamouroux]

Mt Conero: [79, 154] - Termoli: [114] - The Tremiti Islands: [29, 79] - Gargano: [79, 124] - Trani: [126] - Brindisi: [28] - Cape Otranto: [122]

NOTE: *Hypnea rissoana* was superfluous when published (J. Agardh 1842: 150), and hence illegitimate, because its protologue included *Sphaerococcus divaricatus* C. Agardh (1827: 645) (= *Hypnea musciformis*). It should be noted that also the last name is illegitimate, being a later homonym of *Sphaerococcus divaricatus* C. Agardh (1817: XVII) [basionym of *Hypnea divaricata* (C. Agardh) Greville].

- Ab** *Hypoglossum hypoglossoides* (Stackhouse) Collins & Hervey

Gulf of Trieste: [29; 79 as *Hypoglossum woodwardii* (Woodward) Kützing; 89a as *H. woodwardii* Kützing var. *ovalifolium* (J. Agardh) Kützing (*nom. illeg.*); 171 as *Delesseria crispa* (Zanardini) Zanardini]

Miramare (Trieste): [59 as *Delesseria crispa* Zanardini, as *D. hypoglossum* (Woodward) J. V. Lamouroux]

Gulf of Venice: [52 as *Hypoglossum woodwardii* Kützing; 56 as *Delesseria crispa* (Zanardini) Zanardini, as *D. hypoglossum* (Woodward) J. V. Lamouroux; 1 as *D. hypoglossum* J. V. Lamouroux var. *ovalifolia* J. Agardh]

Lagoon of Venice: [168 as *Hypoglossum crispum*]

The Tremiti Islands: [121 as *Hypoglossum woodwardii* Kützing; 79 as *H. woodwardii* (Woodward) Kützing]

Brindisi: [28]

Cape Otranto: [77 as *Hypoglossum woodwardii* Kützing]

NOTE: *Hypoglossum woodwardii* Kützing var. *ovalifolium* (J. Agardh) Kützing (1849: 875) is a later homonym of *Hypoglossum woodwardii* Kützing var. *ovalifolium* (J. Agardh) Rabenhorst (1847: 174).

- Gulf of Trieste: [77, 79, 84, 112; 14 as *Laurencia obtusa*]
- Gulf of Venice: [79; 56 as *Laurencia obtusa* var. *genuina*, as *L. obtusa* var. *gracilis* (C. Agardh) Kützing f. *genuina*; 168 as *Laurencia obtusa* var. *gracilis* (C. Agardh) Zanardini]
- Lagoon of Venice: [59, 110, 113, 131, 148, 163; 131 as *Laurencia obtusa* (Hudson) J. V. Lamouroux var. *genuina*; 166 as *Laurencia obtusa* J. V. Lamouroux, *Laurencia obtusa* var. *gracilis* (G. Martens) Zanardini (see Note); 102a as *Chondria obtusa*]
- Rimini and Riccione: [129 as *Laurencia obtusa* (Hudson) J. V. Lamouroux var. *gracilis* Kützing]
- Ancona: [107 as *Laurencia obtusa* J. V. Lamouroux, as *L. obtusa* var. *laxa* Ardissoni, as *L. radicans* Kützing (misapplied name)]
- Mt Conero: [77, 79]
- The Tremiti Islands: [29, 79, 93, 111, 121, 161] - Pianosa Island: [79, 125] - Gargano: [79, 124] - Trani: [126] - Brindisi: [28] - Cape Otranto: [77, 89]
- NOTE: *Laurencia obtusa* var. *gracilis* was based by Zanardini (1841: 197) on *Chondria obtusa* var. *gracilis* Martens (1824: 633). He, however, ignored that *Chondria obtusa* var. *gracilis* had been previously published by C. Agardh (1822: 342). Zanardini (1847: 20) later proposed the correct combination.
- Both specimens identified as *L. radicans* and *L. obtusa* var. *laxa* by Pierpaoli [107], are referred to this taxon on the basis of the examination of the herbarium sheets.
- SC** ***Laurencia paniculata* (C. Agardh) J. Agardh [nom. illeg.]**
- Gulf of Trieste: [77, 79, 84; 112 as *Laurencia paniculata* J. Agardh]
- Miramare (Trieste): [16]
- Gulf of Venice: [79; 56 as *Laurencia paniculata* J. Agardh; 168 as *L. obtusa* J. V. Lamouroux var. *paniculata* (C. Agardh) Zanardini; 102a as *Chondria obtusa* var. *paniculata*]
- Lagoon of Venice: [113; 110 as *Laurencia paniculata* (J. Agardh) Kützing; 166 as *L. obtusa* var. *paniculata* (G. Martens) Zanardini (see Note)]
- Mt Conero: [79; 154 as *Laurencia paniculata* (C. Agardh) Kützing]
- Termoli: [114] - The Tremiti Islands: [79, 111, 121] - Pianosa Island: [79, 125] - Gargano: [79] - Cape Otranto: [89]
- NOTE: The name of this species is illegitimate since it is a later homonym of *L. paniculata* Kützing, which probably corresponds to *Osmundea ramosissima* (Oeder) Athanasiadis. Therefore, the attribution of both *L. paniculata* (C. Agardh) Kützing and *L. paniculata* (J. Agardh) Kützing to *L. paniculata* (C. Agardh) J. Agardh is tentatively proposed. From the examination of the type material made

by the authors, this taxon should belong to the genus *Chondrophycus* (Tokida) Garbary & Harper (unpublished data).

*L. obtusa* var. *paniculata* was based by Zanardini (1841: 197) on *Chondria obtusa* var. *paniculata* Martens (1824: 633). He, however, ignored that *Chondria obtusa* var. *paniculata* had been previously published by C. Agardh (1822: 343). Zanardini (1847: 20) later proposed the correct combination.

**Ab**    *Laurencia pyramidalis* Bory ex Kützing

Ancona: [108 as *Laurencia obtusa* var. *pyramidata* C. Agardh; 153 as *Laurencia obtusa* var. *pyramidata* J. Agardh]

Mt Conero: [154 as *Laurencia obtusa* var. *pyramidata* J. Agardh]

NOTE: We agree with Maggs & Hommersand (1993: 407), in supposing a possible wider distribution of this species which, previously, was commonly considered conspecific with *L. obtusa*.

*L. obtusa* var. *pyramidata* is here considered as a synonym of *L. pyramidalis* on the authority of Maggs & Hommersand (op. cit.).

**P**    *Lejolisia mediterranea* Bornet

Ancona: [79] - The Tremiti Islands: [29, 79, 121] - Brindisi: [28]

Gulf of Venice: [56]

**SC**    *Liagora viscida* (Forsskål) C. Agardh

Gulf of Trieste: [79, 166 as *Liagora viscida* C. Agardh]

Gulf of Venice: [56; 102a as *Liagora viscida*]

The Tremiti Islands: [29, 79, 111, 121] - Pianosa Island: [79, 125] - Trani: [126] - Cape Otranto: [77, 79, 89]

**IP**    *Lithophyllum byssoides* (Lamarck) Foslie

Adriatic: [9 as *Lithophyllum lichenoides* Philippi]

Gulf of Venice: [56 as *Melobesia cristata* (Meneghini) Ardissoni]

Apulia: [5 as *Lithophyllum tortuosum* (Esper) Foslie (misapplied name)]

The Tremiti Islands: [29; 93 as *Lithophyllum tortuosum* (Esper) Foslie (misapplied name); 7, 79, 121 as *L. tortuosum* Foslie (misapplied name); 111 as *Tenarea tortuosa* (Esper) Me. Lemoine (misapplied name)]

Pianosa Island: [79 as *Lithophyllum tortuosum* Foslie (misapplied name); 125 as *Tenarea tortuosa* (Esper) Me. Lemoine (misapplied name)]

Gargano: [7, 79 as *Lithophyllum tortuosum* Foslie (misapplied name); 89 as *L. tortuosum* (Esper) Foslie (misapplied name)]

Cape Otranto: [89 as *Lithophyllum tortuosum* (Esper) Foslie (misapplied name)]

NOTE: According to Woelkerling (1998: 258-259), *L. lichenoides* is a taxonomic synonym of *L. byssoides*.

*L. tortuosum* (Esper) Foslie is a nomenclatural synonym of *Tenarea tortuosa* (Woelkerling & al. 1985: 332). However, it was erroneously applied to specimens referable to *L. byssoides* (Woelkerling 1998: 258).

**IA**    *Lithophyllum corallinae* (P. & H. Crouan) Heydrich

Lagoon of Venice: [110, 131, 133, 163 as *Dermatolithon pustulatum* (J. V. Lamouroux) Foslie; 158 as *Titanoderma pustulatum* (J. V. Lamouroux) Nägeli]

The Tremiti Islands: [29; 79 as *Dermatolithon hapolidiooides* (P. & H. Crouan) Foslie; 79, 121 as *D. pustulatum* (J. V. Lamouroux) Foslie]

Gargano: [79, 124 as *Dermatolithon hapolidiooides* (P. & H. Crouan) Foslie]

Brindisi: [28 as *Titanoderma hapolidiooides* (P. & H. Crouan) J. H. Price, D. M. John & Lawson, as *T. litorale* (Suneson) Cormaci & G. Furnari]

Cape Otranto: [77 as *Dermatolithon hapolidiooides* (P. & H. Crouan) Foslie]

NOTE: We follow the synonymy proposed by Woelkerling & al. (1998)

**IA**    *Lithophyllum racemus* (Lamarck) Foslie

Adriatic: [7, 9] - Northern Adriatic: [13] - Gulf of Trieste: [8, 77, 79, 84, 112] - Miramare (Trieste): [16]

Gulf of Venice: [115; 168 as *Lithothamnion crassum*; 56 as *L. racemus* (Lamarck) Areschoug]

The Tremiti Islands: [77, 79, 121] - Gargano: [79, 124]

NOTE: We follow both Basso & al. (1996: 284-286) and Woelkerling & al. (1998: 133) in considering *L. crassum* as a synonym of this taxon

**Abt**    *Lithophyllum trochanter* (Bory) H. Huvé ex Woelkerling

Adriatic: [9, 10 as *Lithophyllum trochanter* (Bory) H. Huvé (comb. inval.); 7 as *Goniolithon byssoides* (Lamarck) Foslie (misapplied name); 9 *Titanoderma (Lithophyllum) byssoides* (Lamarck) Y. M. Chamberlain & Woelkerling (misapplied name)]

Cape Otranto: [77, 89 as *Lithophyllum trochanter* (Bory) H. Huvé (comb. inval.)]

The Tremiti Islands: [79, 121 as *Lithophyllum trochanter* (Bory) H. Huvé (comb. inval.); 7 as *Goniolithon byssoides* (Lamarck) Foslie (misapplied name)]

NOTE: The combination *L. trochanter* proposed by Huvé (1963: 150), is invalid since the basionym was not cited (Art. 33.2 of I. C. B. N., Greuter & al. 1994). Woelkerling (1998: 259) validated the combination.

Although both *Goniolithon byssoides* and *Titanoderma byssoides* are nomenclatural synonyms of *Lithophyllum byssoides* (Woelkerling & al. 1998: 131), both the records of *Goniolithon byssoides* and of *Titanoderma byssoides* made by Bressan (1974) [7] and by Bressan & Babbini-Benussi (1995) [9] respectively, are here referred to as *Lithophyllum trochanter* for the following reasons: i. the species described and illustrated by Bressan (1974) as *Goniolithon byssoides* corresponds to *Lithophyllum trochanter* (see Bressan, op. cit.: page 104 and fig. 29); ii. the taxon to which Bressan & Babbini-Benussi (1995: 376) refer, i.e. *Titanoderma byssoides* (Lamarck) Y. M. Chamberlain & Woelkerling in Woelkerling (1988: 260), is based on the neotype of *Nullipora byssoides* Lamarck (1801: 574) chosen by Woelkerling (1983: 177). Such a neotype, however, according to Woelkerling (1998: 261) shows anatomical features concordant with the lectotype of *L. trochanter*. *Nullipora byssoides* Lamarck (basionym of *Lithophyllum byssoides*) was later lectotypified by Woelkerling (1998: 259).

**Ab**    *Lithothamnion coralliooides* (P. & H. Crouan) P. & H. Crouan

Northern Adriatic: [13]

Adriatic: [7 as *Lithothamnion coralliooides* P. & H. Crouan]

Gulf of Trieste: [79 as *Lithothamnion coralliooides* P. & H. Crouan]

Apulia: [5 as *Lithothamnion coralliooides* P. & H. Crouan]

**Abt**    *Lithothamnion crispatum* Hauck

Adriatic: [9]

NOTE: According to Woelkerling & al. (1998: 133) both status and disposition of this taxon is uncertain.

**Ab**    *Lithothamnion fasciculatum* (Lamarck) Areschoug

Adriatic: [9 as *Lithophyllum fasciculatum* (Lamarck) Foslie]

Gulf of Venice: [115]

NOTE: According to Woelkerling (1998: 269), *Millepora fasciculata* Lamarck, the basionym of *L. fasciculatum* is referable to the genus *Lithothamnion*.

**At**    *Lithothamnion philippii* Foslie

Adriatic: [7, 9] - Gulf of Trieste: [77, 79, 112] - The Tremiti Islands: [79]

NOTE: According to Woelkerling & al. (1998: 139) both status and disposition of this taxon is uncertain.

**Ab**    *Lithothamnion sonderi* Hauck

Adriatic: [9] - Gulf of Trieste: [79]

The Tremiti Islands: [29 *Lithothamnion* cf. *sonderi* Hauck]

**M**    *Lithothamnion valens* Foslie

Lamouroux (misapplied name)]

NOTE: On the basis of the paper by Furnari & Serio (1993), Mediterranean records of *Laurencia pinnatifida* [= *Osmundea pinnatifida* (Hudson) Stackhouse] should be referred to as *L. truncata* (= *O. ramosissima*). Consequently, records of *L. pinnatifida* are here referred to *O. ramosissima*. The only confirmed record of *O. pinnatifida* in the Mediterranean Sea is that by Boisset & al. (1995), from the Alboran Sea. We think that also records of *Laurencia pinnatifida* var. *osmundae* should be referred to *Osmundea ramosissima*.

**M** *Osmundea verlaquei* G. Furnari

The Tremiti Islands: [29]

**Ab** *Peyssonnelia armorica* (P. & H. Crouan) Weber Bosse

Gulf of Trieste: [77, 79 as *Cruoriella armorica* P. & H. Crouan; 112 as *Cruoriopsis cruciata* L. Dufour]

The Tremiti Islands: [29; 79, 121 as *Cruoriella armorica* P. & H. Crouan; 111 as *Cruoriopsis cruciata* L. Dufour]

Pianosa Island: [79 as *Cruoriella armorica* P. & H. Crouan; 125 as *Cruoriopsis cruciata* L. Dufour]

Brindisi: [28 as *Cruoriella armorica* P. & H. Crouan]

**Ab** *Peyssonnelia atropurpurea* P. & H. Crouan

Gulf of Trieste: [79; 112 as *Peyssonnelia* cf. *atropurpurea* P. & H. Crouan (*harveyana* auct.?)]

**M** *Peyssonnelia bornetii* Boudouresque & Denizot

Gulf of Trieste: [79]

Ancona: [108 as *Peyssonnelia rosea* C. Agardh (misapplied name); 107 as *P. rosea* J. Agardh (misapplied name)]

The Tremiti Islands: [29; 79, 161] - Gargano: [79] - Brindisi: [28]

NOTE: The specimen identified as *P. rosea* by Pierpaoli [107], is referred to this taxon on the basis of the examination of the herbarium sheet.

The record of *P. rosea* C. Agardh by Pierpaoli (1945: 15) [108] is also considered as a misapplied name for *P. bornetii*.

**M** *Peyssonnelia coriacea* Feldmann

The Tremiti Islands: [29]

**M** *Peyssonnelia crispata* Boudouresque & Denizot

The Tremiti Islands: [29] - Brindisi: [28]

**Ab** *Peyssonnelia dubyi* P. & H. Crouan

Gulf of Trieste: [77, 79; 112 as *Cruoriella dubyi* (P. & H. Crouan) F. Schmitz]

Lagoon of Venice: [39, 158]

The Tremiti Islands: [79, 121; 111 as *Cruoriella dubyi* (P. & H. Crouan) F. Schmitz]

Brindisi: [28] - Cape Otranto: [77]

**Ab** *Peyssonnelia harveyana* P. & H. Crouan ex J. Agardh

Gulf of Trieste: [7, 77, 79 as *Peyssonnelia harveyana* P. & H. Crouan]

The Tremiti Islands: [29; 7, 77, 79, 121 as *Peyssonnelia harveyana* P. & H. Crouan; 91, 111 as *Peyssonnelia* cf. *harveyana* P. & H. Crouan]

Gargano: [7 as *Peyssonnelia harveyana* P. & H. Crouan]

Brindisi: [28]

**At** *Peyssonnelia inamoena* Pilger

Gulf of Trieste: [79] - Gulf of Venice: [160] - The Tremiti Islands: [29] - Brindisi: [28]

**SC** *Peyssonnelia polymorpha* (Zanardini) F. Schmitz

Adriatic: [7] -Gulf of Trieste: [77, 79, 84, 112] - Miramare (Trieste): [67] - Gulf

Northern Adriatic: [13 as *Phymatolithon calcareum* Pallas]  
 Gulf of Trieste: [8, 79 as *Lithothamnion calcareum* (Pallas) Areschoug]  
 Gulf of Venice: [56 as *Lithothamnion polymorphum* (Lamarck) Areschoug]  
 Apulia: [5 as *Lithothamnion calcareum* (Pallas) Areschoug]  
 The Tremiti Islands: [79, 121 as *Lithothamnion calcareum* (Pallas) Areschoug;  
 77 as *L. calcareum* Areschoug]  
 Brindisi: [28]

**IA** *Phymatolithon lenormandii* (Areschoug) W. H. Adey

Adriatic: [9]  
 Gulf of Trieste: [79; 77, 112 as *Lithothamnion lenormandii* (Areschoug) Foslie]  
 Gulf of Venice: [56 as *Melobesia lenormandii* Areschoug]  
 The Tremiti Islands: [29, 79; 121 as *Lithophyllum lenormandii* (Areschoug)  
 Rosanoff; 7, 93, 111 as *Lithothamnion lenormandii* (Areschoug) Foslie]  
 Gargano: [79; 89 as *Lithophyllum lenormandii* (Areschoug) Foslie]  
 Brindisi: [28]

**Ab** *Platoma cyclocarpa* (Montagne) F. Schmitz

Gulf of Trieste: [54, 79, 84, 112; 89a, 89k as *Gymnophlaea furcellata* Kützing;  
 170 as *Nemastoma cyclocarpa* (Montagne) Zanardini]  
 Gulf of Venice: [160; 56 as *Nemastoma cyclocarpa* (Montagne) Zanardini]

NOTE: Athanasiadis (1988: 31) proposed to treat the genus *Platoma* as neuter stating that it apparently derives from the neuter Neo, Hellenic word “τόπλαστωμα”. But, since neither the Greek nor the Latin words are to be found in classical dictionaries, we prefer to treat the genus as feminine, agreeing with Norris & Bucher's (1977: 161) reasoning. Also P. C. Silva suggests to treat that genus as feminine (pers. comm). In fact, he thinks that the name *Platoma* could be a compound name deriving from the Greek word “πλάστος” (flat) and the feminine noun “τομή” (the action of cutting). The Latin ending “ma” should be considered as a rendering of the Greek ending “μη” (Stearns 1995: 256, 257).

**IA** *Pleonosporium borreri* (J. E. Smith) Nägeli

 Brindisi: [27, 28]
- A** *Porphyra atropurpurea* (Oliv.) De Toni  
 Gulf of Trieste: [84, 90, 112; 130 as *Porphyra minor* Zanardini]  
 Gulf of Venice: [51, 168 as *Porphyra minor* Zanardini]  
 Lagoon of Venice: [51, 163; 131 as *Porphyra atropurpurea* (Oliv.) De Toni f. *undulata* Schiffner; 131, 163 as *P. minor* Zanardini]  
 Grado: [150 as *Porphyra atropurpurea* De Toni]  
 Ancona: [107 as *Porphyra atropurpurea* De Toni]  
 Gargano: [124] - Trani: [126]
- NOTE: Since the taxonomy of the genus *Porphyra* is re-assessing (Gargiulo, personal communication), the attribution of records to different species as well as synonymies are tentatively proposed.  
 We follow Gargiulo & al. (1999) in considering *P. atropurpurea*, which according to J. Feldmann (1939: 248, 249) is conspecific with *P. umbilicalis*, as a distinct species.
- A** *Porphyra dioica* J. Brodie & L. M. Irvine  
 Gulf of Trieste: [166 as *Porphyra laciniata* C. Agardh]  
 Lagoon of Venice: [131, 163 as *Wildemania laciniata* (Lightfoot) De Toni]
- NOTE: *P. dioica* was proposed by Brodie & Irvine (1997: 286) to accomodate specimens having the characters of *P. laciniata* sensu Kornmann & Sahling (1991). In fact, combinations under *Porphyra* and *Wildemania* based on *Ulva laciniata* Lightfoot cannot be used since Lightfoot's species is a member of Delesseriaceae and actually represents the basionym of *Erythroglossum laciniatum* (Lightfoot) Maggs & Hommersand.
- A** *Porphyra leucosticta* Thuret  
 Northern Adriatic: [78]  
 Gulf of Trieste: [79, 68, 11; 77 as *Porphyra leucosticta* Thuret f. *mediterranea* Hamel]  
 Gulf of Venice: [79]  
 Lagoon of Venice: [34, 44, 59, 110, 133, 140, 141, 142, 146, 147, 148, 158, 159; 138 as *Porphyra leucosticta*]  
 The Tremiti Islands: [29] - Gargano: [79]
- NOTE: We follow Gargiulo & al. (1999) in considering *P. leucosticta*, which according to De Toni (1897: 17) is conspecific with *P. atropurpurea*, as a distinct species.
- A** *Porphyra linearis* Greville  
 Gulf of Venice: [79] - Lagoon of Venice: [110, 131, 163] - Ancona: [107]

**IP** *Porphyra purpurea* (Roth) C. AgardhGulf of Trieste: [102a as *Porphyra vulgaris* var. *umbilicata*]Gulf of Venice: [168 as *Porphyra coriacea*; 89a, 89i, 166 as *P. coriacea* Zanardini; 102a, 168 as *P. vulgaris*]Lagoon of Venice: [59 as *Porphyra coriacea* Zanardini; 148 as *P. leucosticta* var. *coriacea* Zanardini; 102a as *P. vulgaris*; 166 as *P. vulgaris* C. Agardh]

NOTE: The correct author citation of this species is (Roth) C. Agardh since the proposal put forward by Irvine & Brodie (1997) to conserve the illegitimate name *Ulva purpurea* Roth against the legitimate one *Ulva purpureo-violacea* Roth, was approved at the XVI International Botanical Congress (St Louis, Missouri, 26, 30 July 1999) (Barrie & Greuter 1999).

*Porphyra coriacea* Zanardini is here considered as a synonym of *P. purpurea* on the basis of the statement by Zanardini (1860: 78) that his species corresponded to *P. vulgaris*.

 Gulf of Venice: [79 as *Cystoseira ercegovicii* Giaccone (misapplied name); 95 as *C. discors* (misapplied name); 59 as *C. discors* (C. Agardh) J. Agardh (misapplied name; 50, 57 as *C. discors* (Linnaeus) C. Agardh (misapplied name); 108 as *C. discors* C. Agardh (misapplied name); 168 as *C. discors* var. *paniculata*]  
 Coast of Marche: [157 as *Cystoseira discors* C. Agardh (misapplied name)]  
 Lagoon of Venice: [95 as *Cystoseira discors* var. *paniculata*]  
 Ancona: [108 as *Cystoseira discors* C. Agardh var. *moniliformis* Hauck]  
 Mt Conero: [154 as *Cystoseira discors* (Linnaeus) C. Agardh (misapplied name), as *C. discors* C. Agardh (misapplied name); 79 as *C. ercegovicii* Giaccone (misapplied name)]  
 The Tremiti Islands: [79 as *Cystoseira ercegovicii* Giaccone (misapplied name); 77 as *C. discors* f. *tenuiramosa* Ercegovic; 121 as *C. discors* (Linnaeus) C. Agardh f. *tenuiramosa* Ercegovic]  
 Gargano: [79 as *Cystoseira ercegovicii* Giaccone (misapplied name)]  
 Cape Otranto: [77 as *Cystoseira discors* f. *tenuiramosa* Ercegovic]

NOTE: It is highly improbable that records of both *C. discors* and *C. ercegovicii* refer to the autonym *C. schiffneri* var. *schiffneri*. In fact, the only Italian confirmed records of that taxon, which shows a peculiar habit, are those from “Stagnone di Marsala” (Western coast of Sicily) (Calvo & al. 1979; Cavaliere 1961; Sortino & al. 1981). Thus, the above records are here referred to the most widespread variety “*tenuiramosa*”.

 Cape Otranto: [77, 122 as *Scytesiphon lomentaria* (Lyngbye) Endlicher]

NOTE: Cremades (in Cremades & Pérez-Cirera 1990: 492) correctly proposed for this species the name *S. simplicissimus* (Clemente) Cremades. But, in consideration of the widespread and consistent use of *S. lomentaria* for this species, Pedersen & Kristiansen (1994) proposed the rejection for the basionym *Ulva simplicissima*. This proposal was approved at the XVI International Botanical Congress (St Louis, Missouri, 26-30 July 1999) (Barrie & Greuter 1999) so that *S. lomentaria* is the correct name of this species.

 85 as *Z. collaris*; 59, 128 as *Z. collaris* (C. Agardh) P. & H. Crouan]  
 Miramare (Trieste): [67 as *Zanardinia prototypus* Nardo; 59 as *Spatoglossum  
 spanneri* Meneghinii]  
 Gulf of Venice: [1 as *Zonaria collaris* C. Agardh]  
 Mt Conero: [77 as *Zanardinia prototypus* Nardo]  
 The Tremiti Islands: [29; 77, 79, 121 as *Zanardinia prototypus* Nardo]  
 Gargano: [77, 79 as *Zanardinia prototypus* Nardo]  
 Brindisi: [28 as *Zanardinia prototypus* Nardo]  
 Cape Otranto: [77 as *Zanardinia prototypus* Nardo]

NOTE: This cutleriacean species has been to date commonly quoted as *Zanardinia prototypus* Nardo (1841: 189) or (Nardo) Nardo (1841: 189), considering *Stiffia prototypus* Nardo (1841: 184) as basionym. But, Nardo (1841) at page 189 only stated his intention to rename the genus *Stiffia* Nardo (1834: 677) after Zanardini, being aware of the existence of the genus *Stiffia* Mikan 1820 in the Compositae. Moreover, it should be noted that *Stiffia prototypus* Nardo (1841: 184) is an illegitimate changed name for *Stiffia typus* Nardo (1835: 13) (Silva, pers. comm.). Therefore, Nardo published neither the genus *Zanardinia* nor the species *Zanardinia prototypus*.

The genus *Zanardinia* was published validly by Zanardini (1841: 236) even though by himself accredited to Nardo. At the same page (1841: 236) Zanardini published also the species *Zanardinia prototypus* erroneously accredited to Nardo as well. Such a binomial is however invalid since its protologue included the citation of *Padina omphalodes* Montagne (1838: 277) and *Zonaria collaris* C. Agardh (1820: 127) [= *Lobophora variegata* (J. V. Lamouroux) Womersley] as synonyms. Therefore, it appears that *Stiffia typus* Nardo is the oldest legitimate name applicable

to the type species of the genus *Zanardinia*. Consequently, the following transfer is made:

***Zanardinia typus* (Nardo) G. Furnari comb. nov.**

Bas.: *Stiftia typus* Nardo 1835: 13

 Trani: [126; 126 as *Bryopsis rosa* ("*rosae*") Gaudichaud (misapplied name)]  
 Brindisi: [28]

NOTE: According to De Toni (1889: 432) records of the non-Mediterranean species *B. rosae* from the Adriatic Sea should be referred to *B. plumosa*.

C. Agardh (1824: 179) changed the original orthography of the specific epithet "rosa" (C. Agardh 1823: 450), probably considered as a typographical error, to *rosae*. The last orthography was then used by Naccari (1828: 48), Ardissoni (1886: 157), De Toni (op. cit.), Pignatti (1962b: 36).

- Valli di Comacchio: [83 as *Ulva rigida* C. Agardh (misapplied name)]
- Coast of Marche: [157 as *Ulva lactuca* Linnaeus (misapplied name)]
- Ancona: [153 as *Ulva lactuca* (Linnaeus) Le Jolis (misapplied name); 107 as *U. lactuca* (misapplied name), as *U. lactuca* f. *latissima* (misapplied name), as *U. lactuca* Linnaeus f. *genuina* (misapplied name), as *U. lactuca* var. *cribrosa* (misapplied name)]
- Mt Conero: [154 as *Ulva lactuca* (Linnaeus) Le Jolis (misapplied name), as *U. lactuca* f. *genuina* (Areschoug) Hauck (misapplied name), as *U. lactuca* f. *latissima* (Linnaeus) Le Jolis (misapplied name); 77, 122 as *U. rigida* C. Agardh (misapplied name)]
- Termoli: [114 as *Ulva lactuca* Linnaeus (misapplied name)]
- The Tremiti Islands: [79, 121 as *Ulva rigida* C. Agardh (misapplied name); 77 as *U. rigida* C. Agardh (misapplied name)]
- Trani: [122 as *Ulva rigida* C. Agardh (misapplied name)]
- Gargano: [77, 79 as *Ulva rigida* C. Agardh (misapplied name); 124 as *U. lactuca* Linnaeus (misapplied name)]
- Brindisi: [28 as *Ulva rigida* C. Agardh (misapplied name)]
- Cape Otranto: [77, 122 as *Ulva rigida* C. Agardh (misapplied name), as *U. lactuca* var. *laciniata* (Wulfen) J. Agardh (misapplied name)]

NOTE: The above records of both *U. lactuca* and *U. rigida* (infraspecific taxa and synonyms included) are here tentatively referred to *U. laetevirens*. In fact, it is highly probable that the name *U. lactuca* (a species not confirmed from the Mediterranean Sea) was mostly applied to specimens referable to *U. laetevirens* to which, according to Phillips (1998), Mediterranean records of *U. rigida* should also be referred.

### Incertae sedis

***Ethelia*** sp.

The Tremiti Islands: [111] - Pianosa Island: [125]

***Gongrosira malardii*** (Wille) Printz

The Tremiti Islands: [161]

***Myriogramme distromatica*** Boudouresque

The Tremiti Islands: [29]

NOTE: Even though in the title of his paper Boudouresque (1971) quoted this species as *M. distromatica* (Rodriguez) comb. nov., since *Nitophyllum distromaticum* Rodriguez is a *nomen nudum*, he made a description of a new species rather than a new combination. According to Art. 37.3 of I. C. B. N. as modified at the XVI International Botanical Congress (St Louis, Missouri, 26-30 July 1999) (Barrie &

Greuter 1999), the species was validly described since two specimens that are part of a single gathering were indicated as Holotype.

Because of the occurrence of a single parietal, plate-like, fenestrate plastid per cell, the species does not seem to fall within the circumscription of the genus *Myriogramme* as recently defined by Hommersand & Fredericq (1997a,b). In absence of fertile specimens, the generic position of this species remains uncertain.

#### ***Nitophyllum tristromaticum* Rodriguez ex Mazza**

The Tremiti Islands: [29] - Brindisi: [28]

NOTE: Boudouresque in Boudouresque & al. (1984: 49) combined this species under the genus *Myriogramme* as *M. tristromatica* (J. J. Rodr. ex Mazza) Boudouresque but providing no taxonomic reasons. Since the species shows a single parietal, plate-like plastid per cell (G. Furnari unpublished observations), it does not fall within the circumscription either of the genus *Nitophyllum* or of the genus *Myriogramme* [the last recently defined by Hommersand & Fredericq (1997)]. Therefore, in absence of fertile specimens, the generic position of this species remains uncertain.

#### ***Pilinia rimosa* Kützing**

Gulf of Manfredonia: [79] - Gargano: [79, 124]

#### ***Schmitziella endophloea* Bornet & Batters**

Gulf of Trieste: [79]

NOTE: Woelkerling & Irvine (1982) stated that this taxon, commonly considered as belonging to Corallinaceae, should probably be a member of Acrochaetiaceae. Afterwards, Pueschel (1989: 634) considered it as probably belonging to Gigartinales.

### **Taxa inquirenda**

#### RHODOPHYTA

##### ***Acrochaetium hallanicum* (Kylin) Hamel f. *armoricum* Hamel**

Gulf of Trieste: [77, 84, 112, 151] - Mt Conero: [77]

##### ***Acrochaetium lenormandii* (Suhr ex Kützing) Nügeli**

Gulf of Trieste: [79 as *Acrochaetium lenormandii* (Suhr) Nügeli]

##### ***Acrochaetium pallens* (Zanardini) Nügeli**

Gulf of Trieste: [79] - The Tremiti Islands: [121]

##### ***Acrochaetium virgatum* (Harvey) Batters f. *luxurians* (J. Agardh) Collins**

Gulf of Trieste: [79 as *Acrochaetium virgatum* var. *luxurians* (J. Agardh) Rosenvinge]

Gulf of Venice: [79] - Lagoon of Venice: [131, 163]

***Chantransia flagellifera*** Reinsch

Gulf of Trieste: [51]

***Gelidium secundatum*** Zanardini ex KützingAncona: [107 as *Gelidium secundatum* Zanardini]***Gelidium venetum*** Schiffner

Gulf of Venice: [79] - Lagoon of Venice: [131, 163]

***Laurencia nana*** (C. Agardh) Greville

Gulf of Trieste: [106; 102a as *Chondria nana*; 89a as *Lomentaria pusilla* De Notaris ex Kützing (*nom. illeg.*)  
Lagoon of Venice: [59 as *Laurencia nana* Zanardini ?]

NOTE: According to J. Agardh (1852 [1851-1863]: 756) *Chondria nana* C. Agardh (1827: 643), the basionym of *Laurencia nana* (C. Agardh) Greville (1830: iii), could be a form of *L. paniculata* (C. Agardh) J. Agardh (1852: 755). But, since it was not possible to examine the type of *C. nana* because of it was not found in C. Agardh's Herbarium (Per Lassen, pers. comm.), due to the complexity of the taxonomy of the *Laurencia* complex, we prefer to consider this taxon as *inquirendum*.

We think that the attribution of *L. nana* to Zanardini with doubt, made by De Toni & Levi (1888: 63), is an error since Zanardini never described a species with such a name.

*Lomentaria pusilla* De Notaris ex Kützing (1849: 865) was superfluous when published and hence illegitimate because its protologue included the citation of *Chondria nana* C. Agardh.

***Lithophyllum polycarpum*** Zanardini

Adriatic: [9]

***Lithophyllum tarentinum*** Mastorilli

Apulia: [9]

***Lithothamnion validum*** (Foslie) FoslieApulia: [9 as *Lithothamnion validum* Foslie]***Lomentaria implexa* auct.?**

Lagoon of Venice: [59]

***Melobesia melobesioides*** (Foslie) Me. LemoineApulia: [9 as *Melobesia melobesioides* Foslie]***Melobesia polycarpa*** Zanardini

Adriatic: [9]

***Melobesia solmsiana*** Falkenberg

Gulf of Trieste: [77, 84, 112]

Pianosa Island: [125 as *Melobesia callithamnioides* Falkenberg]

NOTE: *M. solmsiana* was proposed by Falkenberg (1901: 109) as a new name for *M. callithamnioides* Falkenberg non Crouan published by Solms-Laubach (1881: 11, pl. I, figs 9, 12, 13), a later homonym of *M. callithamnioides* (P. & H. Crouan) Falkenberg (1879: 265) [= *Pneophyllum confervicola* (Kützing) Y. M. Chamberlain]. According to Chamberlain (in Irvine & Chamberlain 1994: 117), the taxonomic placement of Solms-Laubach's *M. callithamnioides* (= *M. solmsiana*) is uncertain.

***Nemastoma constrictum*** Ercegovic

Gulf of Trieste: [79]

***Plocaria virescens*** Zanardini

Gulf of Venice: [168]

***Polysiphonia beginotii*** Schiffner

Gulf of Venice: [79] - Lagoon of Venice: [110, 131, 163]

***Polysiphonia castagnei*** Kützing

Mt Conero: [77, 79] - Gargano: [77, 79]

***Polysiphonia opaca*** (C. Agardh) Moris & De Notaris var. ***intricata*** (C. Agardh) ZanardiniGulf of Trieste: [166 as *Polysiphonia opaca* (C. Agardh) De Notaris var. *intricata* (C. Agardh) Zanardini]***Polysiphonia pulvinata*** (Roth) SprengelGulf of Trieste: [59 as *Polysiphonia pulvinata* (C. Agardh) J. Agardh; 79 as *Polysiphonia pulvinata* J. *Conferva ? confervicola* Zanardini [*nom. illeg.*]

Gulf of Venice: [168] - Lagoon of Venice: [59]

NOTE: *C. ? confervicola* Zanardini (1847: 76) is illegitimate since it is a later homonym of *C. confervicola* Dillwyn (1802: pl. 8) a name of uncertain application.

*Conferva densissima* (Kützing) Zanardini

Gulf of Venice: [168]

*Conferva lanosa* Roth

Lagoon of Venice: [166]

*Conferva monilina* Zanardini

Gulf of Venice: [168]

*Conferva refracta* Roth [*nom. inval.*]

Lagoon of Venice: [166]

NOTE: *C. refracta* Roth was superfluous when published (Roth 1800: 193) and hence illegitimate because its protologue included the citation of *C. hirta* Müller in Vahl (1787: 7), a name of uncertain application.

*Conferva subdivisa* Roth

Lagoon of Venice: [166; 102a as *Conferva subdivisa*]

*Derbesia sirenarum* Funk

The Tremiti Islands: [121]

Pianosa Island: [125 as *Derbesia cf. sirenarum* Funk]

*Enteromorpha complanata* Kützing var. *crispa* Kützing

Gulf of Venice: [168 as *Enteromorpha complanata* var. *crispa*]

*Enteromorpha complanata* Kützing var. *ramulosa* Kützing

Gulf of Venice: [168 as *Enteromorpha complanata* var. *ramulosa*]

*Enteromorpha fulvescens* Schiffner [*nom. illeg.*]

Lagoon of Venice: [131]

NOTE: Later homonym of *E. fulvescens* (C. Agardh) Greville (1830: lxvi).

***Enteromorpha intestinalis* Link var. *subsimplex***

Ancona: [107]

***Enteromorpha marginata* J. Agardh var. *longior* Kützing**

Gulf of Venice: [79 as *Blidingia marginata* (J. Agardh) P. J. Dangeard ex Bliding var. *longior* Kützing]  
Lagoon of Venice: [131]

***Enteromorpha minima* Nägeli ex Kützing var. *capillaris* Schiffner**

Lagoon of Venice: [131]

***Enteromorpha minima* Nägeli ex Kützing [var. *capillaris*] f. *elongata* Schiffner**

Lagoon of Venice: [131 as *Enteromorpha minima* Nägeli var. *capillaris* Schiffner f. *elongata* Schiffner]

***Enteromorpha minima* Nägeli ex Kützing var. *elongata* Schiffner**

Lagoon of Venice: [131]

***Enteromorpha pallescens* Schiffner**

Gulf of Trieste: [128]

***Enteromorpha prolifera* (O. F. Müller) J. Agardh var. *crispatissima* Schiffner**

Lagoon of Venice: [131]

***Enteromorpha prolifera* (O. F. Müller) J. Agardh var. *guttulata* Schiffner**

Lagoon of Venice: [131]

***Enteromorpha prolifera* (O. F. Müller) J. Agardh var. *setosa* Schiffner**

Lagoon of Venice: [131]

***Enteromorpha prolifera* (O. F. Müller) J. Agardh var. *tenuis* Schiffner**

Lagoon of Venice: [131]

***Enteromorpha prolifera* (O. F. Müller) J. Agardh [var. *tenuis*] f. *capillaris* Schiffner**

Lagoon of Venice: [131]

***Enteromorpha prolifera* (O. F. Müller) J. Agardh [var. *tenuis*] f. *ramosa* Schiffner**

Lagoon of Venice: [131]

***Enteromorpha prolifera* (O. F. Müller) J. Agardh [var. *tenuis*] f. *setulosa* Schiffner**

Lagoon of Venice: [131]

***Enteromorpha prolifera* (O. F. Müller) J. Agardh var. *trichoclada* Schiffner**

Lagoon of Venice: [131]

***Enteromorpha tubulosa* Kützing var. *ramosa* Schiffner**

Lagoon of Venice: [131]

***Enteromorpha verrucosa* auctorum**

Gulf of Trieste: [59]

***Ulothrix brunnnthaleri* Schussnig**

Gulf of Trieste: [79]

***Ulothrix flexuosa* Kornmann**

*Ulothrix flexuosa* Schussnig

Gulf of Trieste: [79]

***Ulothrix longicauda* Schussnig**

Gulf of Trieste: [79]

***Ulva lactuca* (Linnaeus) Le Jolis var. *rosulans* Schiffner**

Gulf of Trieste: [128] - Lagoon of Venice: [131]

***Ulva subulata* (Wulfen) Naccari**

Gulf of Trieste: [102a *Ulva subulata*; 77, 79, 112 as *Urospora lactea* (Schousboe) Børgesen]

**Taxa excludenda**

The following records are probably due to misidentifications since refer to species not present in the Mediterranean Sea or, although recorded from that Sea (i.e. *Cystoseira abies-marina*), not occurring in the Adriatic Sea (Ribera & al. 1992).

**RHODOPHYTA**

- IA**    ***Aglaothamnion hookeri*** (Dillwyn) Maggs & Hommersand  
          Lagoon of Venice: [158]  
          NOTE: According to Curiel (pers. comm.), the attribution of specimens from the Lagoon of Venice to this species, is due to a misidentification.
- Ab**    ***Aglaothamnion roseum*** (Roth) Maggs & L'Hardy-Halos  
          Gulf of Venice: [168 as *Callithamnion divaricatum* (Kützing) Zanardini]  
          Lagoon of Venice: [59 as *Callithamnion roseum* (Roth) Harvey]
- IA**    ***Ahnfeltia plicata*** (Hudson) Fries  
          Gulf of Venice: [166 as *Gigartina plicata* J. V. Lamouroux]
- Ab**    ***Chondrus crispus*** Stackhouse  
          Gulf of Trieste: [68 as *Chondrus crispus* (Linnaeus) Lyngbye]
- IA**    ***Corallina muscoides*** Kützing  
          Apulia: [9]
- Ab**    ***Dumontia incrassata*** (O. F. Müller) Lamouroux  
          Gulf of Trieste: [59 as *Dumontia filiformis* (O. F. Müller) Greville]
- IP**    ***Gelidiopsis intricata*** (C. Agardh) Vickers  
          Lagoon of Venice: [59 as *Gelidium intricatum* (C. Agardh) Kützing]
- Ab**    ***Gracilaria divergens*** (C. Agardh) J. Agardh  
          Gulf of Trieste: [3d]  
          Gulf of Venice: [1 as *Hypnea divergens* (C. Agardh) J. Agardh; 168 as *Plocaria divergens* (C. Agardh) Zanardini (*nom. illeg.*)]  
          Lagoon of Venice: [52, 131, 163] - Ancona: [108]  
          NOTE: *P. divergens* (C. Agardh) Zanardini (1847: 198) is illegitimate since it is a later homonym of *P. divergens* (C. Agardh) Montagne (1846b: 72).
- Ab**    ***Heterosiphonia plumosa*** (J. Ellis) Batters  
          Gulf of Venice: [56 as *Dasya coccinea* (Hudson) C. Agardh]  
          Lagoon of Venice: [148 as *Dasya coccinea* (Hudson) C. Agardh]
- IP**    ***Lithothamnion australe*** Foslie  
          Apulia: [9]
- Ab**    ***Polyides rotundus*** (Hudson) Gaillon  
          Ancona: [107 as *Polyides lumbricalis*]

## PHAEOPHYTA

- IP** *Cystophora platylobium* (Mertens) J. Agardh  
Trani: [126]
- IA** *Cystoseira abies-marina* (S. G. Gmelin) C. Agardh  
Gulf of Trieste: [50; 89a, 89f as *Phylloacantha pinnata* Kützing]  
Gulf of Venice: [50; 94, 168 as *Cystoseira granulata* var. *turneri*]  
Trani: [126]

## CHLOROPHYTA

- AP** *Cladophora catenata* (Linnaeus) Kützing  
Gulf of Venice: [102a, 168 as *Conferva catenata*]  
Lagoon of Venice: [102a as *Conferva catenata*]  
Ancona: [49 as *Cladophora catenata* (C. Agardh) Ardisson]
- CBA** *Cladophora subsimplex* Kützing  
Lagoon of Venice: [163, 131]
- SC** *Derbesia marina* (Lyngbye) Solier  
The Tremiti Islands: [77 as *Halicystis stadio ovalis* (Lyngbye) Areschoug]  
Cape Otranto: [77 as *Halicystis stadio ovalis* (Lyngbye) Areschoug]

*Nomina nuda*

The following quotations refer to taxa not described in the papers in which they were quoted.

## RHODOPHYTA

- Ceramium affine* Zanardini  
Lagoon of Venice: [59]  
NOTE: De Toni & Levi (1888b: 41) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label.
- Ceramium barbatum* Kützing [var. *minus* Schiffner] f. *nanum* Schiffner  
Lagoon of Venice: [131]
- Ceramium breviarticulatum* Zanardini  
Lagoon of Venice: [59]  
NOTE: De Toni & Levi (1888b: 42) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label.
- Ceramium caespitosum* Zanardini [not Roth]  
Lagoon of Venice: [59]  
NOTE: De Toni & Levi (1888b: 42) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label. It should be noted the existence of the earlier homonym *C. caespitosum* Roth (1797: 194), a name of uncertain application.
- Ceramium ciliatum* [var. *diaphanum* (Kützing) Schiffner] f. *nanum* Schiffner  
Lagoon of Venice: [131]
- Ceramium elongatum* Zanardini [not Lyngbye]  
Lagoon of Venice: [59]

NOTE: De Toni & Levi (1888b: 42) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label. It should be noted the existence of the earlier homonym *C. elongatum* Lyngbye (1819: 117) [= *Polysiphonia elongata* (Hudson) Sprengel].

***Ceramium inflatum*** Zanardini

Lagoon of Venice: [59]

NOTE: De Toni & Levi (1888b: 43) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label.

***Ceramium obscurum*** Zanardini

Lagoon of Venice: [59]

NOTE: De Toni & Levi (1888b: 43) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label.

***Ceramium pilosum*** Zanardini

Lagoon of Venice: [59]

***Ceramium pilosum***

Gulf of Venice: [102a] - Lagoon of Venice: [102a]

NOTE: De Toni & Levi (1888b: 43) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label. It should be noted the existence of the earlier homonym *C. pilosum* (Roth) Naccari (1828: 58) [= *Ceramium ciliatum* (J. Ellis) Ducluzeau].

***Ceramium pseudostrictum*** Schiffner f. *majus* ("major") Schiffner

Lagoon of Venice: [131]

***Ceramium pseudostrictum*** Schiffner f. *minus* ("minor") Schiffner

Lagoon of Venice: [131]

***Ceramium pseudostrictum*** Schiffner f. *nanum* ("nana") Schiffner

Lagoon of Venice: [131]

***Ceramium rosarium*** Meneghini

Lagoon of Venice: [59]

NOTE: De Toni & Levi (1888b: 43) attributed this species to Meneghini on the basis of the Zanardini's herbarium sheet label.

***Ceramium strictum*** Greville & Harvey f. *nanum* Schiffner

Lagoon of Venice: [131]

***Chondria dasypylla*** var. *piriclada* Schiffner f. *gracilis* Schiffner

Lagoon of Venice: [131]

***Chondriopsis subtilis*** Zanardini [not (Kützing) Piccone]

Gulf of Trieste: [59]

NOTE: De Toni & Levi (1888b: 45) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label. It should be noted the existence of the earlier homonym *C. subtilis* (Kützing) Piccone (1884: 52) [= *Chondria capillaris* (Hudson) Wynne].

***Chylocladia clavellosa*** (Turner) Greville var. *conferta* Schiffner

Lagoon of Venice: [131]

***Chylocladia uncinata*** Meneghini f. *major* Schiffner

Lagoon of Venice: [131]

***Dasya elegans*** (G. Martens) C. Agardh var. *ramosissima* Schiffner

Lagoon of Venice: [131]

***Dasya punicea* f. *major*** Schiffner

Lagoon of Venice: [131]

***Gastroclonium kaliforme*** (Goodenough & Woodward) Ardisson f. *nanum* Schiffner

Lagoon of Venice: [131]

***Gelidium affine*** Schiffner f. *laxior* Schiffner

Lagoon of Venice: [131]

***Laurencia obtusa*** (Hudson) J. V. Lamouroux var. *pyramidalis* ZanardiniGulf of Venice: [168] as *Laurencia obtusa* Lamouroux var. *pyramidalis* (Bory) Zanardini]

NOTE: *L. obtusa* var. *pyramidalis* Zanardini (1847: 20) is an intended new combination based on *L. pyramidalis* Bory that, however, being a *nomen nudum*, cannot be transferred from specific to infraspecific level. Since no description was given by Zanardini, *L. obtusa* var. *pyramidalis* is a *nomen nudum* as well.

***Liagora minor*** Zanardini

Gulf of Trieste: [59]

NOTE: De Toni & Levi (1888b: 65) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label.

***Lomentaria corymbosa*** Zanardini

Lagoon of Venice: [59]

NOTE: De Toni & Levi (1888b: 65) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label.

***Myriogramme unistromatica*** Coppejans

The Tremiti Islands: [29]

NOTE: *M. unistromatica*, even though illustrated by Coppejans (1983, pls. 233-235), is a *nomen nudum* since requirements of both Art. 36.2 and Art. 37.1 of I.C.B.N. (Greuter & al. 1994) were not fulfilled. It should be noted that, because of the occurrence of a single parietal, plate-like, lobed plastid per cell, Coppejans' specimens do not seem to fall within the circumscription of the genus *Myriogramme* as recently defined by Hommersand & Fredericq (1997a, b). In absence of tetrasporic as well as female fertile specimens, the generic position of this species remains uncertain.

***Polysiphonia confervoides*** Zanardini

Gulf of Trieste: [59]

NOTE: De Toni & Levi (1888b: 74) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label.

***Polysiphonia elegans*** Zanardini

Lagoon of Venice: [59]

NOTE: De Toni & Levi (1888b: 74) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label.

***Polysiphonia leptoclonia*** Zanardini

Lagoon of Venice: [59]

***Polysiphonia megartha*** Zanardini

Gulf of Venice: [59] - Lagoon of Venice: [59]

NOTE: De Toni & Levi (1888b: 76) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label.

***Polysiphonia piligera*** Zanardini

Lagoon of Venice: [59]

NOTE: De Toni & Levi (1888b: 77) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label.

***Polysiphonia purpurata*** Zanardini

Gulf of Trieste: [59]

NOTE: De Toni & Levi (1888b: 77) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label.

***Porphyra atropurpurea*** (Oliv.) De Toni f. ***genuina*** Schiffner

Lagoon of Venice: [131]

PHAEOPHYTA

***Dictyota dichotoma*** (Hudson) J. V. Lamouroux var. ***genuina*** Schiffner

Lagoon of Venice: [131]

***Dictyota dichotoma*** (Hudson) J. V. Lamouroux [var. ***genuina*** Schiffner] f. ***angustior*** Schiffner

Lagoon of Venice: [131]

***Ectocarpus acicularis*** Zanardini

Lagoon of Venice: [59]

NOTE: De Toni & Levi (1888b: 106) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label.

***Ectocarpus cornigerus*** Meneghini

Lagoon of Venice: [59]

NOTE: De Toni & Levi (1888b: 107) attributed this species to Meneghini on the basis of the Zanardini's herbarium sheet label.

***Ectocarpus fuscatus*** Zanardini f. ***nanus*** ("*nana*") Schiffner

Lagoon of Venice: [131]

***Ectocarpus glomeratus*** Zanardini

Lagoon of Venice: [59]

NOTE: De Toni & Levi (1888b: 107) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label. It should be noted the existence of the earlier homonym *E. glomeratus* Thuret in Le Jolis (1863: 76) (= *E. fasciculatus* Harvey).

***Ectocarpus patens*** Zanardini

Lagoon of Venice: [59]

NOTE: De Toni & Levi (1888b: 108) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label. It should be noted the existence of the earlier homonym *E. patens* Kützing (1845: 235) [= *E. siliculosus* (Dillwyn) Lyngbye var. *crassus* (Kjellman) Gallardo].

***Ectocarpus scoparius*** Meneghini

Lagoon of Venice: [59]

NOTE: De Toni & Levi (1888b: 109) attributed this species to Meneghini on the basis of the Zanardini's herbarium sheet label.

***Ectocarpus secundatus*** Zanardini

Lagoon of Venice: [59]

NOTE: De Toni & Levi (1888b: 109) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label. It should be noted the existence of the earlier homonym *E. secundatus* Suhr (1840: 279) [= *Hincksiagranulosa* (J. E.

Smith) P. C. Silva].

*Ectocarpus siliculosus* Kützing (*nec alior*) f. *typicus* ("typica") Schiffner

Lagoon of Venice: [131]

*Fucus virsoides* C. Agardh f. *subemersus* Schiffner

Coast of Marche: [157]

*Fucus virsoides* C. Agardh var. *subemersus* Schiffner

Ancona: [107-108]

*Fucus virsoides* (Donati) J. Agardh var. *subnudus* ("subnuda") Schiffner

Lagoon of Venice: [131]

## CHLOROPHYTA

*Bryopsis balbisiana* var. *divaricata* Zanardini

Gulf of Venice: [168]

*Bryopsis duplex* De Notaris f. *genuina* Schiffner

Lagoon of Venice: [131]

*Bryopsis duplex* f. *luxurians* Schiffner

Lagoon of Venice: [131]

*Bryopsis plumosa* [var. *ramellosa* Schiffner] f. *genuina* Schiffner

Lagoon of Venice: [131]

*Bryopsis plumosa* [var. *ramellosa* Schiffner] f. *genuina-major* Schiffner

Lagoon of Venice: [131]

*Bryopsis plumosa* var. *simpliciuscula* Zanardini

Gulf of Venice: [168]

*Cladophora brachyclona* Montagne f. *genuina* Schiffner

Lagoon of Venice: [131]

*Cladophora crystallina* (Roth) Kützing [var. *patula* Schiffner] f. *laxa* Schiffner

Lagoon of Venice: [131]

*Cladophora fusescens* Kützing f. *typica* Schiffner

Lagoon of Venice: [131]

*Cladophora penicillata* Kützing [var. *gracilis* Schiffner] f. *genuina* Schiffner

Lagoon of Venice: [131]

*Cladophora ruchingeri* Kützing var. *elongata* Schiffner

Lagoon of Venice: [131]

*Cladophora ruchingeri* Kützing f. *typica* Schiffner

Lagoon of Venice: [131]

*Cladophora rudolphiana* (C. Agardh) Harvey f. *genuina* Schiffner

Lagoon of Venice: [131]

*Cladophora subnitida* Schiffner f. *aegagropila* Schiffner

Lagoon of Venice: [131]

*Cladophora subnitida* Schiffner f. *minus-elongata* Schiffner

Lagoon of Venice: [131]

*Conferva coriacea* Zanardini [not Wulfen]

Gulf of Trieste: [59]

NOTE: De Toni & Levi (1888b: 101) attributed this species to Zanardini on the basis of the Zanardini's herbarium sheet label. It should be noted the existence of the earlier homonym *C. coriacea* Wulfen (1803: 9), a fresh-water alga.

***Enteromorpha compressa*** (Linnaeus) Greville var. ***genuina*** Schiffner

Lagoon of Venice: [131]

***Enteromorpha compressa*** (Linnaeus) Greville [var. ***torta*** Schiffner] f. ***valde-elongata***

Schiffner

Lagoon of Venice: [131]

***Enteromorpha crinita*** (Roth) J. Agardh f. ***latrix*** Schiffner

Lagoon of Venice: [131]

***Enteromorpha crinita*** (Roth) J. Agardh f. ***rothiana*** Schiffner

Lagoon of Venice: [131]

***Enteromorpha intestinalis*** (Linnaeus) Nees [var. ***cornucopiae*** Lyngbye] f. ***bullosa***

Schiffner

Lagoon of Venice: [131 as *Enteromorpha intestinalis* (Linnaeus) Link var. *cornucopiae* Lyngbye f. *bullosa* Schiffner]

***Enteromorpha intestinalis*** (Linnaeus) Nees var. ***genuina*** Schiffner

Lagoon of Venice: [131 as *Enteromorpha intestinalis* (Linnaeus) Link var. *genuina* Schiffner]

***Enteromorpha lingulata*** J. Agardh var. ***genuina*** Schiffner

Lagoon of Venice: [131]

***Enteromorpha linza*** (Linnaeus) J. Agardh f. ***minor*** Schiffner

Lagoon of Venice: [131]

***Enteromorpha minima*** Nägeli var. ***typica*** Schiffner

Lagoon of Venice: [131]

NOTE: Schiffner in Schiffner & Vatova (1937) quoted this taxon in the legend of the fig. 6 of Tab. XXV as f. "genuina".

***Enteromorpha minima*** Nägeli var. ***ramosa*** Schiffner

Lagoon of Venice: [131]

***Enteromorpha prolifera*** (O. F. Müller) J. Agardh [var. ***setosa*** Schiffner] f. ***subsimplex***

Schiffner

Lagoon of Venice: [131]

***Enteromorpha prolifera*** (O. F. Müller) J. Agardh [var. ***tenuis*** Schiffner] f. ***supraeramosa***

Schiffner

Lagoon of Venice: [131]

***Enteromorpha tubulosa*** Kützing [var. ***vermiculata*** Schiffner] f. ***tenuis*** Schiffner

Lagoon of Venice: [131]

### Taxa grouped per geographic regions

T.i = *Taxon inquirendum*

### FRIULI VENEZIA GIULIA

Localities from this area quoted in the catalogue: Gulf of Trieste, Miramare, Monfalcone, Grado.

The flora consists of 470 species: 284 Rhodophyta (17 taxa inquirenda included), 96 Phaeophyta (2 taxa inquirenda included), 89 Chlorophyta (10 taxa inquirenda included), 1 Incertae sedis.

#### RHODOPHYTA

T.i. <i>Acrochaetium hallanicum</i> f. <i>armoricum</i>	<i>Balliella cladoderma</i>

## MOLISE

Localities from this area quoted in the catalogue: Termoli.

The flora consists of 55 species: 37 Rhodophyta, 10 Phaeophyta, 8 Chlorophyta.

### RHODOPHYTA

- Aglaothamnion tenuissimum*  
var. *tenuissimum*
- Bangia atropurpurea*
- Boergesenella fruticulosa*
- Callithamnion corymbosum*
- Ceramium bertholdii*
- Ceramium secundatum*
- Ceramium siliquosum*  
var. *siliquosum*
- Chondracanthus acicularis*
- Chondracanthus teedei*
- Chondria capillaris*
- Chondria dasypylla*
- Chondrophycus papillosum*
- Chylocladia verticillata*
- Corallina elongata*
- Dasya rigidula*
- Erythrotrichia carneia*
- Erythrotrichia reflexa*
- Gelidium spathulatum*
- Gelidium spinosum* var. *spinulosum*
- Gracilaria bursa-pastoris*
- Gracilaria corallincola*
- Halopithys incurva*
- Herposiphonia secunda* var. *secunda*
- Herposiphonia secunda* var. *tenella*
- Hydrolithon farinosum*  
var. *farinosum*
- Jania rubens*  
var. *rubens*
- Laurencia paniculata*
- Melobesia membranacea*

- Nemalion helminthoides*
- Osmundea ramosissima*
- Polysiphonia breviarticulata*
- Polysiphonia opaca*
- Pterocladiella capillacea*
- Rhodophyllis divaricata*
- Rhodymenia ardissoniae*
- Rytiphlaea tinctoria*
- Wrangelia penicillata*

### PHAEOPHYTA

- Acinetospora crinita*
- Cystoseira compressa*
- Cystoseira crinita*
- Dictyopteris polypodioides*
- Dictyota dichotoma* var. *dichotoma*
- Ectocarpus siliculosus* var. *arctus*
- Nemacystus flexuosus* var. *giraudyi*
- Padina pavonica*
- Sargassum acinarium*
- Stylocaulon scorpiarium*

### CHLOROPHYTA

- Blidingia marginata*
- Bryopsis duplex*
- Cladophora laetevirens*
- Cladophora lehmanniana*
- Enteromorpha compressa*
- Enteromorpha linza*
- Enteromorpha muscoides*
- Ulva laetevirens*

## APULIA

Localities from this area quoted in the catalogue: Lagoon of Lesina, Gargano, Gulf of Manfredonia, Trani, Bari, Brindisi, Cape Otranto.

The flora consists of 356 species: 217 Rhodophyta (9 taxa inquirenda included), 63 Phaeophyta, 64 Chlorophyta, 2 Incertae sedis.

### RHODOPHYTA

- Acanthophora nayadiformis*
- Acrodiscus vidovichii*

- Acrosorium venulosum*
- Aglaothamnion tenuissimum* var. *tenuissimum*

<i>Aglaothamnion tenuissimum</i> var. <i>mazoyeriae</i>	<i>Corallina officinalis</i>

*Zanardinia typus* (Nardo) G. Furnari **comb. nov.**

### Acknowledgements

We thank Dr Ester Cecere of the "Istituto Sperimentale Talassografico" of C. N. R., Taranto (Italy), for the revision of Pierpaoli's Herbarium held at "Laboratorio di Biologia Marina" of Porto Cesareo (near Lecce, Italy). We also thank Prof. P. C. Silva for his helpful suggestions dealing with nomenclatural problems. Dr Bruno de Reviers is acknowledged for the loan of the Holotype of *Gelidium pectinatum* Montagne held in the Herbarium of the Laboratoire de Cryptogamie, Muséum National d'Histoire Naturelle, PC. This work was supported by a grant from the Italian C. N. R. within the project PRISMA 2, subproject 3.

Address of the authors:

Giovanni Furnari, Mario Cormaci & Donatella Serio, Dipartimento di Botanica dell'Università di Catania, Via A. Longo 19, I-95125 Catania, Italy.

## Index

Accepted names are in Italics

- abbreviata, *Rhodymenia corallicola* var.  
obtusiloba f. **see** *Rhodymenia ardissoniae*  
(*Rhodophyta*)
- abbreviatus, *Ectocarpus* **see** *Ectocarpus fasciculatus* var. *abbreviatus*  
(*Phaeophyta*)
- abbreviatus, *Ectocarpus fasciculatus*  
(*Phaeophyta*)
- abies-marina*, *Cystoseira* **see** Taxa  
excludenda (*Phaeophyta*)
- abietina, *Bryopsis* **see** *Bryopsis plumosa*  
(*Chlorophyta*)
- abietina, *Bryopsis rosa* ("rosae") var. **see**  
*Bryopsis plumosa* (*Chlorophyta*)
- abrotanifolia, *Cystoseira* **see** *Cystoseira compressa* f. *compressa* (*Phaeophyta*)
- acanthocarpa, *Polysiphonia* **see**  
*Polysiphonia spinosa* (*Rhodophyta*)
- acanthophora, *Polysiphonia* **see**  
*Polysiphonia sertularioides*  
(*Rhodophyta*)
- acetabulum, *Acetabularia* (*Chlorophyta*)
- aciculare, *Halarachnion ligulatum* f. **see**  
*Halarachnion ligulatum* (*Rhodophyta*)
- acicularis, *Chondracanthus* (*Rhodophyta*)
- acicularis, *Chylocladia* **see** *Lomentaria firma* f. *firma* (*Rhodophyta*)
- acicularis, *Ectocarpus* **see** *Nomina nuda*  
(*Phaeophyta*)
- acicularis, *Gigartina* **see**  
*Chondracanthus acicularis*  
(*Rhodophyta*)
- acinarium, *Sargassum* (*Phaeophyta*)
- acrocarpum, *Ceramium diaphanum* var.  
**see** *Ceramium siliquosum* var.  
*zostericola* f. *acrocarpum*  
(*Rhodophyta*)
- acrocarpum, *Ceramium siliquosum* var.  
*zostericola* f. (*Rhodophyta*)
- aculeata, *Spyridia* **see** *Spyridia hypnoides* (*Rhodophyta*)
- aculeifera, *Polysiphonia* **see**  
*Polysiphonia opaca* (*Rhodophyta*)
- acuminatum, *Aglaophyllum* **see**  
*Nitophyllum punctatum* (*Rhodophyta*)  
acuminatum, *Nitophyllum* **see**  
*Nitophyllum punctatum* (*Rhodophyta*)  
acutiloba, *Rhodymenia corallicola* var.  
**see** *Rhodymenia ardissoniae*  
(*Rhodophyta*)
- acutilobus ("acutiloba"), *Fucus virsoides* var. **see** *Fucus virsoides*  
(*Phaeophyta*)
- adhaerens, *Codium* [misapplied name]  
**see** *Codium effusum* (*Chlorophyta*)
- adhaerens, *Jania* (*Rhodophyta*)
- adriatica, *Bonnemaisonia* **see**  
*Bonnemaisonia asparagoides*  
(*Rhodophyta*)
- adriatica, *Bryopsis* (*Chlorophyta*)
- adriatica, *Bryopsis cupressoides* var. **see**  
*Bryopsis adriatica* (*Chlorophyta*)
- adriatica, *Bryopsis plumosa* f. **see**  
*Bryopsis adriatica* (*Chlorophyta*)
- adriatica, *Cladophora* **see** *Cladophora vagabunda* (*Chlorophyta*)
- adriatica, *Cystoseira* **see** *Cystoseira spinosa* var. *spinosa* (*Phaeophyta*)
- adriatica, *Enteromorpha* (*Chlorophyta*)
- adriatica, *Galaxaura* **see** *Tricleocarpa fragilis* (*Rhodophyta*)
- adriatica, *Myriotrichia* (*Phaeophyta*)
- adriatica, *Pseudospora* **see** Taxa  
inquirenda (*Phaeophyta*)
